## Explanation of the Articles in the Calendar.

Standard times\* are given in all columns headed Toronto, Quebec, and Winnipeg.  
The times\* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.  
The standard times\* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.  
The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.  
MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.  
The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time\* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 15th.  
The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.  
The column, Sidereal Time Sun on Meridian, shows for every day the Sidereal Time when the Sun's centre is on the meridian of longitude 4h. 30m. W. (71° 30'). For any other meridian, interpolation of these quantities is necessary. For example, on October 10th, 1919, what would be the Sidereal Time when the Sun's centre is on the 81st meridian west longitude. Here the difference in longitude is 9°.5. The tabulated sidereal time on the 10th is 13h. 0m. 8s., and on the 11th 13h. 3m. 49s., giving an increase of 221 secs. which, multiplied by 9°.5 and divided by 360, gives a correction of 6 secs. to be added to 13h. 0m. 8s.  
GREATEST ELONGATION OF THE POLE STAR.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42° N., with the corresponding corrections, which are additive, for latitudes up to 65° N. (See pages 33 and 34.)  
From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed table. These constants are calculated for declination 88° 52' 38". The maximum error in the use of this table will not exceed 5 secs. in the higher latitudes, and less for the lower latitudes.

MOON'S PHASES.—This Table gives the times (standard 75th meridian)\* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

\* In the present Almanac the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

## STAR TABLE.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result subtract the constant quantity 1h. 32m.

To find the time of rising of the star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting, add the same number to the time of its meridian passage. Those stars marked (....) revolve in

a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

*Example.*—Find the times of culmination, rising and setting of  $\alpha$  Tauri (*Aldebaran*), January 2nd, 1919.

## ECLIPSES DURING 1919.

(F. L. BLAKE.)

In the year 1919 there will be three eclipses, two of the Sun, and one of the Moon.

I.—*A Total Eclipse of the Sun*, May 28th, 1919, invisible in Canada.

II.—*A Partial Eclipse of the Moon*, November 7th, 1919. The beginning visible generally in Asia except the eastern portion, Europe, Africa, the eastern part of North America and South America except the extreme western part; the ending visible generally in Western Asia, Europe, Africa, South America and North America, except the extreme western part. At Toronto the moon enters the penumbra 4h. 34m. p.m., enters the umbra 5h. 58m. p.m. Middle of eclipse 6h. 44m. p.m., leaves the umbra 7h. 30m. p.m., leaves the penumbra 8h. 55m. p.m. Magnitude of eclipse 0.184.

III.—*An Annular Eclipse of the Sun*, November 22nd, 1919, visible in eastern and central Canada as a partial eclipse. At Montreal the eclipse begins at 7h. 50m. a.m. Greatest phase 9h. 5m. and ends 10h. 21m. a.m. Magnitude of eclipse 0.37. At Toronto the eclipse begins 7h. 42m. and ends 10h. 15m. a.m. Magnitude of eclipse 0.46. At Quebec it begins at 7h. 59m. and ends 10h. 24 a.m. Magnitude of eclipse 0.33. These times are 75th mer. standard times. At St. John, N.B., the eclipse begins 7h 6m., ends 10h. 50m. a.m. 60th mer. time. Magnitude of eclipse 0.39. In Bermuda the eclipse begins 6h. 41m., ends 9h. 54m. a.m. 60th mer. time. Magnitude of eclipse 0.51.

The path of the annular eclipse starts not far from Austin in Texas, passing nearly central over the Gulf of Mexico and the full length of Cuba, grazing the north coast of South America, and then turning N. N.E. crosses the Atlantic Ocean striking the coast of Africa, passing over and ending a little east of Timbuctoo in the Sahara desert.

The Moon during 1919 will be at its farthest North and South limits on the following dates:—

Jan. 13.....North max.	July 10.....South
" 27.....South max.	" 23.....North
Feb. 9.....North	Aug. 6.....South
" 24.....South	" 20.....North

" 16.....South	Nov. 10.....North min.
" 30.....North	" 24.....South min.
June 14.....South	Dec. 7.....North
" 26.....North	" 22.....South

At Full Moon the Moon will be North or South of the Equator as follows:—

Jan. 16.....17° 37' North	July 13.....18° 17' South
Feb. 14.....8° 28' "	Aug. 11.....10° 43' "
Mar. 16.....2° 27' South	Sept. 9.....0° 57' "
April 15.....12° 28' "	Oct. 9.....9° 9' North
May 14.....19° 31' "	Nov. 7.....17° 10' "
June 13.....21° 35' "	Dec. 7.....20° 46' "

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0'003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

## ECLIPSES, Etc., OF JUPITER'S SATELLITES, 1919.

In eastern standard time (twenty-four hour system, hours reckoned from midnight). *tr in*, denotes transit of satellite; *tr eg*, transit egress; *sh in*, denotes shadow ingress; *sh eg*, shadow egress; *oc dis*, disappearance of satellite behind planet; *oc re*, reappearance from behind planet; *ec dis*, disappearance of satellite in planet's shadow; *ec re*, eclipse reappearance. The satellites of Jupiter are not visible from June 27th to August 11th by reason of the proximity of Jupiter to the Sun.

### THE MODERN NEBULAR HYPOTHESIS.

Being the views of eminent scientists, collated by F. L. BLAKE.

Before entering upon a description of the accepted cosmogony it would be as well to define the term *cosmogony* as the science of the development of the material universe. It has nothing to do with the origins of matter, and is concerned only with its laws and properties, and the transformations resulting from them. The ancient philosophers avoided the question of the origin of matter by asserting that the universe always had its present form from eternity. Many minds are still satisfied with a literal interpretation of the Old Testament account of the creation, that the Almighty Power, out of nothing, built the universe in six days substantially as observed in our own age. According to the accepted cosmogony the universe was in the beginning a widely diffused chaos, 'without form and void,' according to the scriptures. Out of it has been evolved, by the long-continued action of fixed natural laws, the present orderly system of the universe.

**The Universe is exceedingly old.** Once in the inconceivably remote past, many hundreds of millions of years ago, all the matter now composing the earth, sun, planets and stars, was scattered very thinly through the untold vastness of the celestial spaces. The universe did not then exist, except potentially. Then, as now, every particle of matter attracted every other particle, according to the Newtonian law. Gradually centres of attraction formed, and these centres pulled in towards themselves other particles. As a result of the inward falling of matter towards these centres the collision of its particles, and their friction upon each

other, the material matter grew hotter and hotter—luminous fire mist, like the filmy objects still seen in the sky, though vaster and exceedingly numerous—stars and suns from the nebulous fire mist. Countless ages elapsed; the process went on, swifter in some regions of space than in others. Millions upon millions of nebular nuclei began to form; condensation progressed; because the particles could not fall directly toward their centre of attraction, vast nebular whirlpools were set in motion; axial rotation began; and temperature rose inconceivably high at centres where condensation was greatest. Our Sun was one of these centres; earth and all the other planets had not yet a separate existence, but the materials now composing them were diffused through the great solar nebula. Every star, whether lucid or telescopic, was such a centre, or became one in the evolution and process of world building.

As contraction and condensation went on, the whirling became swifter, because gravitation brought the particles nearer to the axis round which they turned, and there was no loss of rotational moment of momentum. Centrifugal force gave the whole rotating mass the figure, first of an orange, then of a vast thickened disk, shaped like a watch. Eventually the masses composing its rim could no longer whirl round as swiftly as the more compact central mass; so a separation took place, the outlying nebulous regions being left or sloughed off as a ring, while all the central portion kept on shrinking inward from it. The mass of the

ring would rarely be distributed uniformly; but being lumpy, the more massive portions would in time draw in the less massive ones, and the ring would thus become a planet in embryo; and its time of revolution round the Sun would be that of the parent ring. If still nebulous, the planet would itself go through the stages of the solar nebula, and slough off rings to gather into moons or satellites. Meanwhile the parent nebula went on contracting, and leaving other rings, which in the lapse of ages developed into inner planets, and their rings as a rule into satellites.

Such in bare outline is the nebular hypothesis, a plausible theory; it has never been absolutely demonstrated, and probably never can be.

La Place, the great French astronomer, lent the weight of his name to an almost identical hypothesis, as also did quite a few philosophers and eminent men of science. Astronomers at once recognized that it must be based on sound dynamic conceptions. Later came the Herschels and Lord Rosse with their great telescopes, adding the evidence of observation; for they discovered in the sky nebulae, some globular in figure, some disc-like, others annular, and still others even

spiral. About the same time Von Helmholtz advanced the accepted theory of the Sun's contraction in explanation of the maintenance of solar heat; and Lane, an American, proved that a gaseous mass condensing as a result of gravitation might actually grow hotter, in spite of its immense losses of heat. Thus it was unnecessary to assume a high temperature of the nebula in the beginning. In the latter part of the nineteenth century, Darwin showed that probably the Moon had never been a ring round the Earth, but that she separated from her parent in a globular mass, in consequence of its too rapid whirling and the remarkable effects producible by Sun-raised tidal friction. His researches cleared up, also, the enigma of the inner satellite of Mars, revolving round its primary in less time than Mars himself turns on his axis; and no less the newly discovered fact that Mercury and Venus keep a constant face to the Sun, and satellites of Jupiter to their primary, just as the Moon to the parent Earth. Still later, by adapting these principles to stellar systems, See explained the fact of the great eccentricity of the binary orbits as a result of the long continued secular action of tidal friction.

LEGAL WEIGHTS AND MEASURES IN CANADA.

In Canada the law provides, with respect to weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce (437½ grains), one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy.

As regards measures—That the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon, containing ten standard pounds weight of distilled water, weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon, commonly known as the “Imperial gallon,” contains 277.274 cubic inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

IMPERIAL MEASURE.

Special note should be made of the fact that certain standards of weights and measures used in some of the states of the United States are not legal (though frequently used), in Canada. These standards are not so large, being about 20 per cent. smaller in capacity than the legal standards in Canada, i.e., the Imperial pint, quart and gallon.

The following tables shew the legal weight in Canada of certain commodities by the Barrel, Bushel, Bag, etc.:-

COMMODITIES BY THE BARREL.

Every barrel, half barrel, bag, sack or package must have marked thereon the name of the packer and the brand and the weight of the contents, and in the case of feed, the composition thereof.

	Net Weight in Dominion Standard pounds.	
	Barrel.	Half-barl.
Flour.....	196	98
Meal.....	196	98
Rolled oats.....	180	90
Rolled wheat.....	100	50

APPLES.

Barrels used for packing apples must be 26½ inches between the heads inside measure, 17 inches in diameter at head, and have a middle diameter of 18½ inches, containing as nearly as possible 96 quarts. Boxes used for packing apples must be not less than 10 inches deep, 11 inches in width and 20 inches long, representing as nearly as possible 2,200 cubic inches. Every such package (barrel or box), must be marked with the name of the person or corporation doing the packing, the name of the variety and the grade, viz.:—Fancy, No. 1, No. 2, No. 3.

The weight of a barrel of apples varies considerably according to the variety. The standard weight as accepted by the railway companies is 165 pounds. The average would probably be about 155 pounds. This includes weight of the barrel, which is about 15 pounds.

VEGETABLES AND OTHER ARTICLES.

Unless a bushel by measure is specially agreed upon, it must weigh the number of pounds set opposite each article.

Bushels.	Weight in Dominion Standard pounds.

POTATOES IN BARRELS, 165 LBS.

A barrel of potatoes shall mean, unless a barrel of specified size, kind or content by measure is agreed upon, 165 Dominion Standard pounds of potatoes.

EGGS.

When eggs are described as sold by the standard dozen, the dozen shall mean one pound and a half.

TABLES OF WEIGHTS AND MEASURES.

AVOIRDUPOIS WEIGHT.

16 drams.....	= 1 ounce
16 ounces.....	= 1 pound
7,000 grains.....	= 1 "
14 pounds.....	= 1 stone
100 ".....	= 1 hundredweight or cental
20 hundredweight.....	= 1 ton

DRY MEASURE.

2 pints.....	= 1 quart
4 quarts.....	= 1 gallon
2 gallons.....	= 1 peck
4 pecks.....	= 1 bushel

## WEIGHTS AND MEASURES—Continued.

## LIQUID MEASURE.

4 gills.....	= 1 pint
2 pints.....	= 1 quart
4 quarts.....	= 1 gallon
A cubic foot of water weighs almost 1,000 oz., and contains almost 6½ gallons.	

## SURFACE, SQUARE OR LAND MEASURE.

144 square inches.....	= 1 square foot
9 square feet.....	= 1 square yard
30¼ square yards.....	= 1 square rod
10 square chains.....	= 1 acre
160 square rods or 4,840 sq. yards.....	= 1 acre

## MEASURES OF TIME.

60 seconds.....	= 1 minute
60 minutes.....	= 1 hour
24 hours.....	= 1 day
7 days.....	= 1 week
52 weeks.....	= 1 year
12 months.....	= 1 year
365 days.....	= 1 year
366 days.....	= 1 leap-year
100 years.....	= 1 century

The mean solar year is equal to 365 days, 5 hrs. 48 min. 46 sec., or nearly 365½ days.

Every year whose number is divisible by 4 is a leap year, unless the number of the year ends in two ciphers, in which case the number must be divisible by 400. Thus, 2000 and 2400 will be leap years, but 1900 was not a leap year.

## ANGULAR MEASURE.

60 seconds (").....	= 1 minute, or 1'
60 minutes (').....	= 1 degree, or 1°
90 degrees (°).....	= 1 right angle

## CIRCLES, SPHERES AND CYLINDERS.

Diameter of a Circle × 3.1416 gives Circumference  
 Diameter Squared × .7854 gives Area of Circle  
 Diameter Squared × 3.1416 gives Surface of Sphere  
 Diameter Cubed × .5236 gives Volume of Sphere  
 One Degree of Circumference × 57.3 gives Radius  
 Diameter of Cylinder × 3.1416, and product by its length, gives the Surface  
 Diameter of Cylinder Squared × .7854, and product by the length, gives Volume  
 A Circular Acre is 235,504 feet, a Circular Rod 117,752 feet in diameter. The Circumference of the Earth is about 24,855 miles, and the Diameter about 7,900 miles

## RECEIPTS AND PAYMENTS, CANADA, 1918.

*Statement of the Receipts and Payments from the Consolidated Fund for the year ending 31st March, 1918.*

The receipts from the sources of the ordinary revenue of the country are paid into what is called the Consolidated Fund, and payments therefrom are made to cover the ordinary expenses. These receipts and payments, therefore, constitute what may be considered as the regular income and expenditure of the country, receipts from and expenditure out of loans and all other extraordinary transactions being excluded.

## SPECIAL WAR EXCISE TAXES IN CANADA.

An Act was passed by the Dominion Government on the 8th April, 1915, entitled THE SPECIAL WAR REVENUE ACT, 1915, under which certain taxes were levied for the purpose of securing extra revenue to meet war expenditures. The following is a brief summary of these taxes. Further details may be found in the Act itself.

# THE INCOME WAR TAX ACT, 1917,

WITH AMENDMENTS OF 1918.

The following is a summary of some of the more important provisions of the Act. The summary is not official and, in case of doubt, persons interested are recommended to write to the Commissioner of Taxation, Finance Dept., Ottawa:—

## INCOME.

Section 3 defines income as follows:

(1) For the purposes of this Act, "income" means the annual net profit or gain or gratuity, whether ascertained and capable of computation as being wages, salary, or other fixed amount, or unascertained as being fees or emoluments, or as being profits from a trade or commercial or financial or other business or calling, directly or indirectly received by a person from any office or employment, or from any profession or calling, or from any trade, manufacture or business, as the case may be; and shall include the interest, dividends or profits directly or indirectly received from money at interest upon any security or without security, or from stocks, or from any other investment, and, whether such gains or profits are divided or distributed or not, and also the annual profit or gain from any other source; including the income from but not the value of property acquired by gift, bequest, devise or descent; and including the income from but not the proceeds of life insurance policies paid upon the death of the person insured, or payments made or credited to the insured on life insurance endowment or annuity contracts upon the maturity of the term mentioned in the contract or upon the surrender of the contract; with the following exemptions and deductions:

### EXCEPTED INCOME.

- (a) Such reasonable allowance as may be allowed by the Minister for depreciation, or for any expenditure of a capital nature for renewals, or for the development of a business, and the Minister, when determining the income derived from mining and from oil and gas wells, shall make an allowance for the exhaustion of the mines and wells;
- (b) Two hundred dollars for each child under sixteen years of age who is dependent upon the taxpayer for support.
- (c) Amounts paid by the taxpayer during the year to the Patriotic and Canadian Red Cross Funds and other patriotic and war funds approved by the Minister;
- (d) For the purposes of the normal tax, the income embraced in a personal return shall be credited with the amount received as dividends upon the stock of any company or other person which is taxable upon its income under this Act: Provided, however, that in determining the income the personal and living expenses shall not be taken into consideration.

### HOLDING COMPANIES.

(2) Where an incorporated company conducts its business, whether under agreement or otherwise, in such manner as either directly or indirectly to benefit its shareholders or any of them, or any persons directly or indirectly interested in such company, by selling its product or the goods and commodities in which it deals at less than the fair price which might be obtained therefor, the Minister may, for the purposes of this Act, determine the amount which shall be deemed to be the income of such company for the year, and in determining such amount the Minister shall have regard to the fair price which, but for any agreement, arrangement or understanding, might be or could have been obtained for such product, goods and commodities.

## NON-RESIDENTS.

(3) In the case of the income of persons residing or having their head office or principal place of business outside of Canada but carrying on business in Canada, either directly or through or in the name of any other person, the income shall be the net profit or gain arising from the business of such person in Canada.

## UNDISTRIBUTED GAINS.

(4) For the purpose of the supertax only, the income of a taxpayer shall include the share to which he would be entitled of the undivided or undistributed gains and profits made by any syndicate, trust, association, corporation or other body, or any partnership, if such gains and profits were divided or distributed, unless the Minister is of opinion that the accumulation of such undivided and undistributed gains and profits is not made for the purpose of evading the tax, and is not in excess of what is reasonably required for the purposes of the business.

## RATE OF TAXATION.

Section 4 establishes the rate of taxation as follows:

(1) There shall be assessed, levied and paid, upon the income during the preceding year of every person residing or ordinarily resident in Canada or employed in Canada or carrying on any business in Canada, the following taxes:

- (a) Two per centum upon all income exceeding one thousand dollars but not exceeding fifteen hundred dollars in the case of unmarried persons and widows or widowers without dependent children, and exceeding two thousand dollars but not exceeding three thousand dollars in the case of all other persons; four per centum upon all income exceeding fifteen hundred dollars in the case of unmarried persons and widows or widowers without dependent children, and exceeding three thousand dollars in the case of all other persons; and in addition thereto, the following supertax:—
- (b) Two per centum upon the amount by which the income exceeds six thousand dollars and does not exceed ten thousand dollars; and
- (c) Five per centum upon the amount by which the income exceeds ten thousand dollars and does not exceed twenty thousand dollars; and
- (d) Eight per centum of the amount by which the income exceeds twenty thousand dollars and does not exceed thirty thousand dollars; and
- (e) Ten per centum of the amount by which the income exceeds thirty thousand dollars and does not exceed fifty thousand dollars; and
- (f) Fifteen per centum of the amount by which the income exceeds fifty thousand dollars and does not exceed seventy-five thousand dollars; and
- (g) Twenty per centum of the amount by which the income exceeds seventy-five thousand dollars and does not exceed one hundred thousand dollars; and
- (h) Twenty-five per centum of the amount by which the income exceeds one hundred thousand dollars and does not exceed two hundred thousand dollars; and
- (i) Thirty per centum of the amount by which the income exceeds two hundred thousand dollars and does not exceed four hundred thousand dollars; and
- (j) Thirty-five per centum of the amount by which the income exceeds four hundred thousand dollars and does not exceed six hundred thousand dollars; and

- (k) Forty per centum of the amount by which the income exceeds six hundred thousand dollars and does not exceed eight hundred thousand dollars; and
- (l) Forty-five per centum of the amount by which the income exceeds eight hundred thousand dollars and does not exceed one million dollars; and
- (m) Fifty per centum of the amount by which the income exceeds one million dollars; and in addition thereto the following surtax:—
- (n) Upon income in excess of six thousand dollars but not exceeding ten thousand dollars, five per centum of the normal tax and supertax payable thereon;
- (o) Upon income in excess of ten thousand dollars but not exceeding one hundred thousand dollars, ten per centum of the normal tax and supertax payable thereon;
- (p) Upon income exceeding one hundred thousand dollars but not exceeding two hundred thousand dollars, fifteen per centum of the normal tax and supertax payable thereon;
- (q) Upon income exceeding two hundred thousand dollars, thirty-five per centum of the normal tax and supertax payable thereon.

#### CORPORATIONS AND COMPANIES.

(2) Corporations and joint stock companies, no matter how created or organized, shall pay six per centum upon income exceeding three thousand dollars, but shall not be liable to pay the supertax or surtax; and the Minister may permit any corporation or joint stock company the fiscal year of which is not the calendar year, to make a return and to have the tax payable by it computed upon its income for the twelve months ending with its last fiscal year preceding the date of assessment.

(3) Any persons carrying on business in partnership shall be liable for the income tax only in their individual capacity.

(4) A person, who, after the first day of August, 1917, has reduced his income by the transfer or assignment of any real or personal, movable or immovable property, to such person's wife or husband, as the case may be, or to any member of the family of such person, shall, nevertheless, be liable to be taxed as if such transfer or assignment had not been made, unless the Minister is satisfied that such transfer or assignment was not made for the purpose of evading the taxes imposed under this Act or any part thereof.

#### DEDUCTIONS ALLOWED.

(5) Taxpayers shall be entitled to the following deductions from the amounts that would otherwise be payable by them for income tax:

- (a) From the income tax accruing for the year one thousand nine hundred and seventeen the amounts paid by any taxpayer for taxes accruing during the year one thousand nine hundred and seventeen under the provisions of Part I of *The Special War Revenue Act, 1915*, and from the income tax payable for any year thereafter the amounts paid by the taxpayer for taxes accruing during such year under the said Part I of the said Act; and
- (b) From the income tax accruing for the year one thousand nine hundred and seventeen the amounts paid by any taxpayer under *The Business Profits War Tax Act, 1916*, and any amendments thereto for any accounting period ending in the year one thousand nine hundred and seventeen. In the case of a partnership each partner shall be entitled to deduct such portion of the tax paid by the partnership under *The Business Profits War Tax Act, 1916*, as may correspond to his interest in the income of the partnership.

#### INCOMES NOT LIABLE TO TAX.

Under the Act certain incomes are not liable to taxation. These are described in Section 5, as follows:

- (a) The income of the Governor General of Canada;
- (b) The incomes of Consuls and Consuls General who are citizens of the country they represent and who are not engaged in any other business or profession;
- (c) The income of any company, commission or association not less than ninety per cent. of the stock or capital of which is owned by a province or a municipality;
- (d) The income of any religious, charitable, agricultural and educational institutions, Boards of Trade and Chambers of Commerce;
- (e) The incomes of labour organizations and societies and of benevolent and fraternal beneficiary societies and orders;
- (f) The incomes of mutual corporations not having a capital represented by shares, no part of the income of which inures to the profit of any member thereof, and of life insurance companies except such amount as is credited to shareholders' account;
- (g) The incomes of clubs, societies and associations organized and operated solely for social welfare, civic improvement, pleasure, recreation or other non-profitable purposes, no part of the income of which inures to the benefit of any stockholder or member;
- (h) The incomes of such insurance, mortgage and loan associations operated entirely for the benefit of farmers as are approved by the Minister;
- (i) The income derived from any bonds or other securities of the Dominion of Canada issued exempt from any income tax imposed in pursuance of any legislation enacted by the Parliament of Canada; and
- (j) The military and naval pay of persons who have been on active service overseas during the present war in any of the military or naval forces of His Majesty or any of His Majesty's allies.
- (k) The income of incorporated companies whose business and assets are carried on and situate entirely outside of Canada.

Under Section 7 every person liable to taxation shall make a return to the Minister of Finance at Ottawa each year, on or before the 28th of February. Employers shall make a return of all persons in their employ receiving taxable income, and corporations, etc., shall make a return of all dividends and bonuses paid. And all persons in whatever capacity acting, having the control, receipt, disposal or payment of fixed or determinable annual or periodical gains, profits or income of any taxpayer, shall make and render a separate and distinct return to the Minister of such gains, profits or income, containing the name and address of each taxpayer. Forms for these returns will be supplied by the Minister of Finance.

Under Section 8 the Minister of Finance may ask for additional information and may require the same under oath.

Section 9 provides for penalties in the event of making default in the sending in of proper returns or of making false statements.

#### ASSESSMENT.

Section 10 provides that the Minister of Finance shall determine the amount payable for the Tax on or before the 30th of April of each year, and that the tax must be paid within one month from the date of the assessment. In default of payment, interest at seven per cent. is charged.

Section 11 provides that all information received by the Government is held in secret. Provision is also made for the appointment of Boards for the hearing of complaints against any assessment made.

In case of any further information being required, application should be made to the Commissioner of Taxation, Finance Department Ottawa.

When such goods are imported direct from any British country into Canada, or taken out of warehouse for consumption therein, if imported as aforesaid, duties of customs (a) at the rate of four-fifths of the several rates of duties if any imposed on similar goods when imported from any foreign country, or (b) at the several rates of duty if any

set opposite to each tariff item respectively in the column British Preferential Tariff in Schedule A to the Customs Tariff 1907, and in any amendment thereof which ever shall be the lower rate, and (c) under the same conditions all goods enumerated in Schedule "C" to the said agreement shall be admitted free.

#### PROOF OF ORIGIN

(4) Proof of origin, as prescribed by the Minister of Customs, shall be furnished with the bill of entry at the Custom House for goods admitted to entry under any of the Tariffs in Schedule A; and that the decision of the Minister of Customs shall be final as to the Tariff or Surtax applicable in any case to imported goods by reason of their origin;

Provided, that goods for which entry is claimed under the Intermediate Tariff shall be bona fide the produce or manufacture of a country which has been admitted to the benefits of such Intermediate Tariff;

Provided further that every manufactured article to be admitted under the British Preferential Tariff shall be bona fide the manufacture of a British country entitled to the benefits of such British Preferential Tariff, and that a substantial portion of the value of the manufactured article has been produced by labor in one or more of such countries.

#### DUMPING CLAUSE

6. In the case of articles exported to Canada of a class or kind made in Canada, if the export or actual selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada there shall, in addition to the duties otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption;

Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:

(a) Goods whereon the duties otherwise established are equal to fifty per cent. ad valorem;

(b) Goods of a class subject to excise duty in Canada;

(c) Sugar refined in the United Kingdom.

(d) Binder twine or twine for harvest binders manufactured from New Zealand hemp, istle or 'ampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purposes of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2) That the expression "export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

(3) That if at any time it appears to the satisfaction of the Governor-in-Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying

out the provisions of this section and for the enforcement thereof.

(6) Such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities, and offered for sale to all purchasers on equal terms.

(7) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

#### SURTAX

7. Articles which are the produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a Surtax over and above the duties specified in Schedule "A," such Surtax in every case to be one-third of the duty specified in the General Tariff in the said Schedule "A."

(1) Any question arising as to any foreign country or goods coming under the operations of the provisions in regard to the Surtax shall be decided by the Minister of Customs, whose decision shall be final;

Provided that the Governor-in-Council may make regulations for carrying out the purposes of this Section, and may, by Order-in-Council, from time to time suspend the Surtax from application to the goods of any country.

#### FISH FROM NEWFOUNDLAND

8. Notwithstanding anything in this Act, fish and other products of the fisheries of Newfoundland may be imported into Canada free of Customs duty until otherwise determined by the Governor-in-Council, by Order published in the *Canada Gazette*.

9. Fish caught by fishermen in Canadian fishing vessels and the products thereof carried from the fisheries in such vessels, shall be admitted into Canada free of duty, under regulations by the Minister of Customs.

#### DRAWBACK

10. On the materials set forth in Schedule "B" to this Act, there may be paid out of the Consolidated Revenue Fund, the several rates of drawback of Customs duties set opposite to each item respectively in such Schedule, under regulations by the Governor-in-Council.

#### PROHIBITED GOODS

11. The importation into Canada of any goods enumerated, described or referred to in Schedule "C" hereto is prohibited; and that any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and that any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding two hundred dollars.

#### COMBINE CLAUSE

12. Whenever from or as a result of a judgment of the Supreme Court, or Exchequer Court of Canada, or of any superior court, or circuit, district, or county court in Canada, it appears to the satisfaction of the Governor-in-Council, that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

## CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED BY O. H. COGSWELL, B.A., OTTAWA

NOTE—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorem*, except when otherwise specified.

The Customs War Revenue Act of April 8th, 1915, provides that a War Tax of 5% Preferential or 7½% Intermediate or General be collected on each item in the Tariff except those designated as exempt.

\* Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, or Belgium.

† Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, Belgium or Italy.

The French Treaty is due to terminate Sept. 10th, 1919, when items enjoying the advantages of the treaty will revert to the general rate.

‡ Items marked thus have the British Preferential rate when the importation is from those colonies that come under the West Indian Trade Agreement Act of 1913.

Abbreviations, F.T. = French Treaty, Sp.T. = Special Tariff.

(1) A separate invoice must be furnished for preferential goods.

(2) Invoice must have certificate as to origin of goods

(3) Goods must be packed separately or not mixed up with other goods.

(4) Goods must come direct or have a through bill of lading.

Cash discount not in excess of  $2\frac{1}{2}\%$  may be allowed off for duty purposes if actually deducted on the invoice. Trade discount should be deducted from both columns on the invoice.

Cattle for exhibition purposes over six months old entering Canada from United States must have a veterinary certificate signed by a veterinary inspector of the United States Bureau of animal industry, stating that they have passed the tubercular test within the last six months, also an affidavit from the importer identifying the cattle entered.

Dogs, pure bred. To obtain free entry the importer must produce a certificate of purity of blood signed by the breeder. He must also make an affidavit that the dogs imported are the identical animals described on the certificate.

Deer and Moose. Deer shot for sport by persons not domiciled in Canada may be exported only within 15 days after the "open season." No person in any one year, shall export more than the whole of one moose and three deer, and that in not over two shipments. The exporter must produce the license to a Collector of Customs and sign a declaration as to the quantities and parts exported, the same to be attached to the export entry.

## ADDENDA—Continued.

Fowls, pure bred, must have certificate of blood describing the breed and signed by the breeder. Also the following sworn to statement made by the importer, "The fowls now imported and entered by the undersigned, are the identical fowl described in the invoice or entry."

Goods damaged in transit. Collectors may permit an importer to abandon to the Crown any whole package of goods damaged in transit, and be relieved of payment of duty thereon, if notice is given within 14 days of landing or entry of such goods.

Goods perishable and breakable. Collectors are permitted to make an allowance for all damage in excess of 15% as certified to by the appraiser on perishable and breakable goods such as fruit, crockery and glass, if the claim is made within three days of the arrival of such goods. If duty has been paid on full value of such goods, a refund may be arranged if the claim is made within 14 days and appraisement is made as soon as they can be examined.

Horses, carriage and harness going into the United States may be re-admitted into Canada duty free if they are returned within one year without change of ownership. They must be reported outward in duplicate with such description as to be identified on return. Duty is to be paid on repairs.

**Liquor:**—No person shall make or manufacture, except for scientific or medicinal purposes, any intoxicating liquor in the Dominion of Canada after the 1st day of April, 1918. After that date also, no person shall directly or indirectly transport or sell any intoxicating liquor.

Machinery valued at not less than \$10.00 when exported for repairs may be re-admitted by payment of duty on the repairs, only if returned within one year, provided further that application was made for outward entry and examination at Customs at time of export.

**Milk, Vegetable and Fruit Regulations.** The containers of milk, vegetable and fruit products:—

- (a) Are to be marked with the initials, the surname and the address of the packer;
- (b) Must give a true description of the contents;
- (c) Must show the firm No. assigned to the establishment;
- (d) Must be subject to the approval of the Veterinary Director-General as to design of label.

No such goods are admitted into Canada unless accompanied by a sworn declaration from the exporter that the goods are shipped in accordance with the regulations made under the Meat and Canned Foods Act.

Motor cycles as tourist outfit are admitted to entry into Canada for a period of one month under the same conditions as apply to automobiles, when for longer than one month the same conditions apply except a deposit of \$10.00 as a deposit instead of \$25.00.

**Perfecting entries.** Sight entries must be perfected as well as entries on Form B1, on which duty is paid, pending production of certificate under Customs regulations for free entry of same, and for which a refund of duty is applied for.

Refund on goods returned not according to order, must comply with the following conditions:—

- (1) Goods are to be identified by Customs.
- (2) Application for refund within one month and export within three months of date of entry.
- (3) Proof of export furnished.
- (4) Must be accompanied by export entry in triplicate.
- (5) Delivered under Customs supervision.
- (6) Copy of waybill signed by carrier, also copy of export entry duly certified to by Customs officer at port of exit must be annexed to refund claim.

Refund on goods damaged in transit, duty having been paid on the entire shipment according to the invoice, it will be necessary to bill the railway or inland carriers for the amount of the duty in addition to the value of the goods. It will then be up to the railway to produce a short landing certificate from the ocean carriers if the goods are from overseas, or a proof that the goods were lost or destroyed beyond the confines of Canada. When this proof is produced it must be attached to the refund claim.

**Return of goods not according to order.** When it is discovered that goods imported are not according to order, the first step is to write the shipper and request a certificate or Foreign Owner's Declaration, correctly executed, that the goods to be re-exported are of foreign origin. When this declaration has been forwarded and received it must be attached to the export entry accompanying the goods. In the meantime notice of such return and a request for refund must be given the Collector at once or within one month of the date of the entry. On the return of the duplicate copy of the export entry the claim for refund may be made. (See Refund.)

**Samples** (commercial traveller's), are subject to duty each time of importation. The trunks may be admitted free after paying duty at time of first importation.

**Samples of dutiable goods imported direct by non-residents of Canada** from any British or French Treaty country may be admitted on deposit of a sum equal to the duty. The importer will make a temporary entry on the face of which he will make the declaration that the goods are samples for use only in taking orders and will be exported within 12 months. Samples to be re-exported must be marked for identification.

**Sight entries** are usually occasioned by defective invoices or no invoices at all. They are to be made out in quadruplicate and the value of the importation must be so increased for duty as to be absolutely certain to protect the revenue. On receipt of corrected invoices a claim for refund may be submitted but not after a period of six months, except by permission of the Department.

**Special duty exemptions.** Special duty does not apply in the case of goods not made in Canada, or when the difference between the home price at time shipped and the price to the Canadian purchaser does not exceed 5% of the home price. Provided, however, the whole difference is to be taken into account for special duty purposes when exceeding 5%. If the home price at time shipped has been subject to sudden inflation the price at time of purchase may be accepted as the fair market value in the application of the dump.

Special duty does apply and without exemption allowance to articles of a class and kind made in Canada, even when admitted free of ordinary duty.

Value for duty is subject to the following general regulations:—

- (1) Home consumption price at time shipped.
- (2) Actual trade discount allowed not to reduce below home consumption price.
- (3) Usual commission is not dutiable but special commission is dutiable. Over 5% may usually be considered a special commission.
- (4) Price of goods as sold in bond not to be accepted for duty.
- (5) Foreign revenue duties to be added, but foreign export duties not to be added.
- (6) Value must be without condition as to sale.
- (7) Value for duty to be at the distributing point.
- (8) Must be the value on condition ready for shipment.
- (9) Bonus for early delivery must be considered part of value for duty.

## ADDENDA—Continued.

(10) Cash discount not over  $2\frac{1}{2}\%$  is allowed off if actually deducted on invoices.

(11) Appraisers valuation is to be accepted.

(12) Articles of different kinds, the highest value is to be taken as the average for duty.

(13) No allowance off for packages, straw, twine, etc.

Valuation for duty on goods not sold for home consumption may, usually, be determined by ascertaining the total cost of producing the goods in condition ready for market and adding thereto the usual profits made on sales of a similar line of goods.

Waybills must show:—

(1) Name and address of consignee.

(2) Marks and number of packages.

(3) Description of packages.

(4) When goods are in bulk, the number of pieces, bundles or bushels.

(5) In case of agricultural instruments, number and description of each class of instruments.

**WAR MEASURES.**—Enemy trade. Goods imported into Canada from Norway, Sweden, Denmark, Holland, and Switzerland, must be accompanied by certificate of origin issued by a British Consul, stating that the goods have not been produced in an enemy country, and that no person treated as an enemy has any interest in the merchandise. Goods from the above countries without certificate are prohibited.

**Holland:**—No goods are permitted export to Holland unless consigned to the Netherlands Overseas Trust.

There must be attached to the bill of lading, a certificate issued by the Netherlands Overseas Trust, consenting

to the goods being consigned to the Trust, on behalf of the Dutch importer.

The number of the certificate and its date of issue should be endorsed on the export entry.

The number of this certificate or permit should also be inserted in the manifest against each item of cargo.

Bills of lading should not be signed till this number is inserted.

**Export prohibited:**—The list of prohibited exports contain a large number of items too large to be given here.

Prospective exporters are advised to consult the local Customs, and learn what restrictions, if any, may be placed upon the goods desired to be exported, as well as the steps necessary to be taken before proceeding to export their goods.

Application should, however, be made direct to the War Trade Board, Ottawa, for license to export prohibited goods, except in respect to foodstuffs, now dealt with by the Canada Food Board, Ottawa, and also as to wheat, subject to the approval of the Board of Grain Supervisors, Winnipeg.

Licenses will be issued by the Department of Customs, either direct or through its Collectors.

**Imports:**—Prospective importers are advised to consult the local Customs, to learn what restrictions, if any, may be placed upon goods desired to be imported.

They are, however, to make application direct to the War Trade Board, Ottawa, for the approval of licenses to import goods on the restricted list.

## THE KING'S CIVIL LIST.

Immediately after the accession of His Majesty George V., there was passed in the Parliamentary session of 1910 the Civil List Act, an Act by which the charges on the consolidated fund for the maintenance of the King and his family are determined.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the accession of the late King Edward VII., the income from the Crown Lands has very greatly increased, until at the present time it is greater than the amount granted to the King and Royal Family in the Civil List.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of £470,000, which was the same amount as that granted to King Edward VII.

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse.....	£110,000
II. Salaries of His Majesty's household and retired allowances.....	125,800
III. Expenses of His Majesty's household.....	193,000
IV. Works.....	20,000
V. Royal bounty, alms and special services.....	13,200
VI. Unappropriated.....	8,000
Total.....	£470,000

Her Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoys an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Dowager Duchess of Fife), Princess Victoria and Princess Maud (Crown Princess of Denmark), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £576,000, being £470,000 for the King's Civil List, and £106,000 in respect of allowances to other members of the Royal Family. This amount is somewhat increased by the allowance of £70,000 made to Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to £30,000 should she survive his Royal Highness. Each of King George's sons is to receive an annuity of £10,000 on coming of age, to be increased to £15,000 on his marrying. The allowance to daughters is to be £6,000 a year. No provision is made in the Act for children of younger members of the Royal Family.

The annuities to the Royal Family after the resettlement at the accession of George V. stand thus:—

His Majesty (Civil List).....	£470,000
Queen Alexandra.....	70,000
Pensions transferred to Consolidated Fund.....	18,000
Princesses Louise, Victoria and Maud..	18,000
Princess Christian of Schleswig-Holstein.....	6,000
Princess Louise, Duchess of Argyll....	6,000
Duke of Connaught.....	25,000
Princess Beatrice (of Battenburg)....	6,000
Duchess of Mecklinburg-Strelitz.....	3,000
Duchess of Edinburgh.....	6,000
Duchess of Albany.....	6,000
Total.....	£634,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

(a) The Victoria Cross (in imitation of the French Cross of the Legion of Honour) was instituted by Queen Victoria at the close of the Crimean campaign, 1856. It is granted to soldiers and sailors of any rank for a single act of valour, the performance of some signal deed of devotion in the enemy's presence. It is a Maltese Cross, made of gun metal, with a Royal Crown in the centre surmounted by a lion and the words "For Valour" indented on a scroll below the Crown. The ribbon is red for the army and blue for the navy. A pension of £10 a year accompanies the decoration.

## MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present none remain.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Sovereign, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, especially in 1904, when a new Militia Act was passed (ch. 23, 4 Ed. VII.). By it the Militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children. The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Members of the King's Privy Council for Canada, Judges, Members of the Executive Councils of Provinces, Deputy Ministers of the Federal and Provincial Governments, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The Active Militia, or any portion thereof, may be ordered to drill or train for a period of not more than 30 days in each year.

The Militia is divided into Active and Reserve Forces. The Active force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service, for the Active Militia, is three years; for the Reserve Militia, such as is prescribed.

## RIFLE ASSOCIATIONS.

1. Their formation and government are laid down by regulations promulgated in Militia General Orders 88, dated June 1, 1903.

2. Are of two following classes:—

(a) *Military*—consists of persons in the Active Militia, and are managed by officers of the respective units.

(b) *Civilian*—consists of persons in the Reserve Militia, who, while members of any such club or association, are enrolled in such reserve. Are managed under such regulations as may from time to time be issued.

3. Rifle Associations organized under these regulations come under the control of the Department of Militia and Defence.

4. To form an association in a locality requires not less than forty men residing therein, and aged over sixteen years. They must be members of the Active Militia (for Military Associations); or subscribe to the oath of allegiance to His Majesty (for Civilian Associations).

5. A captain is appointed to every Civilian Association, who, with a committee of two members, manage the affairs of the association.

6. The annual subscription to be not less than \$1 each member.

7. A member may resign on three months notice to the captain. The former must return all government property in his possession before the resignation can be accepted.

8. An association may be disbanded for grave irregularities or mismanagement.

9. A member may be expelled by a two-third vote of the association to which he belongs.

10. No man is allowed to belong to more than one association.

11. The Officer Commanding District is charged with the organization, etc., after the necessary papers have been forwarded by him, are recommended at head-

quarters and approved by the Minister of Militia and Defence.

12. An association maintaining a membership of less than forty must disband.

13. In the event of a national emergency, any person who is or has been duly enrolled in any Rifle Association in Canada shall be deemed to be already enrolled in the Reserve Militia of the Dominion.

14. *Rifle*.—The arm used is the '303 rifle, either of Government issue or of *bona fide* Government pattern, and bearing the Government viewer's mark.

15. Associations may be supplied with rifles for the use of members on the captain's requisition and on his furnishing a bond signed by three responsible members, for the safety, preservation, and safe return when required to do so, of all rifles issued to them. (*Note*.—Each rifle is valued at \$25).

16. Under the conditions of the bond, ten rifles may be issued to each association of forty members, and five additional rifles for every twenty additional members, until the stock of rifles available for this purpose be exhausted.

17. *Ammunition*.—200 rounds a year to each member of a Military Association; 100 rounds to each member of a Civilian Association; free issue.

Extra ammunition as follows:—

Service Ammunition per 1,000 ..... \$15.00

Miniature Cartridges, per 1,000 ..... 3.00

Regulations, published in pamphlet form, give full details and information as to organizing, etc., rifle associations; officers' duties, returns, also standard rules, instructions as to targets and marking, care of arms, rifle ranges, etc. (issued by Dept. of Militia and Defence).

When demanding ammunition on repayment, the amount should be deposited in a Canadian chartered bank, to the credit of the Receiver General, and the Deposit Receipt annexed to the requisition.

### Non-Commissioned Officers and Men.

(a) Compulsory retirement, if required, after 20 years' service,—pension for life.

(b) Voluntary retirement, after 20 years' service,—pension for life.

(c) Constrained retirement (due to body or mind infirmity), after not less than 15 years' service,—pension for life.

### Rate of Deduction, etc.

Five per cent. a year on salary, for a period not exceeding 35 years; and no addition to pension after said period.

### Widows and Children of Officers.

Compassionate allowances are granted thereto, based on officer's rank and salary.

All of these pensions and allowances are granted upon certain other conditions, which are fully defined in "The Militia Pension Act, 1901," and amendments.

*Note*.—An act somewhat similar to this one was passed in 1902, granting pensions to the R.N.W.M. Police Force.

## THE MILITIA PENSION ACT, 1901.

### (Synopsis.)

For permanent staff and militia; non-commissioned officers and men; widows and children of officers.

*Not applicable to persons who were retired prior to passage of Act.*

### Officers.

(a) Compulsory retirement after 20 years' service,—pension for life.

(b) Voluntary retirement after 25 years' service,—pension for life.

(c) Constrained retirement (due to body or mind infirmity) before retirement at which a pension might be granted,—a gratuity based on years' service.

(d) Retirement to promote efficiency or economy,—same gratuity as would be granted in consequence of body or mind infirmity.

## CANADIAN TEAMS TO WIMBLEDON AND BISLEY AND OFFICERS THEREOF FROM 1872 TO 1914.

NOTE.—Owing to European War, no D. R. A. matches took place from 1914 to 1918 inclusively, and therefore no list can be given of the team to shoot at Bisley, in 1919, if latter meet takes place.

Canada has always been represented by a team of its best shots at the annual Prize Meeting of the National Rifle Association of England. The first matches were held in 1872, at Wimbledon, but since 1890 they take place at Bisley. The most coveted of all prizes, the Queen's—now the King's prize (£250), was won four times by a Canadian: Pte. T. H. Hayhurst, 13th Regt., Hamilton, Ont., in 1895; Pte. J. S. Perry, 6th Regt., D.C.O.R., Vancouver, B.C., in 1904; Pte. W. J. Clifford, 10th Regt. (Royal Grenadiers), Toronto, Ont., in 1911, who also won the Prince of Wales's prize; Pte. W. A.

Hawkins, 48th Regt., Toronto, Ont., in 1913. Many other important prizes have also been captured by Canadians. The Kolopore Cup, contested for by the Mother Country and the Colonies was won nine times by the Canadians: in 1872, '75, '81, '84, '89, '96, '05, '06, and '09. Eight men compose the team.

Canada sends to Bisley twenty representatives to take part in the various matches open to them, and these men are selected by competition held at Ottawa under the Dominion of Canada Rifle Association.

## CANADIAN NAVAL AND MILITARY PENSIONS (EUROPEAN WAR).

*Pension Regulations as amended to October 22nd, 1917, for service in the Naval Forces of Canada and the Canadian Expeditionary Force, during the present War.*

NOTE.—Application should be made to the Board of Pension Commissioners, Union Bank Building, Sparks Street, Ottawa, Ont., for further information relating to pensions or other matters connected therewith.

1. The Commission created on June 3rd, 1916, is known as the Board of Pension Commissioners and consists of three commissioners, including a chairman, who are appointed for ten years with eligibility for re-appointment.

2. It has exclusive jurisdiction and authority to consider and make all grants and payments of military and naval pensions, gratuities, allowances and assistance (and to deal with all matters pertaining thereto) to persons wounded, injured or incapacitated in the military or naval service of Canada (called members of the forces), or to their dependent relatives.

3. It has authority to engage such clerical and other assistance as they may consider requisite for the transaction of their duties.

4. In the administration of their powers by the Commission great care is taken to insure all applications being considered and determined with the utmost despatch.

5. There are no appeals from the decisions of the Commission; an applicant for a pension, gratuity, allowance or assistance may present the case either personally or by counsel before the full Commission for the hearing of the complaint.

6. The pension or grant cannot be assigned, charged, attached, anticipated or commuted.

7. Pensions awarded to members of the forces are determined by the disability of the applicant without reference to his occupation prior to enlistment.

8. Each case is subject to review at end of a year from the time the pension is granted, except in cases where the disability is obviously permanent.

9. No deduction is made from the amount awarded a pensioner owing to his having undertaken work or perfected himself in some form of industry.

10. The Commission provides for the vocational training of those who are desirous of taking advantage of it, and for supplying artificial limbs and appliances to those who would thereby be benefited.

11. The Commission has power to entrust to a reputable person for administration the pension or grant when the Commission is satisfied it is being improvidently expended by the pensioner or beneficiary; or that he is not maintaining his family to whom he owes the duty of maintenance.

12. There are 20 classes of pension on account of disability (Schedules A and B appended), and pension is awarded in direct proportion to partial or total disability. Permanent disability to a less degree than five per cent entitles to a gratuity not exceeding \$100.

13. A Sub-Lieut. (Naval) or Lieut. (Militia), or higher rank, totally disabled and also helpless to attend to physical wants, may receive a further allowance not exceeding \$300 a year, subject to review from time to time. This allowance may, in the discretion of the Commissioners, be awarded to any totally disabled pensioner although he be not entitled to a Class 1 pension.

14. In addition to the personal pension, annual allowances for children (Schedules A and B) are paid to disabled pensioners. If the children for whom allowances are being paid, do not live with the pensioner the allowances for them may be paid to a guardian. The

words "Child" or "Children" include a step-child, also a child in respect of whom the member of the forces was in *loco-parentis*, but, in either case, only if the relationship had existed before the disability of said member.

15. A member killed, or dead as result of injuries received, or disease contracted or aggravated on active service, the widow, provided she was married to him at the time of disability is entitled until re-marriage to the pension set forth in Schedules C and D (appended hereto) and is also entitled to the allowance for children as provided for in said Schedules. If the children do not live with the pensioner, allowances for them may be paid to a guardian. On re-marriage of the widow her pension ceases, but she is entitled then to a gratuity equivalent to one year's pension. The word "re-marriage" includes the co-habiting with a man in the relationship of man and wife, but no gratuity is paid except in the case of legal re-marriage.

16. A member, widower, killed or dead as result of injuries received, or disease contracted or aggravated on active service, and who leaves a child or children, such child or children receive an allowance of \$16 per month each. In the case the member was not a widower but leaving a widow whose whereabouts are unknown, the children receive an allowance of \$16 per month each until the reappearance of the widow. If she reappears the pension to which she is entitled for the period between the date on which pension is granted to the children and the date on which pension is granted to her, shall be decreased by the amount which the children have received in excess of what they would have received had the widow been pensioned.

17. A woman who has, without being married to a member, lived with him as wife, or the child or children of any such man or woman, may be granted the customary pension and allowance for a wife or for a child or children on the Commissioners being satisfied that the circumstances were such as to warrant the conclusion that the woman had at the time of enlistment and for a reasonable time previously thereto publicly been represented as the wife of said member, or if satisfied that justice would be done by the recognition of such woman, for the purpose of a pension, as the wife of such member. On the re-marriage of the woman her pension ceases, but she is entitled to a gratuity equivalent to one year's pension.

18. No allowance is paid for child (boy) over age of 16, or (girl) 17, except he or she cannot earn a livelihood owing to mental or physical infirmity, in which case it is at the discretion of the Commissioners to continue the allowance until the child is 21. Allowance ceases if child marries.

19. No pension or allowance is paid to a member or any person dependent upon him when disability or death was occasioned by intemperance or improper conduct of such member, unless the Commissioners otherwise consent.

20. Claims for pensions must be made within two years of date of appearance of disability. Time in hospital or on service is not counted in said two years.

21. A parent, or person in place thereof, wholly or mainly dependent upon a member (latter without dependent children and leaving no widow nor woman) (see para. 17) killed or dead as result of injuries on

active service, is entitled to the pension set forth in Schedules C. and D., provided however that no such parent or person is entitled to more than one pension, nor is more than one such parent or person entitled to pension on account of one member, or on account of more than one member belonging to the same family. On the re-marriage of a woman receiving such pension, latter then ceases, but she is entitled to a gratuity equivalent to one year's pension.

22. Brothers under age of 16 and sisters under age of 17, wholly or mainly dependent upon a member killed or dead as result of injuries on active service, if such member was without dependent children and leaves neither a widow nor a woman (see para. 17), are entitled to allowances at the rates set forth in Schedules C. and D.

23. If a member to whom a pension has been granted in any of the classes 1 to 5, dies, leaving a widow to whom he was married at the time of his incurring the disability in respect of which his pension was granted, or a woman occupying at said time the position of a wife (*vide* para. 17), or leaving ohildren by such widow or woman, such widow or woman is entitled, until re-marriage, to pension at rates set forth for widows in Schedules C. and D.; is also entitled to allowance for each child at rates set forth in said Schedules. If the children do not live with such widow or woman their allowance may be paid to guardian. On re-marriage of widow or woman her pension ceases, but she is entitled then to a gratuity equivalent to one year's pension. Orphan children of such member are entitled to allowances at rates set forth in para. 16.

24. Pension to a member and allowance to his children on account of disability takes effect from day following that of his discharge. Pension to widow or parent and allowances to children or brothers and sisters on account of death of member takes effect (a) from first day of month following that in which the member is officially reported missing or dead in cases in which separation allowance or assigned pay or both were not being paid or were discontinued on last day of month in which he was officially reported missing or dead; (b) in all other cases, from a day fixed by the Commissioners. A gratuity equivalent to two months' pension or allowances is paid the first month in addition to pension and allowances to widow and children.

25. Regulations apply to or in respect of members of the Naval Forces of Canada and forces serving in the Canadian Expeditionary Forces during present war, and come into force on 4th August, 1914, and apply to or in respect of all casualties occurring in the said forces since that date.

26. Pension awarded to a member in consequence of his insanity, if the pensioner is in an asylum, or other institution, cost of maintenance therein is paid to the Superintendent or other proper officer thereof; the balance is paid to such dependent relative or relatives of pensioner as the Commissioners may direct; if there is no dependent relative, balance is retained until pensioner's recovery or death. If a pensioner remains in care of his family his whole pension may be paid to such member of his family as the Commissioners may direct, or part only, and the balance retained until the pensioner's recovery or death. However, if a guardian of pensioner has been appointed by a court of competent jurisdiction, the Commissioners may direct the pension be paid to such guardian.

27. The Commission has authority and jurisdiction to appoint one or more persons who shall have power during such appointment to administer an oath and to hear and receive evidence upon affidavit in any part of Canada, with respect of all matters pertaining to military or naval pensions.

28. Increase of pensions, allowances or gratuities authorized by Order-in-Council of October 22nd, 1917, takes effect from 1st April, 1917; the remaining provisions, are on 1st November, 1917, and retroactive only to confirm decisions given and actions taken by the Commission.

# POSTAL INFORMATION.

*For List of Officials of Post Office Department, see Dominion Government.*

## War Tax on Letters and Post Cards.

A war tax of one cent each, in addition to postage, is imposed on all letters mailed in Canada, except those which are subject to the postage rate of 5 cents for the first ounce and 3 cents for each additional ounce or fraction of an ounce, and on all post cards bearing written communications mailed in Canada addressed to places in Canada, the United States or Mexico. Letters and post cards subject to war tax on which the tax is not prepaid will not be forwarded.

## Letter Rates, &c.

**Canada.**—Letters posted in Canada, addressed to any place within the Dominion, 2 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by postage stamps.

**Post Cards.**—From any place in Canada to any place in Canada or to the United States or Mexico, 1 cent each. British and Foreign, 2 cents each.

**Private Post Cards.**—Besides the Post Cards issued by the Post Office Department, pictorial and other cards of private manufacture duly prepaid by means of postage stamps may be mailed in Canada for delivery within Canada or for transmission to other countries. Private Post Cards for delivery in Canada, U. S. and Mexico, must not exceed a size of 6 inches in length by  $3\frac{3}{8}$  inches in width, nor be less than  $3\frac{1}{2}$  inches in length by  $2\frac{1}{4}$  inches in width. Cards for other countries must not exceed  $5\frac{1}{2}$  inches in length by  $3\frac{3}{8}$  inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

The right-hand half of the face of the ordinary official post cards and of private post cards is to be strictly reserved for the address, postal directions and postage stamps. The left-hand half of the face and the entire back of the card are available for the purposes of the sender, subject to restrictions as to attaching articles to post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

**United Kingdom** and British Possessions and Protectorates.—Postage on Letters, 2 cts. per oz.

**Foreign Countries, except United States and Mexico.**—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

**United States and Mexico.**—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (2 cents) must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries except the United States and Mexico. Only the deficient postage is collected on over-weight letters for the U. S. and Mexico which are prepaid one rate.

**Express or Special Delivery Letters.**—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, a "Special Delivery" stamp of the value of 10 cts. or ordinary postage stamps of the value of 10 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Belleville, Brantford, Brockville, Chatham, Fort William, Galt, Guelph, Hamilton, Kingston, Kitchener, London, Niagara Falls, Ottawa, Owen Sound, Peterboro', Port Arthur, Sarnia, Stratford, Sault Ste. Marie, St. Catharines, St. Thomas, Toronto, and Windsor; in Quebec—Hull, Montreal, Quebec, St. Hyacinthe, Sherbrooke, Shawenegan Falls and Trois Rivières; in New Brunswick—Fredericton, Moncton and St. John; in Nova Scotia—Amherst, Halifax and Sydney; in Manitoba—Brandon and Winnipeg; in Saskatchewan—Moose Jaw, Prince Albert, Regina and Saskatoon; in Alberta—Calgary, Edmonton, Lethbridge, Medicine Hat and Strathcona; in British Columbia—New Westminster, Vancouver and Victoria; in P. E. Island—Charlottetown. The "Special Delivery" stamp of the value of ten cents may be obtained at any Money Order post office.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of

10 ets., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

**International Reply Coupons.**—Persons desiring to prepay replies to letters addressed to correspondents in almost all Postal Union Countries, can purchase at any Post Office in this Country coupons exchangeable for postage stamps of the value of 25 centimes (5 cents), at the price of 6 cents.

### Registration.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

The sender of a registered article for delivery in Canada or in any other Postal Union Country, can obtain an acknowledgment of its receipt by the addressee at a cost of 5 cents in addition to the ordinary postage and registration fees.

### Indemnity for Registered Articles.

**Domestic**—(1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

(4) No indemnity is given for an article upon which the registration fee has not been paid.

**British and Foreign.**—Except in cases beyond control (e.g., tempest, shipwreck, earthquake, and war), the Postal Administrations of all countries and Colonies included in the Postal Union undertake to pay an indemnity of 50 francs (\$10) when it is proved to their satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in their custody.

### 1. Newspapers and Periodicals.

Newspapers and periodicals printed and published in Canada and posted from the office of publication.

The general postage rate on newspapers and periodicals printed and published in Canada not less frequently

than once a month, mailed by the publishers at the post office in the place where they are published, and addressed to regular subscribers or to newsdealers (not resident in the place of publication) in Canada, Mexico, the United Kingdom, and (provided they can be forwarded by direct mail steamers or *via* England) in the following British Possessions:—Barbados, Bermuda, British Guiana, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, Newfoundland, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, State of North Borneo, Trinidad and Tobago, Turk's Islands, Union of South Africa (comprising the Provinces of British Bechuanaland, Cape of Good Hope, Natal, Orange Free State and Transvaal), and Zanzibar, is a bulk rate of  $\frac{1}{4}$  cent per pound. The following exception, however, is to be noted:—Newspapers and periodicals published not *more* frequently than once a week and not *less* frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 80 miles in diameter, having as centre either the place of publication or any established Post Office not more than 40 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such newspapers and periodicals may also be delivered free to subscribers at the office at which they have been posted, except in cities where the letter carrier system is established. In the latter case ordinary transient newspaper rates are charged.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 1 cent per pound or fraction thereof. Other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

The postage on *bond fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 1 cent per lb.

### 2. British and Foreign Newspapers posted by Newsdealers in Canada.

British and foreign publications as well as Canadian publications, if authorized by the Department may be posted by newsdealers in Canada to subscribers in Canada or Mexico at the rate of 1 cent per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service. Newsdealers may also post recognized Canadian newspapers and periodicals to regular subscribers in the United Kingdom and British Possessions as mentioned above, at the bulk rate of 1 cent per pound.

### 3. Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, other than Canadian newspapers sent from the office of publication, and British, Canadian and foreign newspapers posted by newsdealers. When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the

United Kingdom, or British Possessions as mentioned above, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

To countries other than those mentioned above the rate is one cent for two oz. or fraction thereof.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

#### Books, etc.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for British and foreign post, 4 lbs. 6 ozs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth, but a length of 3 feet 6 inches will be allowed, provided the combined length and girth do not exceed 6 feet; British and foreign: 18 inches in any direction, unless in the form of a roll, when a length of 30 inches is allowed provided the diameter does not exceed 4 inches.

Book packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

Books for the use of the blind are free of Canada postage when addressed to places in Canada, New Foundland, the United States and Mexico, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

#### Certain Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries at the rate applicable to books, etc.:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications), engravings, lithographs, photographs (when not on glass or in cases containing glass, official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards and single post cards without written communications, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers and educational exercises passing between colleges and extra-mural students (written corrections and comments on examination papers and educational exercises may be enclosed with them, but no correspondence is allowed), printers' proof sheets with correc-

tions, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

Circulars are communications in print, or produced by a multiplying process easy to recognise, but not direct from a typewriting machine, which are issued in identical terms to several individuals. A circular may, without becoming liable to a higher rate of postage, have a written date and signature, and may have the name of the addressee repeated in writing inside. Reproductions of imitations of hand or typewritten matter, in order to be accepted as circulars, must be handed in at the post office wicket, in a number not less than twenty identical copies, separately addressed. Failure to comply with either of these conditions will subject the article to letter rate of postage.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

The limit of weight for a packet of miscellaneous matter is 5 lbs., and the general limit of size is 30 inches in length by 12 inches in width or depth, but a length of 3 ft. 6 in. is allowed, provided that the combined length and girth of any packet do not exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on books, miscellaneous matter, samples and parcels of merchandise, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

#### British and Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public

functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 18 inches in any direction unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs. 6 ozs.

#### Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 12 ozs. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

There must be no writing upon or in any packet of samples, except the address of the person for whom it is intended, the address of the sender, a trade mark or number and the price of the articles, or such words as may be necessary to indicate precisely the origin and nature of the merchandise.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids (except intoxicating liquors), oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

#### Samples for United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States, Mexico, and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the

following rates:—For the United States and Mexico 1 cent for each 2 oz. or fraction of 2 oz.; for the United Kingdom and other countries:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids (except intoxicating liquors), oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

#### Parcel Post in Canada.

Articles of Mail Matter acceptable at Parcel Post rates include farm and factory products, merchandise of all descriptions such as dry goods, groceries, hardware, confectionery, stationery (including blank books, etc.), seeds, cuttings, bulbs, roots, bedding plants, scions or grafts, and all other matter not included in the first class, and not excluded from the mails by the general prohibitory regulations with respect to objectionable matter.

Parcels containing intoxicating liquors or explosives are expressly prohibited.

The rates of postage on articles accepted for transmission by Parcel Post are as follows:

(a) Five cents for the first pound and 1 cent for each additional pound or fraction thereof, up to four pounds, and 2 cents for each subsequent pound up to eleven pounds within a radius of twenty miles from the place of mailing, irrespective of Provincial boundaries.

(b) Ten cents for the first pound and 4 cents for each subsequent pound or fraction thereof, for all points in the Province in which a package is posted, outside of the twenty mile radius.

(c) Ten cents for the first pound and 6 cents for each additional pound or fraction thereof, for all points outside the Province in which a parcel is posted, and beyond the twenty mile radius, with an additional charge of 2 cents a pound for each Province that has to be crossed to the destination of the parcel, not including the Province in which it is to be delivered up to a maximum of 12 cents a pound.

The three Provinces, Nova Scotia, New Brunswick and Prince Edward Island, are to be considered as one zone.

An additional charge to meet the extra cost of transportation will be made on parcels addressed to or posted at offices in certain outlying districts when such parcels have to be conveyed more than 100 miles by a continuous stage service, such districts to be designated by the Postmaster General.

The charge on any parcel shall not be greater than 1 cent an ounce.

The postage on Parcel Post packets must be prepaid by means of postage stamps securely affixed to the parcels.

An insufficiently prepaid Parcel Post packet is forwarded to destination subject on delivery to payment of double the deficiency, provided at least 1 cent is prepaid. After the additional postage required on any short paid parcel has been collected from the addressee,

"postage due" stamps are to be affixed to the parcel and cancelled by the Postmaster.

Parcel Post packets totally unpaid will be sent to the Branch Dead Letter Office.

Parcels must be prepared for mailing in such manner that the contents can be easily examined.

It is desirable that the sender's address should appear either inside the parcel or on the cover. This must be kept distinct from the address proper.

Parcels are, when re-directed, chargeable with additional postage at the rate which would have been chargeable had they been originally mailed from the office of re-direction to the new address, except in cases where the original and the re-directed addresses are both within the delivery of the same Post Office.

The limit of weight for a Parcel Post packet is eleven pounds, and the general limit of size is thirty inches in length by one foot in width or depth, but parcels will be accepted up to 3 ft. 6 in. in length, provided that the combined length and girth do not exceed six feet.

Further information respecting the domestic Parcel Post regulations is obtainable at any Post Office.

### Merchandise for United States.

There is strictly speaking no Parcel Post service from Canada to the United States, but packets of merchandise open to inspection, and not exceeding 4 lbs. 6 oz. in weight, may be posted in Canada for any place in the United States, at the rate of 1 c. for each ounce or fraction of an ounce, to be prepaid by postage stamps. Articles thus sent are subject to customs examination on arrival in the United States, and to the collection of any duty to which they may be found liable.

### Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations:

1. Every Parcel must be fully prepaid by postage stamps.

2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to countries other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth. There are some exceptions to this rule, as may be ascertained at any Post Office.

3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.

4. All Parcels must be securely and substantially packed and closed.

5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.

6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.

7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs in the presence of the persons addressed.

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

### Prohibited Articles.

All explosive, dangerous or destructive substances, intoxicating liquors, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes.

### Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

### Post Office Money Orders.

Money order business has not yet been resumed with Austria, Belgium, Germany, Hungary, Bulgaria, and the countries and places served through those countries, nor with Constantinople and Luxemburg.

In view of this fact and also of the fact that the regulations may be still further changed, the usual Table of Foreign Money Orders is omitted from this year's Almanac.

# LIST OF RAILROADS IN THE DOMINION OF CANADA, WITH THEIR TERMINAL POINTS.

Numbered to correspond with numbers used in Third and Sixth columns of pages 175 to 268.

NOTE—The number to the left of the decimal point indicates the Railway system, and the numbers to the right of the decimal point the branch. Thus 535 is the Canadian Pacific Railway system, and 535.37 is the Guelph and Goderich Branch of the C. P. R. For Express Companies see pages 163 to 167. See also list of old and new names of Railways.

## POST OFFICES AND RAILROAD STATIONS

## IN THE DOMINION OF CANADA.

The Offices printed in *Italics* are authorized to issue and pay Money Orders and Postal Notes. The Offices marked \* are Savings Bank Offices. † Places marked thus are not Post Offices. Capital letters on right of the Electoral District column indicate the several Provinces of the Dominion, thus:—O, Ontario; Q, Quebec; N S, Nova Scotia; N B, New Brunswick; P E I, Prince Edward Island; M, Manitoba; B C, British Columbia; Alta, Alberta; Sask, Saskatchewan.

The numbers and names placed opposite every place indicate the Railroad or Steamship line on which the place or nearest railway station is situated. See list of Railroads and Steamboats on pages 169 to 174. For Express Companies, see pages 163 to 167.

## THE IMPERIAL SERVICE ORDER.

This civil order of distinction was instituted by King Edward VII, August 8, 1902, to more fully recognize the faithful and meritorious services rendered by members of the Civil Services of the various parts of the Empire. The following is a synopsis of the statutes relating thereto:—

(a) Name.—The Imperial Service Order.

(b) Consists of the Sovereign, the Prince of Wales, and such Companions as may be appointed.

(c) Only members of the administrative or clerical branches of Civil Services are eligible to Companionships.

(d) Number of Companions.—Limited to 425, of whom 250 for the home Civil Service and 175 for Civil Services of Colonies and Protectorates.

(e) Eligibility.—At least twenty-five years' meritorious service. In Colonies or Protectorates recognized as unhealthy, it is reduced to sixteen years. The periods are not compulsory in special cases of *eminently* meritorious service.

(f) Description of decoration.—A badge or medallion of gold and enamel, bearing on one side the Imperial and Royal Cypher, and on the reverse "For Faithful Service," both in dark blue enamel on a plaque or shield of Gold, surrounded by a wreath of laurel, surmounted by the Imperial Crown.

(g) Decoration to be worn on left breast suspended by a ribbon one inch wide.

(h) Names of those upon whom the decoration is conferred will be published in the *London Gazette*.

(i) Companions have the privilege of adding the letters "I.S.O." after their names.

(j) Members of this order are not deprived of eligibility to other orders of knighthood, and *vice versa*.

The following Canadians have been made Companions of that Order:—

Babbitt, G. N.	Lynch, Wm. J.
Bell, Dr. Robt.	Macdonald, Brig.-Gen. Sir
Bennetts, F. K.	Donald A., C.M.G.

Jarvis, E. F.	Tully, Kivas
Jones, Chas. J.	Walker, W. H.
Jones, L. K.	Wolfenden, Lt.-Col. R.
LeMoine, J. de St. D.	

## THE IMPERIAL SERVICE MEDAL.

It is also provided that members not eligible for companionships in the Imperial Service Order may, on retirement after service of twenty-five years or sixteen years, as above explained, receive the "Imperial Service Medal," which is of silver and of a design similar to that of the badge of Companions of the Imperial Service Order.

## THE DISTINGUISHED SERVICE ORDER.

This Naval and Military Order of Distinction was instituted by Queen Victoria, September 6th, 1886, as a means of rewarding individual instances of meritorious or distinguished service in war.

Synopsis of the statutes relating thereto:—

(1) This Order is designated the "Distinguished Service Order."

(2) It consists of the Sovereign, and of such Companions as the Sovereign shall appoint.

(3) The Kings and Queens Regnant of the United Kingdom of Great Britain and Ireland, Emperors and Empresses of India, are Sovereigns of the Order.

(4) No person is eligible for this distinction who does not actually hold, at the time of his nomination, a Commission in the Navy, in Land Forces, of Marines, or in the Indian or Colonial Naval or Military Forces, or a Commission in one of the Departments of the Navy or Army, the holder of which is entitled to Honorary or Relative Rank, nor may any person be nominated unless his services shall have been marked by the especial mention of his name, by the Admiral or Senior Naval Officer commanding a Squadron or detached Naval Force, or by the Commander-in-Chief of the Forces in the Field, in despatches for meritorious or distinguished service in the Field, or before the enemy.

(5) Foreign Officers who have been associated in Naval and Military operations with the British Forces are eligible to be Honorary Members of this Order.

(6) Appointment is made by Warrant under Royal Sign Manual, and countersigned by one of the Principal Secretaries of State.

(7) This Order ranks next to and immediately after the Order of the Indian Empire, and the Companions take precedence immediately after the Companions of the said Order of the Indian Empire and shall rank among themselves according to the dates of their respective nominations.

(8) The Badge of the Order consists of a gold cross, enamelled white, edged gold, having on one side, in the centre, within a wreath of laurel, enamelled green, the Imperial Crown in gold, upon a red enamelled ground, and on the reverse, within a similar wreath and on a similar red ground, the Imperial and Royal Cypher V.R.I., and is suspended from the left breast by a red ribbon, edged blue, of one-inch in width.

(9) The names of these upon whom the decoration is conferred are published in the London *Gazette*, and a registry thereof is kept in the office of the Secretary of State for War.

### ORDERS OF KNIGHTHOOD, &c.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1399, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1818, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen unconnected with any order who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name. They wear no insignia, and rank immediately after Knights Commander of the Victorian Order.

It follows that members of any order of Knighthood may be entitled to several prefixes and affixes, as: Field Marshal The Rt. Hon. Earl Roberts of Kandahar, Pretoria, and Waterford, K.G., K.P., G.C.B., G.C.S.I., G.C.I.E., U.C.; The Rt. Hon. Sir Wilfrid Laurier, G.C.M.G.

## CENSUS OF PRAIRIE PROVINCES, 1916.

The total population of the three provinces in 1916 was 1,698,220, compared with 1,328,725 in 1911, 808,863 in 1906, and 419,512 in 1901. The population of the Prairie Provinces increased by 1,278,708, or 305 per cent., in the fifteen years 1901-1916; by 889,357, or 110 per cent., in the ten years 1906-1916; and by 369,495, or 28 per cent., in the five years ended June 1st, 1916.

By provinces, during the last quinquennium, the greatest absolute increase in population was made by Saskatchewan with 155,403, followed by Alberta with 121,862, and by Manitoba with 92,230, while the largest per cent. of increase was made by Alberta with 32.5 per cent., followed by Saskatchewan with 31.6 per cent., and Manitoba with 20 per cent.

The following statement gives the population of each of the Prairie Provinces by five-year periods, 1901-1916, and the increase absolute and per cent. made by each province, first from 1906 to 1916, and secondly from 1911 to 1916:—

### PARLIAMENTARY REPRESENTATION BY PROVINCES.

The four original Provinces of the Dominion were Ontario, Quebec, Nova Scotia and New Brunswick, which were given parliamentary representation according to Section 37 of the British North America Act, 1867. By Imperial Orders in Council the provinces of British Columbia and Prince Edward Island were admitted into the Dominion, the former on July 20, 1871, by Order dated May 16, 1871, and the latter on July 1, 1873, by Order dated June 26, 1873. An Act of the Dominion Parliament of May 12, 1870 (33 Vict., c. 3), provided for the formation of the province of Manitoba out of Rupert's Land and the Northwest Territories, so soon as these should be admitted into the Dominion of Canada, which admission was effected by Imperial Order in Council dated June 23, 1870, and taking effect on July 15, 1870. In consequence of doubts as to the legal validity of the Dominion Act of 1870 (33 Vict., c. 3), the Imperial Parliament passed an Act in 1871 (34-35 Vict., c. 28), making the Canadian Act valid and effectual.

## A BRIEF HISTORY OF THE GREAT WAR.

### THE OCCASION OF THE WAR.

On June 28th, 1914, in Sarajevo, the capital of Bosnia, the Archduke Francis Ferdinand, heir to the Austrian throne, with his morganatic wife, was shot by an assassin named Prinzib. The crime took place on Austrian territory, and Prinzib was a native of Bosnia; but the conspiracy, of which this action was the outcome, was part of a wide-spread anti-Austrian agitation in Serbia, and Serbia was held responsible by the Austrian Government.

### THE AUSTRIAN ULTIMATUM.

For over three weeks no decisive move was taken, and few people believed that war was imminent. But on July 23rd, Austria presented an ultimatum to Serbia, to be accepted or refused within 48 hours. The terms were harsh, but Serbia accepted all, with the exception of one, which was contrary to her constitution and would have meant the cession of her sovereign powers. She asked that this question be referred to the Hague, or to the decision of the powers. Efforts were made by Russia, France and England to come to a peaceful solution of the difficulty; but Austria, backed up by Germany, insisted on her demands and on July 28th 1914 declared war on Serbia.

### RUSSIA AROUSED.

The threat of war on Serbia had aroused Russia, and immediately on the presentation of the ultimatum by Austria to Serbia, Russia began to mobilize against Austria. Germany at once protested against this mobilization on the part of Russia, although assured by Russia that there was no threat against her. On July 30th, the German Government made a formal demand on Russia that mobilization cease within 24 hours. During the next two days feverish efforts were made by England and France to avert the threatened cataclysm, but on August 1st Germany declared war on Russia; and France began to mobilize her forces to come to the aid of her ally.

### GERMANY INTERVENES.

The German armies were already mobilized, and on August 2nd they entered the neutral state of Luxembourg in order to reach France on a side on which the defenses were less formidable than they were on the Franco-German boundary line. With the same object, Germany on August 2nd presented a demand on Belgium that German troops be permitted to pass through the country. If permission was granted, Belgium was assured of compensation and protection by Germany. If refused Belgium would be treated as an enemy. At 4 p.m., August 3rd, the Belgian Government sent a reply refusing the offer, and German troops crossed the border the same evening.

### GERMAN PREPARATIONS.

As has become evident since the war began, Germany had plans fully prepared for the war of conquest on which she had embarked. Strategic railways had been constructed to the Belgian border and 26 army corps were immediately available. Of these twenty were concentrated against France, leaving only six to guard against danger from Russia. Germany had reckoned that Russian mobilization would take so long that her armies, advancing on France by way of Belgium, would take Paris and crush French resistance before it would be necessary for them to turn against Russia. It was calculated that it would take two months for the full mobilization of the Russian armies, and that Austria could concentrate her forces in Galicia and invade Poland, thus holding the Russians behind the river Bug. In this calculation the Serbian army was left out of the count as negligible.

### ERRORS IN HER CALCULATIONS.

There were several other errors in the calculation. No resistance had been counted upon from Belgium, and only four days had been allowed for the German troops to reach Brussels. Instead of this, the Belgian resistance at Liege delayed the German march for nearly two weeks, and it was not until August 15th that the last of the forts of Liege fell. Tirlemont was taken on the 17th, and Louvain on the 19th, and it was August 20th instead of August 6th when the German troops entered Brussels. The heroic resistance of Belgium to the violation of her neutrality thus gave time for France to prepare, and for British troops to be landed; and so broke up completely the whole German programme of a short war and of progressive victories over her enemies before they could be ready to present a united front against her.

### POSITION OF GREAT BRITAIN.

The second miscalculation concerned Great Britain. The Germans believed that the British were too much pre-occupied with the Irish situation and with internal labour troubles to be willing to enter a foreign war. They also counted upon insurrections in India and South Africa, and a general unwillingness of the Colonies and Dominions to take any part in the quarrels of the mother country. Even allowing for the possibility of Britain coming into the war they judged it unnecessary to disturb themselves about the "contemptible little army" that she could put into the field. The navy they knew to be formidable, but reckoned on obtaining possession of the French and Belgian coasts, and on uniting the French navy with their own to enable them to make headway against Britain by sea.

### BRITAIN DECLARES WAR.

Every possible effort was made by Earl Grey to preserve peace, but the British refused to pledge themselves to keep France neutral in a war between Germany and Russia, and further refused to be a party to the violation of Belgian neutrality. Belgium appealed to Britain to safeguard her neutrality on August 3rd, and on August 4th Great Britain declared war on Germany. On the following day a German mine-layer was destroyed by the British cruiser *Amphion* and on August 6th the *Amphion* was sunk by a mine with the loss of 131 lives. Two days later, August 8th, the first British forces landed in France.

### LOYALTY OF THE EMPIRE.

In the meantime there had been other disappointments for the Germans. British labour disputes were postponed in face of the enemy and the loyalty of the British nation was made unmistakably plain. The Dominions and the Colonies also sprang at once to the defence of the Empire, and the Irish difficulties were shown to be by no means so serious as had been imagined. Canada began the mobilization of an expeditionary force on the very day that war was declared, and on August 6th the offer of Canadian troops was accepted by the British Government. Newfoundland made an offer of men on August 10th, and Australia and New Zealand lost no time in following the example set by Canada. Both the British Indian Government and the Princes of the Indian Protectorates offered troops and money, and the unity of the British Empire was seen to be an impressive reality.

### FRENCH INVADE ALSACE-LORRAINE.

The first movement of the French armies was into Upper Alsace to prevent the passage of German troops over the Rhine. On August 7th Altkireh, Thann and Mulhouse were occupied, and three army corps were sent into Lorraine. On

August 15th, Gen. Joffre took up headquarters in Nancy. The invasion of Alsace-Lorraine occupied two weeks, but by August 22nd, the Germans, coming through Belgium, were threatening Paris and the French armies had to fall back for its defence.

#### THE RETREAT OF MONS.

The Allied forces on August 15th consisted of 15 French army corps, 2 British army corps, and 5 Belgian divisions under King Albert. These forces were opposed by vastly greater numbers of Germans under General Von Kluck. The defence of the country between Maubeuge and Mons had been assigned to the British under Sir John French who had 75,000 men defending a 25 mile front. To the west the French territorials had not yet come up, and when the French army on the right was obliged to retire, the British were left as an isolated salient. To save the army, Gen. French had to withdraw, although on Aug. 23rd he had been successful in an all-day engagement with the Germans. The retreat began on the evening of August 23rd, and was completed on August 28th, after covering 64 miles. He was hotly pursued all the time by the Germans whom he hit so hard in rearguard engagements as to cripple their advance and force them to halt for rest.

#### BATTLE OF THE MARNE.

The retreat of the French and British continued until September 5th, when, taking advantage of a dangerous move by Von Kluck, Gen. Joffre ordered a general attack. The great battle that followed is known as the Battle of the Marne. It lasted from September 5th to September 9th when Von Kluck ordered a general retreat of the German armies. From September 9th to September 13th the retreat continued, until the Germans had withdrawn for a distance of from 60 to 75 kilometres. The Germans took up defensive positions along the Aisne, and the victory of the Marne put an end to the German advance and to the threat against Paris.

#### THE WESTERN FRONT IN 1915.

Fighting, largely of a desultory character, continued throughout the winter. About the middle of February, Gen. Joffre began a new offensive in Champagne and Lorraine, but after five weeks of fighting, with small but fairly steady gains for the Allies, operations were postponed for lack of ammunition. The British army at this time was finding itself at a disadvantage for lack of fuller supplies of high explosives. The French then turned their attention to the Woëvre district, but failed to retake the St. Mihiel salient, which the Germans had established on September 21st, 1914. In April, Gen. French made an attack on the Ypres front, and on April 21st the British captured Hill 60, after having mined the enemy's trenches. The Germans immediately launched an attack on the Ypres salient. The beginning of this battle, on April 22nd, is noteworthy for the first use by the Germans of asphyxiating gas. The battle lasted until the 28th, and resulted in some small gains for the Germans. There was furious but indecisive fighting throughout the summer. The use of gas by the Germans enabled them to make some advances in the Ypres region, and on July 30th, they made use of a new weapon, a fire projector, which again took the Allies by surprise, and won for them a limited success. This was countered on August 9th, by the British capture of La Hooze in an attack in which for the first time the British had a really adequate supply of ammunition.

#### RUSSIANS INVADE EAST PRUSSIA.

At the opening of the war the Russian mobilization had been completed much earlier than had been deemed possible by Germany. On August 2nd, 1914, the vanguard of a Russian army under Gen. Rennenkampf crossed into East Prussia. It was followed on August 7th by the main army and on August 16th the Russians gained the battle of Insterberg. By August 25th, all East Prussia was in Russian hands.

#### BATTLE OF TANNENBERG.

On August 27th, 1914, Hindenburg, who had been put in command on the Eastern front, defeated the Russians under Sansonoff at Tannenberg, taking 90,000 prisoners, and practically annihilating the Russian army. On September 28th, Hindenburg met the army of Rennenkampf at Augustova, and suffered a defeat which obliged him to retire west of the Masurian Lakes. He was, however, able to regain possession of East Prussia, which had to be relinquished by the Russians after the defeat of Tannenberg.

#### BRUSILOF'S SUCCESSES.

In the meantime Generals Brusilov and Ruzsky were threatening Galicia, and on September 3rd they took possession of Lemberg. By September 15th East Galicia was in Russian occupation, and Cracow and Przemyśl were threatened. A German army of 1,000,000 men under Hindenburg was sent to relieve the pressure on the Austrians. Severe defeats were inflicted on it at Warsaw and Koziencice on October 20th and 27th, and on the Austrians at Sandomier on November 5th. It seemed for the moment as if Germans and Austrians were cleared out of Galicia and Poland. Hindenburg was, however, powerfully reinforced and was joined by Gen. Mackensen.

#### THE EASTERN FRONT IN 1915.

Very active fighting, with varying fortunes, continued all through the winter. On March 22nd, 1915, the Russians took Przemyśl, the strongest fortress of Galicia. For several weeks they kept the advantage, but they suffered a severe defeat at the hands of Gen. Mackensen on April 28th to May 2nd. This resulted in the recapture by the Austrians of the whole of Western Galicia. A success by the Russians on May 21st could not be followed up, as the Russian armies had exhausted their ammunition, and further supplies were not forthcoming. Through the summer it was all that the Grand Duke Nicholas, who was in supreme command, could do was to keep his armies intact. In July the Germans and Austrians had assembled eight armies to oppose the Russians, and on August 4th Warsaw was captured, after a battle in which the Russians, short of ammunition and supplies, showed the greatest heroism, and held back the enemy long enough to permit the orderly evacuation of the city. Kovno fell on August 16th, and Brest Litovsk on August 25th; but during this interval the Germans had completely failed in an attempt to capture Riga from the sea.

#### RUSSIAN RETREAT.

The German advance by land, however, continued, and on September 19th Vilna was taken, and the Russian armies fell back on the Dvina and Dnieper Rivers. On September 5th the Grand Duke Nicholas had been relieved of his command and sent to the Caucasus, and the Czar had taken personal command of the armies.

#### THE WORK OF THE BRITISH NAVY.

From the day that war was declared the British Navy was supreme at sea, and to the end of the war Germany made little serious effort to combat this supremacy. In the first year of the war there were isolated German raiders at large that did considerable damage to commerce, and there was also a small war fleet under Admiral Von Spee, which was destroyed by Admiral Sturdee on December 8th, 1914. But the chief reliance of Germany was on the U-boats, and it was one of the German dreams that the British fleet might be so reduced by U-boat attacks as to bring it down to something like an equality with the German navy. British naval losses through U-boat attacks were, however, small. On September 22nd, 1914, three cruisers, the Cressy, Aboukir and Hogue were sunk in the North Sea. On October 27th the dreadnought *Audacious* was sunk in the Irish Sea, and from time to time there were other isolated losses. But U-boat activity

was chiefly directed against mercantile shipping, in an effort "to bring England to her knees" by cutting off her foreign trade.

#### U-BOATS.

The importance of the U-boat activity was twofold: first, its effect on the volume of available shipping, and, second, its influence on neutral opinion, and on the diplomacy of the war. The earlier work of the U-boat was carried on with some regard for the safety of crews and passengers, but on May 7th, 1915, the world was shocked by the news of the torpedoing of the *Lusitania* off the coast of Ireland with the loss of 1,154 lives, including many women and children. Among the drowned were 102 Americans. On May 17th, 1915, it was announced in London that from the beginning of the war Great Britain had lost 460,268 tons of shipping with 1,556 lives, and that she had sunk or captured 314,465 tons of German shipping without the loss of a single life.

#### GALLIPOLI.

During 1915 an attempt was made by the Allies on the peninsula of Gallipoli. On February 19th, a British and French squadron began a naval attack on the Dardanelles forts, and the effort to force a passage through the strait was continued until March 18th, when a determined attack resulted in the loss of three battleships. After this disaster operations were suspended awaiting the landing of an expeditionary force, which was begun on April 25th. Fighting continued through the summer with little success and many losses. On October 18th, Gen. Munro superseded Gen. Ian Hamilton, but the change in command did not improve the situation. Evacuation was begun on December 9th, and completed January 8th, 1916, with small loss, thanks to the protection of the fleet. It is generally conceded that the expedition was badly conceived and that Gen. Hamilton was not sufficiently supported; but it is also contended that it served to relieve pressure on Belgium and France, by diverting strength of the Germans to the Eastern front.

#### AIR RAIDS.

Attacks on Paris from the air began on September 27th, 1914; but no Zeppelin reached England until 1915. There were half a dozen raids on the East Coast between January and the end of May; and, on May 31st, for the first time the Zeppelins reached London in a raid in which four persons were killed. On December 16th, 1914, several German cruisers reached the Yorkshire coast and shelled Scarborough, West Hartlepool and Whitby, killing more than 100 civilians. But except for this exploit, the German navy was kept pretty strictly behind its defenses.

#### GERMAN ATROCITIES—NEW BELLIGERENTS.

It is impossible in so brief a history to give any account of German atrocities from the sack of Louvain on August 24th, 1914, to the sinking of the *Lusitania*, on May 7th, 1915. But mention must be made of the shooting of Edith Cavell, on October 12th, 1915, for having assisted in the escape of soldiers from Belgium. During 1914, in addition to England, France and Russia, Montenegro had come into the war on the side of the Allies on August 7th, and Japan on August 23rd; while Turkey declared war on Russia on October 29th, and on France and England on November 5th. In October, 1915, Bulgaria also lined herself up with the Teutonic powers, while on May 23rd, 1915, Italy joined the Allies, and declared war on Austria.

#### BATTLE OF VERDUN.

The chief feature on the Western front of the second year of the war was the terrific assault on Verdun by the army of the Crown Prince. A bombardment of unprecedented intensity was begun on February 19th, 1916, and continued for two days. On the 21st, the German infantry attacked in irresistible masses, the onslaught

sweeping the French back to Côte de Poivre and Vaux, five and a quarter miles northwest of Verdun. All through March the attacks continued. The French yielded slowly, but during these weeks the Germans took Fort Douaumont Feb. 24th, Regneville March 7th, and Malincourt, March 29th. The fighting then centred around Dead Man Hill, which was assailed again and again by the Germans. On April 15th, the French inflicted a severe repulse on the Germans at Dead Man Hill, and from this date the French defence began to stiffen, until on May 22nd, 1916, Gen. Joffre delivered a counter-attack and retook Fort Douaumont. It was, however, retaken by the Germans on May 24th, and all through June the Crown Prince persisted in his attacks around Verdun.

#### BATTLE OF THE SOMME.

Early in July, 1916, an offensive was begun by the Anglo-French forces on the Somme, and the Verdun battle drew to a close. The Allied offensive was begun with a heavy bombardment which lasted several days. On July 1st an attack was begun on a front of 40 kilometres, with Peronne and Bapaume as the objects. In two weeks the Allied armies advanced on a front of 10½ miles to a depth of 6 miles, and took about 22,000 prisoners. On July 15th the Germans counter-attacked without much success. The Allied advance continued, though at a slower pace, and on July 26th the British took Pozieres. On September 26th, the French entered Combles, a German military base at the eastern end of the ridge north of the Somme, and the same day the British took Thiepval. The battle for the ridge was memorable for the first employment by the British of armoured tanks. There was some further advance in October, the British reaching Le Sars, four miles from Bapaume, on October 4th, and the French taking Saily-Saillisel on the 18th. But bad weather made further fighting difficult, and the Battle of the Somme came to an end by the middle of November, with losses estimated at 700,000 men, and 130 heavy guns for the Germans and 600,000 casualties for the Allies.

#### THE RUSSIAN FRONT IN 1916.

All through the winter of 1915-1916 the Russian army remained on the defensive, faced by comparatively weak Austro-German forces. The Germans made a feeble attempt to capture Riga in February, 1916, but it was not until June, 1916, that the Russian armies were ready again to take the offensive. The diversion was necessary in order to relieve the pressure at Verdun, and on June 6th, General Brusilov, now in command of the Russian left wing, began active operations by the capture of Lutsk. The advance continued in Bukowina and Eastern Galicia through June, and Kolomea was captured on June 30th. On July 1st, the Russian war office announced that between June 4th and June 30th, 217,000 prisoners had been captured, an announcement which was countered from Berlin by the statement that the Russians had lost in June, in killed alone, over 262,000 men. In July, the Russians under Gen. Kaledines pushed into Volhynia as far as the Stokhod River. The Russian advance continued through July and August. The results achieved included an advance on a front of 250 miles to a depth of from 20 to 60 miles; the conquest of the provinces of Bukowina and a considerable part of Galicia and Volhynia, and the capture of 353,000 prisoners. The cessation of the advance was attributed to lack of guns and munitions.

#### ITALY ENTERS THE WAR.

Italy declared war on May 23rd, 1915, and completed her mobilization on June 24th. Her troops at once occupied the Trentino Passes, and sustained the first Austrian offensive on June 24th. Through the latter half of 1915, much of the fighting centred around Gorizia. On July 28th, the Italians repulsed a determined attack at this part of the line, made by an Austrian army of 170,000. In August the Italians took the offensive against

Trent and Trieste. No signally important results were obtained, although some progress was made, and the Italians showed their engineering ability by their fortification of dominant peaks.

#### AUSTRIAN OFFENSIVE AGAINST ITALY.

In May, 1916, just a year from the Italian declaration of war, the Austrians began an offensive in the Trentino section, in which were massed 16 or more Austro-Hungarian divisions. The Italians were swept back with rapidity, and by the middle of June the Austrians had regained 270 square miles of Austrian territory and conquered 230 square miles of Italy. About June 17th, the Austrians were obliged to slow down, as Austrian divisions had to be withdrawn to meet the Russian offensive. At the same time the Italians were strongly reinforced, and the Austrian army, which was threatening Vicenza by a descent between Asiago and Arsiero, was thrown back in confusion at Sette Comuni. On June 26th, the Italians recaptured Asiago, and on the 27th Arsiero and Vicenza was relieved of the threat. There was a pause on both sides through July, but the Italian advance recommenced in August. On August 4th the Italians stormed and took Monte San Michele, and on August 9th they entered Gorizia, taking 15,000 prisoners. During the remainder of the year they made some small advances on the well fortified Carso Plateau which lay between them and Trieste.

#### SERBIA CONQUERED.

The first consequence of Bulgaria's entry into the war was the conquest of Serbia. Austro-German and Bulgarian forces entered Serbia on October 6th, 1915. Uskub was taken on October 25th, and Tchatchak, the new Serbian capital on the 2nd of November. By the end of November the shattered Serbian army had withdrawn into Montenegro, and Monastir was captured on December 2nd.

#### SALONIKI—ROUMANIA.

A small Franco-British army of about 200,000 men, under Gen. Sarrail, had been landed in Saloniki in October. But it was too weak to be of use to Serbia, and after vainly endeavouring to come to her aid, entrenched itself in Saloniki. A Serbian army of about 125,000 men which had made its way into Greece, was reorganized and transferred to Saloniki. The conquest of Montenegro rapidly followed that of Serbia. Cetinje, the capital, was taken on January 18th, 1916. The Austrians then pressed on into Albania and compelled the Italians to evacuate Durazzo on Feb. 26th. Gen. Sarrail's force in Saloniki remained idle throughout 1916, in spite of the fact that Roumania, which declared war on August 27th, 1916, was rapidly conquered by Field-Marshal Hindenburg and General Mackensen. The Roumanians had invaded Transylvania immediately after their declaration of war. They took Kronstadt on August 30th, and their successes continued until the middle of September, when Gen. von Falkenhayn rapidly brought up an army and swept the Roumanians back in confusion. Transylvania was cleared of Roumanians by October 15th, and Roumania was invaded both from the north and the south. Bucharest was captured on December 6th, and by the end of 1916 the whole of Roumania's great resources were at the disposal of the Teutonic powers.

#### U-BOAT WARFARE.

To meet the danger of the U-boats the Allies began in the winter of 1915-16 to arm their merchant vessels. Germany replied to this step with the declaration that after March 1st, 1916, all such armed vessels would be considered warships and sunk without warning. On May 4th, however, yielding to American pressure, the German Government promised that the safety of passengers and crews on unresisting vessels should be provided for before such vessels were sunk. In July, 1916, Great Britain formally set aside the

Declaration of London and greatly increased the stringency of the blockade of Germany. The German reply to these stricter measures was the declaration of January, 1917, that after February 1st the submarines would sink all vessels without distinction or warning that entered the war zone established around the British Isles.

#### BATTLE OF JUTLAND.

The most important naval engagement of the war took place on May 31st, 1916, when the German Grand Fleet was engaged by Admiral Beatty off the coast of Jutland. Losses were very heavy on both sides. The British lost the battle cruisers *Queen Mary*, *Indefatigable*, and *Invincible*, the armoured cruisers *Defence*, *Warrior*, and *Black Prince*, and eight destroyers, a total tonnage of 114,100. The Germans conceded the loss of one battle cruiser, the *Lützow*, one older battleship, the *Pommern*, four cruisers, the *Wiesbaden*, *Frauenlob*, *Elbing*, and *Rostock*, and five torpedo boats. The tonnage of these vessels was 60,720, with 2,863 men. The British loss in men was 6,617. The British Admiral computed the German losses at a much higher figure—about equal to the losses sustained by Great Britain. As a result of the battle, the German fleet withdrew to its base, which it afterwards refused to leave to try its fate in open battle. On June 5th the cruiser *Hampshire*, which was taking Lord Kitchener to Russia, was sunk near the Orkney Islands, and Lord Kitchener was drowned.

#### AERIAL WARFARE.

Aeroplanes and balloons were used from the time war was declared, both for observation and for bombarding; but the number engaged on both sides was enormously increased as the months went on. During the earlier years, the Germans placed great confidence in their Zeppelins, especially as a means of terrorizing civilian populations and destroying enemy morale through frightfulness. The Allies made a large use of aeroplanes in connection with enemy troop movements, as well as in bombarding strongly fortified centres. In January and February, 1915, both Essen and Metz were bombed from Allied aeroplanes, and on February 2nd, 1916, 17 French planes raided the Bulgarian camps near the Greek frontier, killing 470 and wounding 500 of the soldiers. On March 20th, 1916, there was one of the earliest attacks in force by the Allied airmen, when 65 planes bombed towns on the Belgian coast. The first instance of another form of air activity was given in June, 1916, when a French aviator flew from Lorraine to Poland and dropped leaflets of a propaganda nature on Berlin.

#### THE WESTERN FRONT IN THE WINTER OF 1916-17.

On the Western front, the battle of the Somme had come to an end by the 18th of November, 1916. During the course of this battle so many German troops had been drawn from the region around Verdun to strengthen the lines on the Somme, that an opportunity for a counterstroke was given to the French. On October 22nd, General Nivelle began an offensive in which much territory taken by the Germans in the spring was regained, culminating in the capture of Vaux on November 5th, 1916. As a reward for this success, General Nivelle was named on December 11th Commander-in-Chief of the French Armies, General Joffre being honourably retired with the title of Marshal of France. Four days later, December 15th, Gen. Nivelle made another advance and Fort Douaumont was retaken on December 18th. Active fighting continued through the winter of 1916-17, with varying success, but generally in favour of the Allies, and on March 15th the Germans began a retirement along the line from Noyon to Arras. On March 16th the British entered Bapaume, and March 18th Peronne, and during this first week forty villages were occupied by the British, and cavalry was brought into action

in pursuit of the Germans. South of the Somme the French advanced on March 20th to within five miles of St. Quentin, and about equally near to La Fère. By the end of March, 1917, the Anglo-French armies had retaken from the Germans 1,000 square miles of territory, most of which had been laid utterly desolate and its inhabitants carried off into slavery.

#### THE HINDENBURG LINE.

The Germans then attempted to make a halt on the Hindenburg line, which had been strongly fortified in preparation for this stand. But the Anglo-French armies again attacked, in what was known as the second battle of Arras. To the north-east at Vimy Ridge, on April 9th, 1917, the Canadians made a furious onslaught, losing 5,000 men but succeeding, with the aid of numerous tanks, in capturing the ridge and descending into the suburbs of Lens. The battle lasted through April, the British capturing 19,300 prisoners, and gaining a depth of five miles on an eight mile front. In the meantime the French had driven the Germans back across the Aisne River, capturing 20,000 prisoners. A further advance was made in May, the French capturing Craonne on May 4th. On June 7th the Messines-Wytschaete Ridge, overlooking Ypres, was blasted out of existence by mines, nineteen of which had been cautiously constructed under the enemy defenses.

#### ALLIED SUCCESSES.

Gathering all possible reinforcements, the Germans counter-attacked in the latter part of June; but on July 31st the British and French troops in a sudden advance regained ten villages near Ypres. There were further gains in August and September on both French and English fronts, and on October 25th a French offensive won for the Allies the Chemin des Dames and carried the front to the Oise Canal on the Aisne. On November 6th the British—largely through Canadian troops—won the Passchendaele Ridge, which dominates the plain of Roulers. A surprise attack by General Byng, preceded by tanks and followed up with cavalry, broke through the German lines at Cambrai. There were violent counter-attacks by the Germans at the end of November, which resulted in partial success; but bad weather put an end to major operations, thus leaving the Allies at the end of the year in possession of a large amount of territory won back from the Germans, and of a preponderating number of prisoners.

#### RUSSIA IN 1917.

There was little activity on the Russian front in the winter of 1916-17, after the close of General Brusilov's drive of June 4th—August 18th, 1916. The Russian army was short of food, guns, ammunition and every kind of supply, and the tide of political unrest in Russia was already affecting the temper of the soldiers. On November 24th, Count Sturmer, the Russian Premier, was succeeded by Trepov, a change which produced no increase of confidence in the Czar's Government. On January 9th, 1917, Trepov was succeeded by Golitzine, a bureaucrat and a reactionary, but a man of power and determination. On January 18th, Gen. Shuvayev, the Minister of War, and the one man in the Cabinet who was trusted by the people, was dismissed and the post was given to Gen. Beliaev, a member of the military clique to which was attributed the gross mismanagement of the Russian military preparations for the war. Most unpopular of all the ministers was Protopopov, Minister of the Interior. It was believed that, intending to bring about an aristocratic coup d'état, Protopopov deliberately created a food shortage, conceiving that the riots which were sure to follow would create an excuse for the dissolution of the Duma and the restoration of the reactionary aristocracy, and the negotiation of a separate peace.

#### REVOLUTION BEGINS.

The food rioting began on March 11th, and the Duma was immediately prorogued. But when the troops were ordered to fire on the mobs, they refused and regiment after regiment went over to the side of the people. A provisional government was set up, and on March 15th, 1917, the Czar offered his own abdication and that of his son in favour of his brother Michael. The Grand Duke Michael refused the Crown, and a revolutionary cabinet under Prince Lvov was set up. The Cabinet soon came under the influence of Kerensky, the Minister of Justice, who became Minister of War, May 17th, and Premier, July 19th. Through the summer the power of the more extreme revolutionists or Bolsheviks steadily increased, and there were several reconstructions of the Cabinet with a view to conciliating these elements. On August 2nd Kerensky offered his resignation, but was recalled, and resumed office with a new cabinet of five members. On September 14th, 1917, Russia was declared a republic. By this time Trotsky and Lenine had come forward as the leaders of the Bolsheviks. The attitude of the Bolsheviks became more threatening; and on November 8th, they seized Petrograd and gave a pledge to the people to seek immediate peace. Kerensky in command of the loyal Russian army tried to put down this new revolution, but on November 16th it was announced that he had been defeated and that the Bolsheviks under Trotsky and Lenine controlled the government.

#### THE RUSSIAN DISINTEGRATION.

In the meanwhile the Russian army, demoralized by hunger, shortage of supplies and peace propaganda, had by the end of July retreated out of Galicia and Bukowina. The Roumanians, who had trusted to Russian aid, were pushed beyond the Sereth. The Germans did not greatly push their advantage, trusting to the effect of the Bolshevik propaganda. On the other hand, they found it unnecessary to keep large numbers of troops on the Russian front and were able to send most of their forces to aid on the Western front and in Italy. At the close of the year, December 18th, an armistice, to last 28 days, was arranged—an armistice which was later prolonged until February, 1918.

#### ITALIAN SUCCESS AND DISASTER.

The first eight months of 1917 were characterized on the Italian front by a continued deadlock. On August 19th the Italians began an advance towards the Isonzo which was continued to the end of the month, and in which the Italians crossed the river and advanced two miles beyond it, taking about 10,000 prisoners. This success was followed by the capture of Monte Santo and Monte Gabriele on August 29th. Meantime the Austrians, reinforced by troops withdrawn from the Russian front, were threatening the Isonzo, and on October 24th they launched an attack between Tolmino and Plezzo. This movement had been preceded by clever propaganda work which had undermined the morale of one of the Italian armies, and between October 24th and 31st the Italians were driven out of the Bainsizza Plateau, Gorizia was recaptured by the Austrians and the Italians were forced back on the Tagliamento, and finally to the Piave.

#### ITALIAN RECOVERY.

There they made a stand. General Diaz was put in command of the Italian armies instead of Gen. Cadorna. Allied reinforcements were sent from France and the morale of the armies was restored. In November the Teuton forces made another attack on the Piave, threatening Venice, and on November 13th the Piave was crossed at one point. The Italian lines held, and on Nov. 17th, 1917, the Teutons were driven back across the river with the loss of 1,000 prisoners. The area around Venice had been flooded, the Allied fleet came to the aid of Italy and the British and

French sent artillery units to the Italian front. The Italian positions on the Piave were consolidated, and in counter-attacks towards the end of November, 1917, the Italians won back Monte Tomba. Another attack on Monto Asolone in the middle of December drove back the Austrians from that approach to Venice. Through the remainder of the winter the fighting was chiefly confined to artillery duels and aeroplane contests, but the Austrians gained no further advantage.

#### PROVOKING THE UNITED STATES.

Friction between the United States and Germany began early in the war. On February 15th, 1915, after the proclamation by Germany of a blockaded zone around the British Isles, President Wilson sent a note to Germany in which he stated that Germany would be held to "strict accountability" for American lives. On March 10th, the German auxiliary cruiser *Prince Eitel Friedrich* came into Newport News bringing the crew of the *William P. Frye* which had been sunk by her. On March 28th, occurred the sinking of the *Falaba* with the loss of one American, and on May 1st the American steamer *Gulflight* was torpedoed off the Scilly Islands. These offences were, however, entirely overshadowed on May 7th by the torpedoing of the *Lusitania*, when 102 Americans were drowned. The interchange of notes continued through the summer, varied on July 24th by the receipt of an Austrian note protesting against the export of munitions to the Allies. On August 19th, the *Arabic* was sunk with the loss of 54 lives, and on November 9th an Austrian submarine torpedoed the *Ancona*, when nine Americans were among the 209 drowned. The loss of the *Persia* with two Americans on December 30th, was the last of these events in 1915. In the meantime evidence was accumulating of German and Austrian interference in American domestic affairs, and the promotion by German agents of strikes and acts of destruction to hinder the export of munitions. On December 3rd, 1915, the State Department demanded of Germany the recall of Boy-Ed and Von Papen, who were attached to the Germany Embassy, for their complicity in these disturbances.

#### GROWING IRRITATION.

Throughout 1916 the irritation of the United States continued. At the beginning of the year came the controversy over the right of merchant ships to arm for defence, which was upheld by the United States Government on Feb. 15th, when President Wilson informed Germany that she would be held accountable for the life of any American travelling on an armed vessel. On March 24th, the *Sussex*, a Channel passenger steamer, was torpedoed with the loss of 25 Americans. On May 5th, however, the German Government gave way and promised that no unresisting merchant vessels should be sunk without giving the passengers and crew a chance of escape. On December 18th, President Wilson addressed a note to all the belligerents expressing the hope that they would soon find occasion to define their Peace terms, and offering the co-operation of the United States in securing the future peace of the world. But the temper of the United States was becoming increasingly warlike, and the German note of February 1st, 1917, establishing a zone around all enemy countries, and declaring intention of sinking every vessel within that zone, made war practically inevitable.

#### UNITED STATES ENTERS THE WAR.

Diplomatic relations with Germany were severed the following day, and Ambassador Gerard was withdrawn from Berlin. On February 7th, 1917, the *California* was sunk off the coast of Ireland, and the *Turino*, with one American, was torpedoed on February 8th. On February 25th the *Laconia* was sunk with the loss of several Americans. American feelings at this time were also outraged by the revelation of an intrigue

between Germany and Mexico, in which Mexico was promised a slice of the United States if she would go to the assistance of Germany. On April 2nd, 1917, Congress was called in extraordinary session, and the President, appearing in person, asked for a declaration of war, and the resolution formally declaring that a state of war existed between the United States and Germany was passed by Congress and signed by the President on April 6th, 1917. Diplomatic relations with Austria were severed on April 8th, and with Turkey on April 20th.

#### U. S. AID TO THE ALLIES.

At this time it seemed probable that the war might terminate early in favour of the Allies, and it was thought that the co-operation of the United States might be limited to the supply of munitions and loans of money to the Allies. A \$7,000,000,000 bond issue was authorized at once by Congress, and of this three billions were advanced to the Allies. A destroyer flotilla was sent to Europe under Rear-Admiral Sims, and reached the submarine zone on May 4, 1917. The regular army and the national guard were authorized to be brought to their full strength of 293,000 and 400,000 respectively by voluntary enlistment, and a law providing for a selective draft was passed by Congress and signed by the President, May 18th, the age being fixed at from 21 to 30 years. General Pershing and his staff arrived in Paris on June 13th, and the first American contingent landed in France on June 26th.

#### U.S. ENGINEERS AND TROOPS SENT.

In an effort to aid the new Government of Russia to rehabilitate that country, the United States in May sent a mission to Petrograd, headed by Mr. Elihu Root, and at the same time a group of railroad men to get the transport system of Russia into working order. American engineers were also despatched to France to help in the construction of light railroads behind the lines. A group of these Americans, caught behind in the German advance in November, 1917, dropped their picks and shovels and shouldered rifles to help the British hold the line. During the first six months that the Americans were in France the troops were either occupied in training or were given quiet sections of the line to hold. In 1918, the Americans were at first brigaded with the British and French, and it was not until August, 1918, that the First American Field Army was organized under General Pershing. From this moment the Americans took a prominent part in operations on the Western front, and by the end of the war 2,053,347 American men had been sent overseas, the number of combatants actually in France being 1,338,169. American troops were also despatched in August, 1918, to Siberia, to join the Allies in the movement against the Bolsheviks.

#### GERMANY GAINS STRENGTH.

During the winter of 1917-18 it became clear that events in Russia were turning immensely to the advantage of the Germans, who were able to withdraw their troops from the Russian front, and who also obtained the reinforcement due to the return of German prisoners from Russia. In March, 1918, the Germans were ready for an offensive on the Western front, and although the Allies were aware that an attack was impending, the greatness and the force of the offensive took them by surprise. The attack was planned to break the juncture between the French and the British, and it was estimated that there were 800,000 Germans engaged in this great assault. The first push took place on March 21st, 1918, after the greatest gas bombardment of the war, and was directed towards Amiens. The British were compelled to retreat towards Arras and Crozon, and the British centre was forced across the Somme, leaving an opening between the Somme and the Oise. Fortunately the German cavalry sent to turn the English right, was met just in time by French cavalry sent to fill the gap.

### GERMANS REACH FURTHEST POINT OF ADVANCE.

The German advance continued on March 24th and 25th, but was halted on the 26th by French troops relieving the British. There were fresh attacks on March 28th to 31st, during which Noyon, Bapaume, Albert and Mondidier had to be evacuated. On April 1st the Germans were within six miles of the railroad from Amiens to Paris. But on March 28th, Gen. Foch had been put in supreme command of the whole of the Allied forces. The Americans under Pershing were called into action, and the Allied armies prepared to hold the line. The German advance nevertheless continued at a slower pace up to the middle of April, with the Germans in possession of Neuve Eglise and wedged between Messines and Givenchy, threatening Ypres and Calais. On April 26th the Germans were within two miles of Ypres, but on the 29th they received a check in this region after suffering severe losses. From that time until the end of May the fighting was reduced to incessant raids and local modifications of the Allies' lines. On May 27th, the Germans, under the command of Ludendorff struck again, this time between Rheims and Soissons, and by the 31st they had reached the Marne, after taking Soissons, and 45,000 prisoners. On June 2nd, they had reached Chateau Thierry and were within 40 miles of Paris. During this advance the Germans had from time to time bombarded Paris with long range guns. The first of these bombardments was on March 21st, but the most disastrous was on Good Friday, March 29th, when the Church of St. Gervais, filled with worshippers was struck by a shell. The advance of June 2nd brought the Germans to the nearest point to Paris reached in the offensive of 1918.

### THE TIDE TURNS.

In the days that followed the American troops had a share in repulsing the Germans. On June 4th they helped in checking the German advance at Chateau Thierry, and on June 6th and 7th they pushed the Germans back two miles on a front of six miles near Torcy. On June 9th the Germans made a desperate effort to widen the Montdidier salient. But the offensive was coming to an end. The French troops not only held but gradually improved their lines, and a German attack near Compiègne on June 13th was repulsed with enormous loss to the attackers.

### FOCH'S COUNTER-OFFENSIVE.

There was a pause on the part of the Germans until July 15th, when after an artillery bombardment the Germans attacked on a 60 mile front east and west of Rheims. The Germans succeeded in crossing the Marne at several points and also re-occupied Chateau Thierry. But in general the lines of the Allies held, and on July 18th, Gen. Foch made a great counter-offensive between the Aisne and the Marne. This was the beginning of the great advances by the Allies which characterized the months of August, September and October. Gradually the whole of the salient between Rheims and Soissons was eliminated, and on August 2nd the Allies entered Soissons and the Germans were pushed back on the Aisne River.

### ALLIED ADVANCE.

On August 8th, the British and French began an attack further north at Albert. On August 29th, the French entered Noyon and the British took Bapaume, and on September 1st the Austrians in a sweeping attack took possession of Peronne. As the British-French advance continued towards Cambrai, the German General Staff removed its Headquarters from Spa, Belgium, to Verbiere, 14 miles east of Liège. By September 8th, the British had in large part reached the line of defenses they had occupied before the German offensive of the spring, and on September 12th and 13th, the St. Mihiel salient was wiped out by the First American army with

the capture of 20,000 prisoners. On September 29th, Bellicourt was captured by the Americans, and on October 1st the French were in St. Quentin, whence the Germans had taken all the inhabitants leaving the city desolate.

### SUCCESS ON THE WESTERN FRONT.

All through October, 1918, the successful advance of the Allied armies continued. St. Quentin was occupied on October 2nd, and Lens, October 3rd. On October 8th and 9th the British, after a fierce battle drove the Germans out of Cambrai. The French took Laon on October 13th, and Lille and Douai were won back for France on October 17th. The Belgian coast was cleared of Germans by October 19th, and by the end of October French soil was nearly free from the enemy, while the process of driving the Germans out of Belgium was proceeding ever more rapidly. On November 6th, the American army captured Sedan, and only the complete acceptance by Germany on November 11th, 1918, of the armistice terms dictated by the Allies saved Germany from a final disastrous rout.

### RUSSIAN PEACE.

At the expiration of the Russo-German armistice, the Teutons again began an advance into Russia in February, 1918. But the Russians were in no position to continue the war and the delegations again assembled at Brest, and on March 3rd, 1918, a peace, the Brest-Litovsk treaty, was signed between the Central Powers and Russia. By this peace the Russians gave up Kurland, Poland and Lithuania, and evacuated Finland and Ukraine. The signing of the peace did not bring peace to the peoples of these countries. Civil war between the Reds and the White Guards continued in Finland where the White Guards were reinforced by Germans. In the Ukraine the peasants were soon in open revolt against German attempts to secure 85 per cent. of the Ukrainian grain crop.

### THE CZECHOSLOVAKS.

But the most serious trouble for the Central Powers grew out of the action of the Czechoslovak-Austrian troops that had surrendered to Gen. Brusilov during his drive into Galicia and had been armed by him to fight against Austria. When demobilization was ordered the Bolshevik Government agreed to allow these troops to cross Siberia to join the Allies. It then changed its mind and the Czechoslovaks had to fight their way to Vladivostok. On July 26th they captured Simbirsk, 600 miles east of Moscow, and on August 1st took Yekaterinburg. In Western Siberia they mobilized the inhabitants at Omsk and Kurgan, and an army reached the Black Sea on July 30th and liberated thousands of Italian and Roumanian war prisoners. On July 23rd they had established a provisional government at Omsk, and on August 3rd, President Wilson announced that the United States would co-operate with the Allies and the Czechoslovak troops in Russia. On August 13th, the Czechoslovaks were recognized by Great Britain as a nation and as a belligerent power, and they were similarly recognized by the United States on September 3rd. During the summer of 1918, British, Japanese, and French troops had been landed in Siberia and at first they met with little opposition. In September, however, opposition became more pronounced, and on September 19th, Baku in Transcaucasia had to be evacuated by the British.

### THE ITALIAN FRONT IN 1918.

During the winter of 1917-18 the fighting on the Italian front was chiefly confined to the air and artillery duels. The Italians gained some successes in February, but the spring months were characterized by a steady reinforcement of the Austrian lines, evidently in preparation for an attack. The attack began on June 15th, when the Austrians attacked from the Asiago to the Adriatic—a distance of 100 miles. With the exception of a few very slight advances the Austrians were

held or repulsed all along the line, and later in counter-attacks they were driven out of the territory between the Brenta and Piave.

#### ITALIAN SUCCESSES.

In October there was another advance by the Italians and the British, French and American troops which were with them. There were minor successes, in local assaults, through the earlier part of the month, and on October 23rd and 24th British and Italian troops forced a passage over the Piave river. There were fierce attacks about the same time in the mountains, and on October 27th, Monte Perlica was captured from the Austrians. By October 31st the retreat of the Austrians was becoming almost a rout—50,000 prisoners and 300 guns had been captured. Three days later the total number of prisoners taken had been swelled to 100,000 and of guns to 2,200. At this juncture the Austrian Government gave in. An armistice, including Austria only, was signed on November 3rd, 1918. Its terms left the Austrians powerless to continue or resume the war, and Germany was left for a few days longer to face the Allies absolutely alone.

#### BULGARIA GIVES IN.

About the end of May, 1918, active fighting began on the Macedonian front. The Allied troops—Serbian, British, French, Italian and Greek—were opposing Bulgarians and Austrians, with some stiffening of Germans. In an offensive in July the Allies captured Fieri, July 9th, and Berat, July 12th. The advance was resumed in force in September, and on September 19th the Bulgars were driven in flight across the Cerna River. The retreat became a rout, and on September 23rd it was announced that 11,000 prisoners and 140 guns had been captured. On September 30th, 1918, Bulgaria agreed to an armistice, under which she was to evacuate all Greek and Serbian territory; demobilize her armies; surrender all means of transport, including boats and control of navigation; concede free passage through her territory to the Allies; store all arms and ammunition under control of the Allies, and permit the occupation of important strategic points.

#### PALESTINE RESCUED FROM THE TURK.

The year 1918 also saw considerable successes in the fighting against the Turks. In 1916 a British expedition under General Townshend had been sent up the Tigris towards Bagdad. It reached Ctesiphon, but was obliged to fall back, retreating over 100 miles in seven days. At Kut-el-Amara General Townshend was surrounded and besieged by the Turks. Relief expeditions were pushed up the Tigris to within gunshot of the city; but on April 28th, 1916, General Townshend was forced by hunger to capitulate, with 2,970 British and 6,000 Indian troops. On February 26th, 1917, this disaster was avenged by General Maude, who recaptured Kut, and on March 11th made a triumphal entry into Bagdad. Another British army, in 1917, after repelling a Turkish attack on the Suez Canal, struck into Palestine, and on March 26th to 27th defeated a Turkish force, inflicting great losses, at Gaza. On June 29th General Allenby assumed command. Jaffa was taken on November 18th, and Jerusalem in the beginning of December. Jericho was taken in February, 1918, and gradually the British occupied the whole of Southern Palestine. On September 22nd General Allenby took Nazareth, and marched on to the Jordan. The Sea of Galilee was reached September 25th, and Damascus fell to the British early in October. As soon as it was evident that Palestine would be cleared of Turks, the Allies began arrangements for the establishment of a Jewish nation in the ancestral home of their race.

#### THE COLLAPSE OF TURKEY.

October which proved so disastrous for Austria and Bulgaria, was no less so for Turkey. During the early part of the month the conquest of Palestine was completed. On October 2nd, 1918,

Damascus was captured, and the Arabs who had loyally seconded the efforts of the British were recognized by the Allies as co-belligerent. On October 11th, the Allied fleet entered the port of Beirut and found that it had been evacuated by the Turks. In Mesopotamia the Turks suffered a series of disastrous defeats, culminating in engagements on the banks of the Tigris, October 24th and 30th, in which 7,000 prisoners were taken. The collapse of Bulgaria left Turkey open to attack on that frontier, and General Townshend who had been held prisoner since the fall of Kut, was despatched as an emissary to the British to take the plea of the Turks for an armistice. An armistice was signed on October 31st, 1918. The terms were equivalent to full surrender by Turkey, and the second of the Allies of Germany dropped out of the fight.

#### U-BOAT DESTRUCTION.

In 1917 the destruction of merchant shipping by the U-boats became a distinct menace to the Allies. Up to the issue of the German declaration of unrestrained U-boat destruction on February 1st, it was estimated that the total destruction of shipping by U-boats and mines had been 2,400 ships of a total tonnage of 4,000,000. During the first five months of the new warfare the destruction amounted to 3,160,000 tons. The threat was met by elaboration of means of defence and of destruction of the U-boats, and by the use of convoys; and also by increased ship-building, in which the United States became particularly prominent in 1918. By July, 1918, the construction of new vessels had more than caught up with the destruction effected by the U-boats, and an official statement given out in Washington, on September 22nd, 1918, estimated the net loss of tonnage by the Allies and neutrals from the beginning of the war at 3,362,088. One method of meeting the danger of the submarine was the attempted blocking of their bases at Zeebrugge and Ostend—a feat which was effected by the British on April 22nd, 1918. In 1918 great efforts were made to check the landing of American troops in Europe by the torpedoing of their transports, and in July and August German submarines appeared off the coast of the United States. The neutral powers suffered from submarine activity almost as much as the Allies, and on August 8th Spain announced her intention to confiscate enough of the German ships interned in her ports to make good her losses through German submarines.

#### GERMAN ATROCITIES.

In this brief history of the war no attempt has been made to chronicle the atrocities perpetrated by the German and Austrian forces, or the gross breaches of international law of which they have been guilty. But the heavy oppression of conquered territory, the taking and shooting of hostages, the murder of civilians, including women and children, the forcing of men and women into slavery, the outraging of women and girls and awarding of them to the soldiers in systematic fashion, the bombing of undefended towns and of hospitals, the torpedoing of hospital ships, and all other forms of frightfulness must be taken into account in judging of the attitude of the civilized world towards the Teutonic Powers. The sinking of the S.S. *Leinster* on October 11th, 1918, with the loss of over 451 lives was one of the latest of these atrocities—an atrocity which nearly equalled the torpedoing of the *Lusitania* in May, 1915. The *Leinster* was a mail and passenger steamer plying between Kingston and Holyhead; it was crowded with passengers and carried many women and children. It sank within fifteen minutes after being hit.

#### NATIONS AT WAR WITH GERMANY.

At the beginning of October, 1918, eleven-twelfths of the human race were involved in the war. The countries that were or had been at war with Germany and Austria were:—Belgium, Brazil, China, Cuba, France, with her colonies, including Algeria and Madagascar; Great Britain and

her dominions and colonies, including Canada, Australia, New Zealand, South Africa and India; Greece, Italy and her colonies, including Morocco; Japan, Liberia, Montenegro, Panama, Portugal, Roumania, Russia, San Marino, Serbia, Siam, and the United States. The estimated population of all these countries exceeded fourteen hundred millions.

#### GERMANY'S POLITICAL CHANGES.

On October 4th, 1918, a change of policy on the part of Germany was signified by the appointment of Prince Max of Baden, as Imperial Chancellor, and by the association with him in the government of two Socialist deputies. On October 5th in his first speech to the Reichstag, the new Chancellor announced the programme of the government. This included ministerial responsibility to the majority in the Reichstag; the introduction of representatives of the working classes into the government; the restoration of Belgium; the setting up of Alsace-Lorraine as an independent federal state; readiness on the part of Germany to revise peace treaties already concluded; and willingness to join in a league of nations for the future preservation of peace.

#### INTERCHANGE OF PEACE NOTES.

At the same time Germany addressed a note to President Wilson, asking him to take steps for the restoration of peace, and for the immediate conclusion of a general armistice. A similar request was also made by Austria, and an overture from Turkey, received a few days later, was evidently intended as part of the same peace offensive. The President's reply was dated October 8th. In it he asked for the exact meaning of the German note; stated that he would not feel at liberty to propose an armistice to the Allies while German armies were on their soil, and asked whether the Chancellor was speaking for the constituted authorities of the Empire who had so far conducted the war.

#### PRESIDENT WILSON WARNS GERMANY.

The German reply was dated October 12th. It stated that the German Government accepted the principles laid down by President Wilson on January 8th, 1918, and in later addresses; that it was ready to comply with the conditions laid down in regard to evacuation of the territory of the Allies; and that the Chancellor spoke for the German people as represented by the majority in the Reichstag. President Wilson replied to this German note on October 14th. He stated that the process and conditions of evacuation must be left to the military advisers of the United States and the Allies; but that no conditions could be accepted which did not provide absolute safeguards for the military supremacy of the Allies in the field; called attention to the continuance of illegal and inhumane practices on the part of the Germans; and to the fact that German autocracy was still in control. The American reply to Austria was dated October 18th. In it President Wilson stated that mere autonomy was no longer enough for the subject nations of Austria; as the Czecho-Slovaks had been recognized as belligerents and the aspirations of the Jugo-Slavs had also been recognized. The proposals of Austria were therefore not acceptable to the United States.

#### GERMANY'S PEACE PLEA SENT TO THE ALLIES.

The German reply of October 21st merely denied all atrocities on the part of the Germans, and protested that the German Government was free from all arbitrariness and irresponsible influence and was supported by the approval of the overwhelming majority of the German people. To

this President Wilson replied on October 23rd, that having received the solemn and explicit assurance of the German government that it unreservedly accepted the terms of peace laid down in his address to Congress on January 8th and in subsequent addresses, he had transmitted the correspondence to the Allies; but at the same time he warned Germany in the frankest possible terms that extraordinary safeguards must be demanded in any possible armistice. He stated plainly that he considered that the power of the King of Prussia to control the policy of the Empire was unimpaired, and that the nations of the world did not and could not trust the word of those who had hitherto been the masters of Germany.

#### THE ARMISTICE.

On November 5th, President Wilson communicated to Germany a memorandum received from the Allied governments, in which willingness was expressed to accept the terms of peace laid down by President Wilson; but specifying that there was some ambiguity about the phrase "freedom of the seas" and also that no doubt should be allowed to exist that restoration of invaded territories should include compensation for all damage done by Germany to the civilian population of the Allies and their property aggression by land, air, and sea. On receipt of this note German peace delegates at once proceeded to the allied lines, which they reached on November 6th. They were given the allied terms for an armistice and returned to German Headquarters on November 10th. The terms were remarkably severe, including the surrender of guns, machine guns, aeroplanes, warships, submarines, locomotives, wagons, and motor lorries; but they were accepted without hesitation or delay, and on Monday, November 11th, 1918, the fighting which began on August 1st, 1914, was brought to a close.

#### FLIGHT OF EMPEROR WILLIAM.

On November 9th, 1918, before the signing of the armistice, the Emperor William and the Crown Prince informally abdicated, and on the following day the Emperor fled to Holland, where he was allowed to go to the castle of his friend Count Bentinck, at Amerongen. The Crown Prince, on November 20th, was interned at Mosterland on the island of Wierigen, Holland. The Empress and Crown Princess were left behind in Germany at the time of the flight of their husbands. The Emperor carried off the crown jewels and a large amount of money in German gold. It was later discovered that the abdication of the Kaiser was not in legal form. He therefore wrote his abdication—for himself alone and not for his sons—on November 20th. The legal advisers of the Berlin government put this in proper form and it was signed by the Kaiser on November 28th, 1918.

#### AFTERMATH OF THE ARMISTICE.

The evacuation of France and Belgium was begun by the Germans on November 12th, and was carried out quickly, but not in a very orderly manner. Socialist disturbances in Germany and many mutinies against officers characterized the days of the withdrawal. On November 19th, the French entered Metz; and Strassburg was occupied by them on the 25th. King Albert made his re-entry into Brussels on November 23rd. The surrender of the German fleet took place on November 21st, 1918, when 9 battleships, 12 cruisers and 50 destroyers were brought into the lines of the Allied fleet and taken into the Firth of Forth by Admiral Beatty. The surrender of the submarines was made more gradually. An ignominious end was thus put to the grandiose endeavour of Germany to rival the sea-power of Great Britain.

## COPYRIGHT IN CANADA.

The law of copyright in Canada is to be found in the Revised Statutes of Canada, 1906, Chapter 70, which embodies the provisions of the original Act. Its leading features may be briefly summarized as follows:—

Any person domiciled in Canada, or in any part of the British Possessions, or any citizen of any country which has an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart or musical composition, or of any original painting, drawing, statue, sculpture or photograph, or who invents, designs, etches, engraves or causes to be engraved, etched, or made from his own design, any print or engraving, and the legal representatives of such person or citizen, shall have the exclusive right to print, reprint, publish, reproduce and sell such works or compositions in whole or in part, and of allowing translations to be printed, reprinted or sold. Sec. 4.

Exception is made as to immoral, licentious, irreligious, treasonable and seditious literary, scientific or artistic work which is not the legitimate subject of such registration or copyright. Sec. 7.

The right of copyright endures for twenty-eight years from the time of recording the copyright. After the expiration of twenty-eight years the copyright may be extended for a further term of fourteen years to the author if he is alive, or if he is dead, to his widow or child or children, but in such case the title of the work secured must be a second time registered and all other conditions fulfilled which are required in regard to original copyrights, and the author or proprietor must publish a notice of such registration once in the *Canada Gazette*. Secs. 19, 20 and 48.

In no case shall the said sole and exclusive right and liberty in Canada continue to exist after it has expired elsewhere. Sec. 5.

A subsequent edition need not be registered unless it contains very important alterations or additions. Sec. 13.

The conditions for obtaining such copyright are:—

(1) That such literary, scientific or artistic work shall be printed and published, or reprinted and republished in Canada, or in the case of works of art, that they shall be produced or reproduced in Canada. Sec. 49.

(2) In the case of paintings, drawings, statuary and sculpture, a written description must be furnished to the Minister of Agriculture. In the case of books, maps, charts, musical compositions, photographs, prints, cuts and engravings, three copies must be furnished to the Minister, one of which is deposited in the library of the Parliament of Canada, and one in the British Museum. Secs. 11 and 12.

(3) The statutory fee must be paid to the Minister of Agriculture. Sec. 24.

(4) There must be inserted in the several copies of every edition on the title page, or on the page immediately following, if it is a book, or if it is a map, chart, musical composition, print, cut or engraving, or photograph, there must be impressed on the face thereof, or if it is a volume of maps, charts, music, engravings or photographs, upon the title page or frontispiece thereof the word, "Copyright, Canada, 19.. (year of registration), by (name of copyright proprietor)," but as regards paintings, drawings, statuary, and sculpture, the signature of the artist is deemed a sufficient notice of such proprietorship. Sec. 14.

A temporary copyright may be obtained when a literary work intended to be published in pamphlet or book form is being first published in separate articles in a newspaper or periodical. The title of the manuscript and a short analysis of the work must be deposited at the Department, and every separate article so published must be preceded by the words, "Registered in accordance with the Copyright Act." Sec. 9.

Temporary copyright secures to the proprietor all the privileges granted by the Copyright Act during the time of preliminary publication. Before being published, however, in book form, the work must be registered. Three copies of the work must be deposited with the application form and the fee.

An interim copyright may be obtained by the author of any literary, scientific or artistic work, or by his legal

representatives pending the publication or republication thereof in Canada, by depositing at the Department a copy of the title or designation of such work intended for publication or republication in Canada, but such interim registration does not endure for more than one month from the date of the original publication elsewhere within which period the work must be printed or reprinted and published in Canada. Sec. 15.

The following fees are payable to the Minister of Agriculture:—On registering a copyright \$1.00. On registering an interim copyright 50 cents. On registering a temporary copyright 50 cents. On registering an assignment \$1.00. Certified copy of registration 50 cents. Registering any decision of a court of justice, for every folio 50 cents, etc. Sec. 24.

An action for the recovery of any penalty provided by the Copyright Act must be commenced within two years after the cause of action arises. Sec. 44.

If a book, as to which there is subsisting copyright, under the Copyright Act, has been lawfully published in any part of the British Dominions other than Canada, and if the author has lawfully granted a license to reproduce in Canada an edition or editions of such book designed for sale only in Canada, the Minister may prohibit the importation into Canada of any copies of such book, except with the written consent of the licensee, provided that two copies may be specially imported for the *bona fide* use of any public free library or any university or college library, or for any library of any duly incorporated institution or society for the use of its members. Sec. 28.

An assignment of a copyright, whether as to the whole interest or a part thereof, must be made by an instrument in writing made in duplicate and registered at the department. Both duplicates must be sent to the Department of Agriculture with the statutory fee. One is retained at the department and the other is returned with a certificate of registration to the person depositing it. Sec. 17.

International copyright, regulated by the Berne Convention, 1886, modified by the Act of Paris, 1896, is binding in the following countries:—Great Britain, the British Dominions, Germany, Russia, Belgium, Spain, France, Haiti, Italy, Switzerland, Tunis, Luxembourg, Monaco, Denmark, Japan and Sweden. An author belonging to any one of the countries named has the same rights in the other countries as the laws of his own country allow him. An author not belonging to one of the countries, who publishes for the first time in one of these countries, also has these rights. An author has the exclusive right of authorizing translations of his work during the entire period of his copyright in the country of origin of the work, but unless he has published such a translation within ten years the exclusive right ceases to exist. Serial stories and short stories are protected. Other articles are protected if the periodical bears upon it a general prohibition against translation; but political articles, news of the day and miscellaneous articles are not protected.

Under the Berne Convention the subject or citizen of a Union Country enjoys in Canada the same copyright protection as in his own country.

As to the existing arrangements between Great Britain and the United States with regard to the rights of citizens of each country to obtain copyrights in the other country, it is understood that a United States citizen can obtain copyright in Great Britain by simply exposing for sale a certain number of copies of his work on the day of publication within the British Empire, whereas the British citizen who desires to obtain a copyright in the United States has to have the type of his book set up in the United States and the book manufactured there.

Both the British Empire and the United States require first publication. Simultaneous publication in another country does not invalidate the copyright. Publications on the same day are treated as simultaneous.

The Rules and Forms respecting applications for copyright may be obtained at the Department of Agriculture, Copyright and Trade Marks Branch.

## PATENTS IN CANADA.

The Patent Office is a Branch of the Department of Agriculture, and the Minister of Agriculture for the time being is the Commissioner of Patents.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. Whenever a Patentee is unable to commence or carry on the construction or manufacture of his invention within the two years provided, the Commissioner may at any time not more than three months before the expiration of that term, grant to the Patentee or his legal representatives an extension of the term of two years, on his proving to the satisfaction of the Commissioner that his failure to commence or carry on such construction or manufacture is due to reasons beyond his control. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An Inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the Inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to

royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further renewal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but same unless duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding \$100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding \$200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far as it has proceeded, with or without plans, at his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees are payable:—Full fee on patent for 18 years, \$60.00; partial fee for 12 years, \$40.00; partial fee for 6 years, \$20.00; for further term of 12 years, \$40.00; for further term of 6 years, \$20.00; on filing caveat, \$5.00; on registering assignment patent, \$2.00; for copy of patent, with specification, \$4.00. When the invention is not susceptible of being patented or where petition therefor is withdrawn, the Commissioner may return the fee paid, less ten dollars.

The disbursements for filing an application in Great Britain are \$25.00; France, \$20.00; Germany, \$5.00, and \$7.50 before issuing patent; Austria, \$20; Russia, \$75.00; British India, \$20.00. The German and French patents cover not only Germany and France but also their colonies. The Russian patent extends to all of the Russian possessions.

The disbursements for filing an application in the Australian States, namely, Queensland, Victoria, New South Wales, South Australia, Western Australia and Tasmania are \$5.00 on filing of the application, \$10.00

on allowance of same and \$25.00 for preparation of the sealing of patent; New Zealand, \$20.00; Mexico, \$75.00; Natal, \$50.00; Japan, \$75.00; Jamaica, \$150.00.

Since the war there have been Orders-in-Council amending the orders and regulations regarding patents, which are as follows:—First Order dated 2nd October, 1914, under which it is provided, that in any case in which through circumstances arising from the present state of war the Commissioner may deem it expedient, he may order that during the continuance of the war, and for six months thereafter, neither the failure to construct or manufacture in Canada any patented invention, nor the importation of such invention into Canada, shall in any way affect the validity of the patent granted in respect of such invention.

Under order dated 2nd October, 1914, it is provided that the Commissioner may order the avoidance or suspension in whole or in part of any patent or license, the person entitled to the benefit of which is a subject of any State at war with His Majesty, and the Commissioner may also in his discretion grant in favor of persons other than a subject of any State at war with His Majesty, license to make, use or vend the patented invention so avoided or suspended. The Commissioner may also extend the time prescribed by the Patent Act or any rules made thereunder, for doing any act or filing any document:

(a) Where it is shown to the satisfaction of the Commissioner that the Applicant, Patentee or Proprietor was prevented from doing such act or filing the said document by reason of active service or enforced absence from the country, or any other circumstances arising from the present state of war, which in the opinion of the Commissioner would justify such extension.

(b) Where the doing of any act would by reason of the circumstances arising from the present state of war, be prejudicial or injudicious to the rights or interests of any Applicant, Patentee or Proprietor as aforesaid.

The Commissioner may also refuse to register the assignment of any patent made by a subject of any State at war with His Majesty, and filed in the Patent Office on or after 4th August, 1914, unless satisfied that such assignment was made in good faith, and not for the purpose of evading any of the provisions of the orders and regulations.

## SUCCESSION DUTIES UNDER THE SUCCESSION DUTIES ACT OF ONTARIO.

Property consisting of real and personal property of every description and every estate and interest therein capable of being devised or bequeathed by will or of passing on the death of the owner to his heirs and representatives is subject to Succession Duty, and the value thereof is taken on the basis of the fair market value as on the date of the death of the deceased, less an allowance for reasonable funeral expenses, debts and encumbrances and Surrogate Court Fees.

No duty shall be leviable :—

(a) On any estate the aggregate value of which does not exceed \$5,000.

(b) On property passing by will, intestacy or otherwise to or for the benefit of the grandfather, grandmother, father, mother, husband, wife, child, daughter-in-law, or son-in-law of the deceased where the aggregate value of the property of the deceased does not exceed \$25,000.

(c) Where the whole value of any property passing to any one person does not exceed \$300, unless such person is a member of a class, and the whole value of the property passing to said class exceeds \$600.

(d) On property devised or bequeathed for religious, charitable or educational purposes to be carried out in Ontario or by a corporation or a person resident in Ontario or on the amount of any unpaid subscription for any like purpose made by any person in his lifetime to any corporation or person mentioned in this subsection for which his estate is liable.

No duty shall be payable in respect of any property :—

(a) Given absolutely more than three years before the death of the donor to a child, son-in-law or daughter-in-law, or to the father or mother of the donor which does not exceed in the aggregate to persons named in this subsection the sum of \$20,000 in value or amount.

(b) Given by the donor where the gift is proved to have been absolute and to have taken effect in the lifetime of the donor and to have been part of his ordinary and normal expenditure and to have been reasonable, having regard to the amount of his income and the circumstances under which the gift was made ; of which property actual and *bona fide* possession and enjoyment shall have been assumed by the donee immediately upon the gift and thenceforward retained to the entire exclusion of the donor or of any benefit to him, whether voluntary or by contract or otherwise.

Nor in respect of property :—

(c) Given by the donor in his lifetime and not exceeding in value the sum of \$500 in the case of any one donee, or

(d) Actually and *bona fide* transferred for a consideration in money or money's worth paid to the transferor

for his own use and benefit, except to the extent, if any, to which the value of the property transferred exceeds that of the consideration so paid.

Subject to the above the following duties are payable :—

1. Where the aggregate value of the property exceeds \$25,000, and any property passes in manner hereinbefore mentioned, either in whole or in part to or for the benefit of the grandfather, grandmother, father, mother, husband, wife, child, son-in-law, or daughter-in-law of the deceased, the same or so much thereof as so passes, shall be subject to a duty at the rate and on the scale as follows :—

Where the aggregate value

(a) Exceeds \$25,000 and does not exceed \$50,000,  
1 per cent.

(aa) Exceeds \$50,000 and does not exceed \$75,000,  
2 per cent.

(b) Exceeds \$75,000 and does not exceed \$100,000,  
3 per cent.

(c) Exceeds \$100,000 and does not exceed \$150,000,  
4½ per cent.

(d) Exceeds \$150,000 and does not exceed \$300,000,  
5½ per cent.

(e) Exceeds \$300,000 and does not exceed \$500,000,  
6½ per cent.

(f) Exceeds \$500,000 and does not exceed \$750,000,  
7½ per cent.

(g) Exceeds \$750,000 and does not exceed \$1,000,000,  
8½ per cent.

(h) Exceeds \$1,000,000, 10 per cent.

2. Where the aggregate value of the property exceeds \$100,000 and the value of the property passing in manner hereinbefore mentioned to any one of the persons mentioned in the next preceding subsection exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the rates in the next preceding subsection mentioned as follows :—

Where the whole amount so passing to one person

(a) Exceeds \$100,000 and does not exceed \$200,000,  
1 per cent.

(b) Exceeds \$200,000 and does not exceed \$400,000,  
1½ per cent.

(c) Exceeds \$400,000 and does not exceed \$600,000,  
2 per cent.

(d) Exceeds \$600,000 and does not exceed \$800,000,  
2½ per cent.

(e) Exceeds \$800,000 and does not exceed \$1,000,000,  
3 per cent.

(f) Exceeds \$1,000,000 and does not exceed \$1,200,000,  
4 per cent.

(g) Exceeds \$1,200,000, 5 per cent.

3. Where the aggregate value of the property exceeds \$5,000 and any property passes in manner hereinbefore mentioned, either in whole or in part to or for the benefit of any lineal ancestor of the deceased, except the grandfather, grandmother, father and mother, or to any brother or sister of the deceased or to any descendant of such brother or sister or to a brother or sister of the father or mother of the deceased or to any descendant of such last mentioned brother or sister, the same or so much thereof as so passes shall be subject to a duty at the rate and on the scale as follows:—

Where the aggregate value

- (a) Exceeds \$5,000 and does not exceed \$50,000, 5 per cent.
- (b) Exceeds \$50,000 and does not exceed \$100,000, 10 per cent.
- (c) Exceeds \$100,000, 12½ per cent.

4. Where the aggregate value of the property exceeds \$50,000, and the value of the property passing in manner hereinbefore mentioned to any one of the persons mentioned in the next preceding subsection, except the grandfather, grandmother, father and mother exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the duty in the next preceding subsection mentioned as follows:—

Where the whole amount so passing to one person

- (a) Exceeds \$50,000 and does not exceed \$100,000, 1 per cent.
- (b) Exceeds \$100,000 and does not exceed \$150,000, 1½ per cent.
- (c) Exceeds \$150,000 and does not exceed \$200,000, 2 per cent.
- (d) Exceeds \$200,000 and does not exceed \$250,000, 2½ per cent.
- (e) Exceeds \$250,000 and does not exceed \$300,000, 3 per cent.
- (f) Exceeds \$300,000 and does not exceed \$350,000, 3½ per cent.
- (g) Exceeds \$350,000 and does not exceed \$400,000, 4 per cent.
- (h) Exceeds \$400,000 and does not exceed \$450,000, 4½ per cent.
- (i) exceeds \$450,000, 5 per cent.

5. The additional duty provided for by subsections 2 and 4 shall be payable on the property in Ontario, where the deceased dies domiciled elsewhere than in Ontario, but for the purpose of fixing the rate of such duty the beneficial interest in property out of Ontario passing to the successor or other person on the same death shall be added to the value of the property in Ontario, and nothing in this Act shall be construed to impose any duty, directly or otherwise, on property out of Ontario owned by any deceased person so domiciled.

6. Where the aggregate value of the property exceeds \$5,000 and any property passes in manner hereinbefore mentioned either in whole or in part, to or for the benefit of any person in any other degree of collateral consanguinity to the deceased than is above mentioned or

to or for the benefit of any stranger in blood to the deceased, the same or so much thereof as so passes shall be subject to a duty at the rate and on the scale as follows:—

Where the aggregate value

- (a) Exceeds \$5,000 and does not exceed \$10,000, 6 per cent.
- (aa) Exceeds \$10,000 and does not exceed \$50,000, 10 per cent.
- (b) Exceeds \$50,000 and does not exceed \$1,000,000, 15 per cent.
- (c) Exceeds \$1,000,000, 20 per cent.

Every person applying for Letters Probate or Letters of Administration to the estate of the deceased person must file with the Surrogate Registrar within six months after the death of the deceased or such later time as may be allowed by the Provincial Treasurer, a statement duly verified containing a full inventory in detail of all the property of the deceased and the fair market value thereof at the date of his death as well as showing every person to whom the same passed with their places of residence and degree of relationship in which they stand to the deceased. Provision is also made for subsequent collection of duty on any property not disclosed therein. The provisions of the Act apply to transfers of property other than for valuable consideration made since 1st July, 1892.

Property outside as well as that within Ontario must be set out and if Succession Duties are payable to any other Province or Country with which Ontario has a reciprocal arrangement for so doing, a rebate of the duty on such outside property will be allowed.

No foreign executor can assign or transfer any bond, debenture, stock or share in any bank or other corporation having its head office in Ontario, standing in the name of the deceased person until the duty has been paid and if such bank or corporation permits same it shall be liable for said duty.

The duty may be paid within eighteen months after the death of the deceased without interest, but if not then paid, interest at five per cent per annum will be charged from date of death until the duty is paid. Instead of paying duty security may be given therefor to the satisfaction of the Provincial Treasurer. The executor is prohibited from paying or handing over any property to any of the beneficiaries until payment of duties, but should he do so the duty thereon with an additional rate of fifty per cent. is recoverable against him. Each beneficiary is liable for the duty upon the property passing to him. Power is given to any person liable to pay duty to raise same by sale, mortgage, or lease of the property vested in him or under his control.

The Provincial Treasurer has power to remit duty in cases of persons killed while on active military or naval service.

There are a number of provisions in the Statute as to the mode of ascertaining the value of property, the amount of duty thereon and the payments thereof and it would be generally advisable to consult a Solicitor to prevent complication and delay.

# THE LAW OF INTESTATES ESTATES, PROVINCE OF ONTARIO.

## DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed \$1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of three years (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

### TABLE SHOWING THE DISTRIBUTION OF PERSONAL PROPERTY OF INTESTATES IN ONTARIO SINCE JULY 1ST, 1886.

<i>If the Intestate die leaving:</i>	<i>His representatives take in the following proportions:</i>

Brother and grandfather.....	All to brother.
Brother's grandson and brother or sister's daughter .....	All to daughter
Brother and two aunts.....	All to brother.
Brother and wife.....	Half to brother and half to wife.
Mother and brother....	Equally.
Wife and mother, and children of deceased brother or sister....	Half to wife, one-fourth to mother, one-fourth <i>per stirpes</i> to deceased brother's or sister's children.
Wife, brother or sister, and children of deceased brother or sister .....	Half to wife, one-fourth to brother or sister <i>per capita</i> , one-fourth to deceased brother or sister's child <i>per stirpes</i> .
Brother or sister, and children of a deceased brother or sister.	Half to brother or sister <i>per capita</i> , half to children of deceased brother or sister <i>per stirpes</i> .
Grandfather and brother.....	All to brother.

# THE BRITISH GOVERNMENT.

## THE SECOND COALITION ADMINISTRATION.

The House of Commons of the Parliament of the United Kingdom—the Parliament that held its last Meeting on November 21st, 1918,—was elected in December, 1910. Had there been no war the Parliament which convened in January 31st, 1911, could not have continued longer than the end of 1915. There had been up to November, 1918, four prolongations of its life; and two reorganizations of the government. In August, 1914, Mr. Asquith was premier of a Liberal Government. He was then supported in the House of Commons by 372 members—Liberals 261, Labor and Socialist members, 37, Irish Nationalists, 74. The Conservatives or Unionists numbered 288, and the Independent Nationalists 9.

Just as soon as war began ordinary party politics in the constituencies, as well as in Parliament, came to an end. There was an understanding that when by-elections occurred they would not be contested on party lines. When the member who died or retired was a Conservative, a Conservative would be returned in his place; and the same rule was to apply in case of a vacancy due to the retirement or death of a Liberal or a member of the Labor party.

Growing out of these conditions and out of the general feeling that all parties in Parliament should share the burdens and responsibilities of the war, a coalition government was formed in May, 1915; and from then until the end of 1918, the United Kingdom was under coalition rule, as was the case during the Crimean War. At the time of the 1915 reorganization of the Ministry a seat in the Cabinet was offered by the Premier—Mr. Asquith—to the late Mr. John Redmond, the leader of the Irish Nationalists. But since the Irish Nationalist party was first organized, in the early seventies of last century—since the days of Butt and Parnell—it has always been the policy of the Nationalists to decline all overtures of office; and in keeping with this policy Mr. Redmond declined Mr. Asquith's offer.

The first coalition government, with Mr. Asquith as Premier, continued in power until December, 1916. In that month there was a complete reorganization of the government in consequence of popular discontent over the disasters in Roumania, and the hesitancy of the Asquith Administration in dealing with shipping and food questions. Mr. Asquith resigned. Mr. Lloyd George succeeded him as Premier, and a council of six for the direction of the war practically took the place of the cabinet. These were, in addition to the Premier, Earl Curzon, Lord President of the Council; A. Bonar Law, Chancellor of the Exchequer; Viscount Milner, Mr. George Barnes, and Sir Edward Carson—all without portfolio. At the end of April, 1918, Lord Milner succeeded the Earl of Derby as Minister of War, and Lord Milner's place in the War Cabinet was taken by Mr. Austin Chamberlain.

At the time these pages were revised for the press—on the Eve of the General Election of December 14th, 1918, the Administration stood as follows:—

*Prime Minister and First Lord of the Treasury*—Rt. Hon. David Lloyd George. (Salary, £5,000).

*Ministers without Portfolio*—Rt. Hons. George N. Barnes and Austin Chamberlain.

*Chancellor of the Exchequer*—Rt. Hon. Bonar Law (£5,000).

*Lord President of the Council*, Earl Curzon (£2,000).

*Attorney-General for Ireland*—Rt. Hon. James O'Connor (£2,000).

#### Household Appointments:

*Lord Steward*—Viscount Farquhar (£2,000).

*Lord Chamberlain*—Viscount Sandhurst (£2,000).

*Master of the Horse*—Earl of Chesterfield (£2,500).

*Treasurer of the Household*—Lt.-Col. J. Craig (£700).

*Comptroller of the Household and Chairman National Health Insurance Joint Committee*—Sir Edwin Cornwall (£700).

*Vice-Chamberlain*—Mr. W. Dudley Wald (£700).

#### THE OFFICE OF PRIME MINISTER.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prerogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Roseberry the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

#### THE GOVERNMENT DEPARTMENTS.

##### THE TREASURY.

*Chancellor of the Exchequer*—Rt. Hon. Andrew Bonar Law.

*First Lord of the Treasury*—Rt. Hon. David Lloyd George.

*Financial Secretary to the Treasury*—Stanley Baldwin.

*Joint Parliamentary Secretaries to the Treasury*—Sir Edmund Talbot, Capt. Fred. Guest.

*Lords Commissioners of the Treasury*—J. F. Hope, J. W. Pratt, T. Parker, Townyn T. Jones.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of

Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the first Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Parliamentary Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

##### THE FOREIGN OFFICE.

*Secretary of State for Foreign Affairs*—Rt. Hon. A. J. Balfour.

*Under Secretaries*—Lord Hardinge Penshurst, Lord Robert Cecil.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

##### THE COLONIAL OFFICE.

*Secretary of State for the Colonies*—Rt. Hon. Walter Hume Long.

*Under Secretary*—Mr. W. A. S. Hewins.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the House Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 1907, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

##### THE INDIA OFFICE.

*Secretary of State for India*—Rt. Hon. E. S. Montagu.

*Under Secretary*—Rt. Hon. Lord Islington.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

## THE HOME OFFICE.

*Secretary of State for Home Affairs*—Sir George Cave.

*Under Secretary*—Rt. Hon. W. Brace.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

## THE WAR OFFICE.

*Secretary of State for War*—Viscount Milner.

*Under Secretary*—Mr. F. R. Macpherson.

*Financial Secretary to the War Office*—Rt. Hon. H. W. Forster.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

## THE ADMIRALTY.

*First Lord of the Admiralty*—Rt. Hon. Sir Eric Geddes.

*Civil Lord of the Admiralty*—Rt. Hon. E. G. Pretyman.

*Secretary to the Admiralty*—Rt. Hon. T. J. Macnamara.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

## THE MINISTRY OF MUNITIONS.

*President*—Rt. Hon. Winston S. Churchill.

*Parliamentary Secretary*—Mr. F. Kellaway.

The powers of the President of the Board of Munitions are defined in the Act creating it, as "such powers and duties in relation to the supply of munitions for the present war as may be conferred on him by His Majesty in Council." His Majesty may also "if he considers it expedient that in connection with the supply of munitions any powers or duties of a Government Department or authority whether conferred by statute or otherwise, should be transferred to or exercised, or performed concurrently by the Minister of Munitions, make the necessary provision by Order in Council for the purpose." The duties of the office may be classed under three heads:—The organization of private industry for the production of naval and military munitions; the inspection of munitions made by private contractors; and the placing of munitions contracts for army and navy, the arranging for execution of future contracts and the taking over of factories.

## MINISTRY OF NATIONAL SERVICE.

*President*—Sir Auckland Geddes.

*Parliamentary Secretary*—Mr. A. C. T. Beck.

The functions of the Ministry of National Service—a Department created in 1917—were described by Mr. Beck, the Parliamentary Secretary to the House of Commons on October 17th, 1917:—"To review the whole field of British man-power, and to be in a position at all times to lay before the War Cabinet information as to the meaning in terms of man-power, and consequential results of all Departmental proposals put forward to the War Cabinet and referred to the Ministry for its consideration, and for an expression of its opinion; to make arrangements for the transfer from civil work not declared by the War Cabinet to be of primary importance, or, if ordered by the War Cabinet from the Navy, Army, or Air Service, to urgent national work, of such numbers of men as may be declared by the War Cabinet

to be necessary to reinforce the labour already engaged on that work, subject to the approval of the War Cabinet; to determine—in consultation with the Departments concerned—the relative importance of the various forms of civil work, and to prepare from time to time lists of reserved occupations, with such age and other limitations as may be necessary to secure the maintenance of essential public services, and the preservation of a nucleus of civil occupations and industries; to make arrangements for the provision, where necessary, of labour (male and female) in substitution for that withdrawn from civil life, within numerical limits imposed by the War Cabinet; to obtain for the Army, Navy, and Air Service, such men as can be withdrawn from civil life, without detriment to the maintenance of essential public services, and the due performance of the civil work necessary to maintain the Forces at sea, in the field, and in the air, and any nucleus of civil occupations and industries declared by the War Cabinet to be necessary, and in this connection to determine the physical fitness of men available, or possibly becoming available, for withdrawal from civil life.

## THE BOARD OF EDUCATION.

*President*—Rt. Hon. Herbert A. L. Fisher.

*Secretary*—Rt. Hon. J. Herbert Lewis.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

## THE LOCAL GOVERNMENT BOARD.

*President of the Local Government Board*—Rt. Hon. W. Hayes Fisher.

*Parliamentary Secretary to the Local Government Board*—Mr. Stephen Walsh.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

## THE BOARD OF TRADE.

*President of the Board of Trade*—Rt. Hon. Sir Albert Stanley.

*Parliamentary Secretary to the Board of Trade*—Mr. George J. Wardle.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters

connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

#### THE POST OFFICE.

*Postmaster-General*—Rt. Hon. Albert H. Illingworth.  
*Assistant Postmaster-General*—Rt. Hon. Herbert Pike Pease.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

The National Insurance Act of 1910 is worked partly through the Post Office, as is also the Old Age Pension Act of 1908.

#### THE BOARD OF AGRICULTURE.

*President of the Board of Agriculture*—Rt. Hon. Rowland E. Prothero.

*Parliamentary Secretary to the Board of Agriculture*—Sir Richard Winfrey.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

#### OFFICE OF PUBLIC WORKS AND BUILDINGS.

*First Commissioner of Works*—Rt. Hon. Sir Alfred Mond.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

#### DEPARTMENT OF THE LORD CHAMBERLAIN.

*Lord Chamberlain*—Viscount Sandhurst.

*Treasurer*—Col. James Craig.

*Controller of the Household*—Sir Edwin Cornwall.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

#### IRISH AND SCOTCH DEPARTMENTS.

*Lord Lieutenant of Ireland*—Lord Wimborne.

*Chief Secretary for Ireland*—Rt. Hon. E. Shortt.

*Secretary for Scotland*—Rt. Hon. Robert Munro.

*Lord Advocate*—James A. Clyde.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

#### NEW OFFICES CREATED BY THE WAR.

The list of Cabinet and Ministerial offices in the foregoing pages do not include all the Ministerial offices. New departments and sub-departments of State were created owing to the exigencies of the war. In the House of Commons on July 23rd, 1918, Mr. Bonar Law, Chancellor of the Exchequer, and leader of the House, in answer to a question, stated that there were then 91 Ministers in the Government.

One Member of the House—Lord Henry Cavendish-Bentinck—remarked that Ministers were so numerous that they should be sent as a battalion against the Germans. Another Member—Mr. Swift MacNeill—recalled the fact that not since the days of Walpole had so many Members of the House of Commons held office. An official return issued from the Treasury on June 6th, 1918, shewed that 86 Members of the House of Commons were holders of Ministerial offices. Twenty-seven of them, the return shewed, were serving without salaries.

#### OFFICERS OF THE HOUSE OF COMMONS.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was again unanimously re-elected on the opening of the new parliament in February, 1910. Mr. J. H. Whitley, in October, 1911, became Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ilbert is Clerk of the House (salary £1,800); Sir Colin Keppel, Sergeant-at-Arms (salary £1,000).

#### MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834. The present pensioners are Lord George Hamilton since 1892 in the first class; Mr. Henry Chaplin and Lord Balfour of Burleigh in the second class. No new pensions have been granted since the Balfour Government went out of office in December, 1905.

Salaries of Ministers are fixed by Act of Parliament, but each Minister is to do as he pleases with his salary. The new Ministers agreed to pool their salaries, which differ in amount, and to divide equally—an arrangement which gave each Minister about £4,500. The pooling arrangement excited some discussion and led to a proposal that there should be a general revision of Ministers' salaries.

## THE NEW ELECTORAL SYSTEM OF THE UNITED KINGDOM.

The most sweeping changes ever made in the electoral system of the United Kingdom were effected in 1918, by an Act of Parliament passed at Westminster in the winter session of 1917-1918. People who are accustomed to consulting the CANADIAN ALMANAC will recall from the article that was for many years included in the British section, that the old electoral system—the system that survived until 1918—was exceedingly complicated.

#### THE OLD SYSTEM AND ITS ANOMALIES.

Despite great reforms made in 1832, 1867 and 1884, the representative system as it stood from 1884 to 1918 was characterized by medievalisms—corruptions that had worked their way into the system in the fifteenth, sixteenth and seventeenth centuries, corruptions that had survived the three reforms of the nineteenth century, because they conferred electoral privileges on some classes of men, who were unwilling to be dislodged from the political advantages they enjoyed.

One of the most patent of the old-world corruptions was that by virtue of which men owning freehold property could exercise the parliamentary franchise in as many constituencies as they possessed qualifications. There were numerous instances in which men possessed as many as seventeen or twenty votes, and usually exercised them all under the system by which a general election extended over two or three weeks.

Another corruption, born in the seventeenth century of the eagerness of men to be elected to the House of Commons, was that under which candidates were compelled to pay every penny of the official charges in connection with an election. Not one of the official charges was defrayed out of public funds—either of the municipality or the county or the central government. Candidates paid for everything—advertising the election, cost of polling booths, printing ballot papers, fees of returning officers and poll clerks, and even the charges incidental to the services of extra policemen on the day of election.

## A CLEAN SWEEP OF CORRUPTIONS AND ANOMALIES.

These anomalies and corruptions of the old system were swept away by the new electoral code, together with all the numerous ancient qualifications for the electoral franchise. Except for the continuance of the representation of the universities, the new electoral system of the United Kingdom is as simple as that under which members of Parliament at Ottawa are elected. The new system, moreover, is as democratic in nearly every detail as the electoral system of any of the nine provinces in the Dominion, or of any of the states in the American Republic, in which women as well as men exercise the franchise at municipal, state, and federal elections.

## MANHOOD SUFFRAGE.

Every man who has a settled abode for a period of six months is entitled to have his name placed on the roll of electors. Neither rental nor rating value enters into the question of qualification; and, moreover, under the new code no man loses his vote, as he did under the old code, because he or any person for whom he is legally responsible may have received poor law relief.

Except in two cases, plural voting is abolished, after having been of the electoral system of England since as far back as the fifteenth century. Under the new system a man who has his home in one constituency and his office or warehouse in another, can vote in each. A graduate of a university can also vote in the university constituency, and also in the constituency in which he has his home. But no man can exercise more than two votes.

## WOMEN AS PARLIAMENTARY ELECTORS.

For many years before 1918—to be exact, from 1869—women who were householders, and who were unmarried or widowed, were entitled to vote at municipal elections; and from 1907 to 1918 women were eligible—and many women served—as members of municipal and county councils. Under the new electoral code, the parliamentary vote is extended to women. Except that a man is eligible as a voter at the age of 21, and a woman is not eligible until she reaches the age of 30, the franchise for women is almost as wide as was the franchise for men under the old system. Every woman who is a householder, or the wife of a householder, is entitled to register as a voter; and the municipal franchise for women was greatly extended by adding the wives of all men who are householders to the limited list of women who are householders in their own name.

The new law is silent as regards the eligibility of women for membership of the House of Commons, but in the last week of October, 1918, the House of Commons, by a large majority, decided in favour of the eligibility of women for membership. The resolution then adopted will practically settle the question, for the House of Lords will, in all probability, decide that the question is one that concerns the Commons only, and will not interpose any objection to this settlement.

## CONSCIENTIOUS OBJECTORS DEBARRED FROM THE FRANCHISE.

Under the new law conscientious objectors to military services are debarred from exercise of the parliamentary franchise for a period of five years from the end of the war. By the Act a conscientious objector is (1) a man who has been exempted from military service (including non-combatant service) on the ground of conscientious objection; or, (2) a man who has been convicted by court martial of an offence against military law, has represented that the offence was the result of a conscientious objection to military service, and has been awarded punishment or detention. Up to the end of 1918, the number of conscientious objectors coming within this provision was over three thousand. There is a section in the Act that provides that the wife of a conscientious objector shall not lose her vote by reason of the fact that her husband is debarred from the exercise of the franchise.

## REGISTRATION OF ELECTORS.

By the new code an important reform is effected in the registration system as it was developed between the Reform Act of 1832 and the beginning of the war. Under the old system, overseers of the poor and their clerks compiled the electoral lists, which were wrangled and fought over by the paid agents of the political parties in the revising barristers' courts—courts which were in session once a year.

Under the new system there is in every constituency a registration officer—a permanent official, whose business it is to see that the name of every qualified man and woman is entered on the electoral roll. Under the old system electoral rolls were revised and published only once a year. Under the new system there are to be revisions of the electoral rolls in England and Scotland twice a year. In Ireland the revision will be made only once a year.

In England and Scotland this reform will eliminate long standing difficulties at election times, due to changes and removals. It will, in a word, eliminate from elections in Great Britain the old nuisance known as "stale registers."

## CHANGES IN ELECTION PROCEDURE.

In election procedure two important changes are made. All elections are to take place on one day, and the official expenses of elections are made a charge on the Imperial Treasury. Candidates are required to make a deposit, which is returned unless the candidate fails to receive one-eighth of the number of votes polled. In order still further to reduce the cost of elections to candidates, there is a section in the code that provides that after a candidate has been adopted he may send one communication, weighing not more than two ounces, post free to every elector in the constituency.

## DISTRIBUTION OF SEATS.

A redistribution of seats was made by the new Act. The accompanying table shows the changes in the distribution of electoral power:—

The first General Election under the new law was on December 14th, 1918. But owing to the large number of electors serving abroad with the military forces, a law was passed in the closing days of the parliamentary session of 1918, under the provisions of which the counting of the votes was deferred until December 28th, 1918.

## BRITISH CUSTOMS DUTIES.

From 1846 to the Great War all import or customs duties imposed by Parliament at Westminster were solely for revenue. There was not a single protective schedule in any of the British tariffs of these sixty-eight years. To check importations of luxuries and to redress the balance of trade during the war, duties for other than revenue purposes are now being levied on some imports. This war policy was inaugurated by the Budget submitted to the House of Commons on September 21st, 1915. The policy was continued by the finance legislation of the three following years. Under the finance Acts of 1915, 1916, 1917 and 1918, the following duties are now collected at the ports of entry of the United Kingdom:—

## COMPULSORY MILITARY SERVICE IN GREAT BRITAIN.

Compulsory military service is now established in England and Wales, and also in Scotland. Two Acts of Parliament were passed to bring about compulsion, which, with some exemptions, is universal in its application in Great Britain. The first Act, known as the Military Service Act, No. 1, which received the royal assent on January 27th, 1916, applied only to unmarried men, and to widowers with no children dependent upon them. The age of service as fixed by the law was from 18 to 41.

### EXTENSION OF COMPULSORY SERVICE LAW.

Under the second law, which was enacted in May, 1916, every male British subject resident in Great Britain was brought within the provisions of the law of January 27th. The law provided that on a day to be named by royal proclamation, "every man coming within its scope, was to be deemed to have been duly enlisted in His Majesty's regular forces for general service with the colors, or in the reserve for the period of the war, and to have been forthwith transferred to the reserve." Under the pre-war time army and territorial services acts, soldiers and territorials whose terms of service expired during a war, could be compulsory retained for a year. By an amendment made to these acts when the law of May, 1916, was before Parliament, men whose original term in the army or the territorial force expires during the present war, are to be held for the duration of the war.

### MEN UP TO AGE OF FIFTY-FIVE CALLED INTO SERVICE.

These were the laws affecting compulsory service until April, 1918. In that month when pressure for men was greater than at any time after the enactment of the law of January, 1916, there was an amendment or an addition to the war-time military code. By this change the age for service was made from 18 to 55. Ireland was brought within the provisions of the compulsory service laws, but for political reasons, the law was not put into operation in Ireland. Voluntary recruiting was again relied upon in obtaining men in Ireland, and up the time these pages of the *Canadian Almanac* went to press, the statement in the first paragraph of this article was still correct. Only in England and Scotland, up to the end of 1918, were men compelled to serve with the fighting forces. Men between 41 and 55 called into service under the law of April, 1918, became subject to all the provisions of the laws of January and May, 1916.

The exemptions provided for in the laws of January and May, 1916, are individual and general. Individual exemptions are regulated by section II. of the Act of January. General exemptions are regulated by a schedule of the Act.

### GROUND FOR INDIVIDUAL EXEMPTIONS.

Local tribunals were established by the Act to pass on applications for individual exemptions. 1,414 of these tribunals were created, and there are also 46 tribunals to which appeals from the local tribunals may be carried. Certificates of exemption can be granted by the local tribunals, but only on four grounds. These are:—

(a) On the ground that it is expedient in the national interests that a man should, instead of being employed in military service, be engaged in other work in which he is habitually engaged or in which he wishes to be engaged, or, if he is being educated or trained for any work, that he should continue to be so educated or trained; or

(b) On the ground that serious hardship would ensue, if the man were called up for Army Service, owing to his exceptional financial, or business obligations or domestic position; or

(c) On the ground of ill health or infirmity; or

(d) On the ground of a conscientious objection to the undertaking of combatant service.

A holder of a certificate of exemption granted by tribunals must, when required by a constable or by any person who has authority for the purpose from the Army Council, "produce his certificate or give particulars as to the authority by which the certificate was granted, and the grounds on which it was granted. If any man fails to comply with this provision or gives particulars which are false in any material respect, he

shall in respect of each offence be liable on summary conviction to a fine not exceeding three months."

### GENERAL EXEMPTIONS.

1. Men ordinarily resident in His Majesty's Dominions abroad or resident in Great Britain for the purpose only of their education or for some other special purpose.

2. Members of His Majesty's regular or reserve forces, or of the forces raised by the Governments of His Majesty's Dominions, and members of the Territorial Force who are liable for foreign service or who are, in the opinion of the Army Council, not suited for foreign service.

3. Men serving in the Navy, or the Royal Marines, or who, though not serving in the Navy or Royal Marines, are recommended for exception by the Admiralty.

4. Men in holy orders or regular ministers of any religious denomination.

5. Men who have left or been discharged from the naval or military service of the Crown in consequence of disablement or ill health (including officers who have ceased to hold a commission in consequence of disablement or ill health), and, subject to any provision which may hereafter be made by Parliament, men who have been discharged from the naval or military service of the Crown on the termination of their period of service.

6. Men who hold a certificate of exemption under this Act for the time being in force (other than a certificate of exemption from combatant service only), or who have offered themselves for enlistment and been rejected since the fourteenth day of August nineteen hundred and fifteen.

### THE DERBY SCHEME.

Before Parliament sanctioned the first bill establishing compulsory service 2,950,514 men had volunteered under what was known as the Derby scheme. Of these 275,031 had joined the army at the time of attesting—at the time they took the military oath—and 2,246,630 were available under the group system. This was a system under which men were registered for service according to their age and their condition—whether married or single. They were then placed in groups which were liable to be called by royal proclamation for immediate service.

The Derby scheme had as its basis the general registration of the population that was made in the summer of 1915. Men and women were included in this registration; and as a result of this work, which was done largely by men and women volunteers, who went from house to house, filling up the registration cards, the local and military authorities knew the whereabouts of every man and woman who could be of service—in the army or in the munition factories or other national wartime service.

The first of the groups under the Derby scheme were called up by royal proclamation issued on the 9th of February, 1916. Single men from 19 to 30—twelve groups—were then called, and ordered to report for service on March 3rd. Other groups—married as well as single men—were called in quick succession; and by May 11th, 1916, the last call under the Derby system had been issued. It was for married men in groups 42 to 46, and included men from 36 to 40 years of age inclusive.

The first of the compulsory laws—that affecting only unmarried men from 18 to 41, unless they had certificates of exemption or were of the exempted classes, went into force on June 24th, 1916. Youths of 18, although they were accepted under the Derby recruiting scheme, were not called up while the Earl of Derby's scheme was in operation, and when by June 24th both of the compulsory service Acts were in force youths of 18 were not required to report for service unless they desired to offer themselves for direct enlistment.

Thousands of youths of 18 went into service between the beginning of the war and March 1st, 1917, when the first of the compulsory laws went into effect. But neither in the armies on the several fronts, nor in the camps in Great Britain up to the end of 1917, were there boys of 18 who had been compelled by law to serve. Boys between 18 and 19 were not sent into the fighting lines until after the German advance of March, 1918.

## BRITISH WAR FINANCE.

## TAXATION, WAR LOANS, FINANCIAL AID TO DOMINIONS AND ALLIES.

Every year since the beginning of the Great War there has been published in the CANADIAN ALMANAC a carefully compiled and detailed statement of expenditures of the British Government on the war; and also of the taxation and loans by which these continuing colossal expenditures are being met. The survey that was published in the ALMANAC for 1918, carried the financial history of the war to October 30th, 1917. Up to that time there had been twenty-one votes of credit, aggregating £5,942,000,000 (see CANADIAN ALMANAC, 1918, p. 410).

## THE WAR'S GREATEST BUDGET.

In the present article the financial history of the war is carried to November 12th, 1918. But following the plan adopted in previous years, before dealing with the votes of credit of 1917-18, the more important features of the war budget of 1918-19 will be presented.

Mr. Bonar Law, the Chancellor of the Exchequer, submitted this budget—the financial statement for the year ending March 31st, 1918, and the estimated expenditures for the year ending March 31st, 1919—to the House of Commons, at Westminster, on April 22nd, 1918. It was described in London as the war's greatest budget; and the stupendous figures of taxation and expenditures—especially expenditures—amply justify this contemporary description of Mr. Bonar Law's statement to the House, and through the House to the United Kingdom, and the Empire at large.

## EXPENDITURES AND ESTIMATED EXPENDITURES.

The expenditures for the current year—ordinary expenditures of the United Kingdom and war expenditures—were estimated at £2,972,197,000. Of this sum, it is the expectation of the Chancellor of the Exchequer that £774,250,000 will be raised under fiscal laws that were in operation at the time the budget was submitted; and that £87,800,000 additional will be raised by new taxation to which statutory sanction was given after the budget had been laid before the House of Commons. If these two estimates of income for the current year are realized, there will be a total income from taxation of £842,050,000; and £2,130,147,000 must be raised by loans.

The expenditures for 1917-1918 were £2,696,221,000. The income from taxation and all other sources (excluding loans) was £707,235,000. The borrowings for the financial year were £1,989,986,000. The revenue in excess of estimates was £68,625,000.

## SURPRISINGLY LARGE YIELDS FROM TAXATION.

In commenting on the income for 1917-1918, the Chancellor of the Exchequer, emphasized the fact that there had been an excess over estimates under every head of taxation. "There has been," he said, "an excess in the amount received from the excess profits duty of £20,000,000, and of the total receipts from that duty upwards of £30,000,000 come from the controlled firms. The other large excess was from income tax and super-tax, which amount together to 15½ millions. The entertainment tax has yielded five millions sterling, or about half a million more than the estimate, in spite of the fact that the duty was put into force three months later than was intended, and some reductions in the scale were made at the time. The revenue from tobacco shewed an increase on the estimate last year of no less than £1,700,000. There was an excess in miscellaneous items of five millions. This is accounted for by the fact that when the Government of India undertook to provide by loan an obligation of £100,000,000, it was estimated that only about £10,000,000 would be raised in India, whereas £25,000,000 was raised in India itself. It is gratifying to find that there has been this excess in revenue—an excess which has characterized every Budget since the beginning of the war. It is satisfactory as shewing

the prosperity for the time being of our trades and industries. I do not wish the House to attach too much importance to that, for, as I have always believed, as long as money is being raised by borrowing there must be at least apparent prosperity; but that the real test of our financial position will come when this borrowing ceases, and we fall back on ordinary methods."

## ESTIMATED INCOME FOR 1918-1919.

The estimated receipts—receipts which it is expected will amount to £842,050,000 in the fiscal year ending March 31st, 1919—are from the undermentioned sources. The first table shews the estimated revenue from taxation, and also what was raised by similar taxation in 1917-1918; also what is expected from this taxation, plus the new taxation that went into operation on April 22nd, 1918. The second table shews the receipts from sources other than taxation in 1917-1918, and the additional income expected in 1918-1919 under the head of non-tax revenue.

## OLD TAXES INCREASED; NEW TAXES LEVIED.

The increases in taxes existing in 1917-1918, and the new taxes authorized by Parliament in April, 1918, are expected, as has already been stated, to yield £67,800,000. In detail the estimates on which this expectation is based are as follows:—

Income Tax (including farmers' increase) ..	£13,750,000
Super-tax .....	9,200,000

## ESTIMATED EXPENDITURES IN 1918-1919.

Earlier in this summary of the budget for 1918-1919, it was stated that Mr. Bonar Law's estimate was that the total expenditure for the year—the current year—would be £2,972,197,000. The various services—civil and military—which in the aggregate call for this vast expenditure are:—

ADVANCES BY GREAT BRITAIN TO THE ALLIES AND  
ADVANCES BY THE UNITED STATES.

In describing what may be called the international financial aspects of the war, Mr. Bonar Law recalled a statement he had made when he introduced to the House of Commons the budget of 1917-1918. "I then said," he reminded the House on April 22nd, 1918, "I was certain that the Government of the United States would assist the Allies financially to the full extent of their ability. I am glad to say that that expectation has been realized to the full. Our advances to the Allies last year amounted to £505,000,000 sterling. In addition to this the United States have advanced to all the Allies no less a sum during the year than £950,000,000. Of this sum approximately £500,000,000 was advanced to us and £450,000,000 to the Allies. Therefore, the House will see that whereas this year we advanced to the Allies approximately the same amount as last year, £505,000,000, as against £540,000,000, the United States advanced in addition £450,000,000—that is to say, the total advances by us and by the Government of the United States are £955,000,000. This will shew the House how enormously and naturally the financial needs of the Allies have increased, and how necessary was the financial assistance which had come from the Government of the United States. The House would notice that our advances to the Allies are approximately the same amount as the advances made to us by the Government of the United States. This is satisfactory. It means that it is only necessary for us to lean on the United States to the extent that the other Allies lean upon us, or that, in other words, after nearly four years of war, we are self-supporting. It is important from another point of view as showing that, in spite of all these difficulties, the net amount of indebtedness outside these islands has practically not increased. But there is something anomalous in this arrangement. It is almost in a sense absurd that we should be borrowing with one hand while we are lending with the other. The result is that our accounts are inflated, apparently, and in fact to that extent our credit is weakened."

## GREAT BRITAIN'S NATIONAL DEBT—NEARLY £8,000,000,000.

The national debt, as it stood at the end of 1917-1918, was £7,980,000,000. But some important deductions must be made from the gross total. There are large amounts due from the British dominions and from the Allies; also advances, aggregating £568,000,000, made to Russia—advances which, in April, 1918, looked rather like bad debts, although Mr. Bonar Law was not altogether without hope of the ultimate recovery of these sums lent to Russia in the days when that country stood with the Allies.

"Previously," said the Chancellor of the Exchequer, in explaining how the national debt stood, "in counting our liabilities, I have deducted altogether the advances to the Allies and to the Dominions. I do not

propose to take that course to-day. We cannot ignore what has happened in Russia, and though even yet I do not admit, and do not believe, that we should regard the debt of Russia as a bad debt, because, sooner or later, in spite of what is happening now, and whether Russia should or should not be divided, there will be an ordered government in the country. The natural resources of Russia are great. These resources can only be exploited with the aid of capital, and whenever there is a government foreign capital will be required, and they will realize that that will be unobtainable unless previous debts are paid. It is very necessary in dealing with national accounts to treat them in the same way as a business firm would treat its own accounts, and for the time being we must make allowance not only for what is happening in Russia, but for the possibility that by the time the war ends we may not be able to rely on receiving immediately the interest due to us by all our Allies. In making this calculation, therefore, I propose to take off half the debt of the Allies as if it were our liability. At the end of next year the total debt due by the Allies to us will be £1,632,000,000. I propose to deduct the indebtedness by the Dominions in full and the obligation of India in full, making a total of £1,124,000,000. The amount of our National Debt at the end of last year was £5,850,000,000. These would make a debt for which we would be liable of £6,856,000,000.

## VOTES OF CREDIT—1914-1918.

In 1918, Votes of Credit were passed by the House of Commons on March 7th, June 18th, August 1st, and Nov. 12th. A brief but enlightening history of the finance of the war was given to the House by Mr. Bonar Law when, on behalf of the Lloyd George Government, he asked for the vote of June 18th—a vote for £500,000,000. "The total amount of all our Votes of Credit," he said, "has gone up at an alarming rate."

In the first year of the war (1914-15) the amount was.....	£ 362,000,000
In the second year.....	1,420,000,000
In the third year.....	2,010,000,000
And last year.....	2,450,000,000

Making a total of .....£6,242,000,000  
The Vote I am now moving, with the previous amount I have asked the House for during the current year amounts to 1,100,000,000

Making the total Votes of Credit.....£7,342,000,000

This Vote is for £500,000,000, and at the present rate of expenditure it will carry us to the end of August.

THE INDEBTEDNESS OF THE DOMINIONS AND ALLIES  
TO GREAT BRITAIN.

The next vote was asked for, as the Chancellor of the Exchequer had anticipated, in August, 1918. It came before the House, in Committee of Supply, on August 1st. It was for £700,000,000. The Chancellor's statement of this vote was purely financial with no discussion of the war. It was, however, of much interest, because (1) of a detailed exposition of the financial relations of Great Britain with the oversea Dominions and with the Allies; and (2) because of the particulars it gave of the War Loans.

The statement of the debts due from the Dominions and the Allies carried these transactions from the date of the Chancellor of the Exchequer's budget speech (April 22nd, 1918), to the eve of the vote of credit of August 1st, 1918. The call from the Allies in this period had been £22,700,000 less than had been estimated.

"At the end of the financial year" (March 31st, 1918), said Mr. Bonar Law, "the debt due by the Allies to us was £1,332,000,000. It was now £1,402,000,000. The debt due by the Dominions was £194,000,000; it was now £208,500,000. Our debt from the Russian Government or the Russian people was £568,000,000. From France it was £402,000,000, from Italy £313,000,000, and from the smaller States of the Alliance, including Belgium, Serbia, and Greece, £119,000,000. No one's imagination could picture what £1,000,000,000 really meant. It represented the labour of ten millions of men for a whole year. The assistance given by the British Treasury to the Alliance was like the Navy—it

was so silent. Up to the time America came into the war the financial assistance given by the British Government was as vital to the continuance of the war as was the British Navy."

#### SUCCESS OF THE NATIONAL WAR BONDS PLAN.

Mr. Law, in his preliminary remarks on the working of the national tax bond plan, frankly admitted that at first he was very doubtful whether it would succeed. All doubts, however, had been dispelled; and he told the House why they had been dispelled. "The loan floated in January, 1917," he said, "was more successful than any loan ever issued in the world before, and the comparison with that year was a suitable one. Taking the nine months from January 1st, to September 30th, 1917, the total amount of money received by the War Loan was £948,459,000. During the same period, War Savings Certificates were £50,550,000, and Exchequer Bonds £82,110,000, making for the nine months a total of £1,081,119,000. The system of continuous borrowing was begun on October 20th, 1917. In the nine months from September 2nd, 1917, the amount contributed in National War Bonds was £917,430,000, and the amount in War Saving Certificates was £75,950,000, or nearly 50 per cent. more than for the corresponding period of the previous year, and in addition there had been applications for £35,000,000, making for this period £1,028,380,000."

#### THE LAST VOTE OF CREDIT IN 1918.

The House of Commons passed the last vote of credit for 1918 on November 12th. It was for £700,000,000. At this time the armistice had been signed. Mr. Bonar Law told the House that there would be a reduction in expenditure owing to the change in the military situation, but that the Treasury officials had advised him against reducing the amount of money to be voted. It might be necessary for the Allies to make efforts to bring food supplies to Europe, in which case a large expenditure

would be incurred. The Chancellor of the Exchequer added that the general financial situation at the end of the fiscal year, March 31st, 1919, would be better than his budget figures of April 22nd, 1918.

#### WHAT IS MEANT BY A VOTE OF CREDIT.

Before each vote of credit is submitted to the House of Commons a white paper is issued stating that the vote is an estimate of further amount required towards defraying the expenses which may be incurred for:—

General Navy and Army Services in so far as specific provision is not made therefor by Parliament.

The conduct of naval and military operations.

All measures which may be taken for the security of the country.

Assisting the food supply, and promoting the continuance of trade, industry, business, and communications, whether by means of insurance or indemnity against risk, the financing of the purchase and resale of foodstuffs and materials, or otherwise.

Relief of distress, and generally for all expenses beyond those provided for in the ordinary grants of Parliament, arising out of the existence of a state of war.

#### RATE OF INTEREST ON BORROWED MONEY.

The average rate of interest which the government is paying on loans is approximately 4½ per cent. "If," said the Chancellor of the Exchequer, when he announced this fact to the House of Commons, on May 2nd, 1917, "anyone is inclined to compare the rate of interest we have to pay with the rate in Germany, they have to bear in mind that the exchange there has been given up, and that they have only home conditions to consider. If we had been in that condition, I do not doubt that we could have got the money 1 or 1½ per cent. cheaper than we actually had to pay for it."

## THE POPULATION OF THE UNITED KINGDOM.

The census of the inhabitants of England and Wales, Scotland and Ireland, the Isle of Man and the Channel Islands is taken in the first year of each decade. The enumeration is carried out by means of household schedules—a plan first adopted in 1841. In taking the census for England and Wales in 1911 the enumerators worked under the direction of the 2,009 local registrars, and these again under the direction of the 635 superintendent registrars. The 2,009 registration districts were subdivided into 35,000 enumeration districts.

By means of this machinery the total number of persons returned as living in England and Wales at midnight of Sunday, April 2nd, 1911, was 36,075,269. For Scotland, the total population was returned as 4,759,521; for Ireland, 4,381,951; and for the islands of the British seas—the Isle of Man and the Channel Islands—148,934, making a total population for the United Kingdom of 45,365,675. The following table gives the actual population and the rate of increase in England and Wales for the last 110 years:—

Year.	Population.	Rate of Increase.
1801.....	8,892,536	.....
1811.....	10,164,256	14·00
1821.....	12,000,236	18·06
1831.....	13,896,797	15·80
1841.....	15,914,148	14·27
1851.....	17,927,609	12·65
1861.....	20,066,224	11·90
1871.....	22,712,266	13·21
1881.....	25,974,459	14·36
1891.....	29,002,525	11·65
1901.....	32,527,843	12·17
1911.....	36,075,269	10·91

During the 110 years it will thus be seen that the population of England and Wales has more than quadrupled, and that, roughly speaking, there are now four persons to every one inhabiting the country at the opening of the nineteenth century.

Ireland is the only part of the United Kingdom in which a religious census is taken. According to the returns of the enumerators at the census of 1911, out of the 4,381,951 inhabitants of Ireland, 3,233,056 are of the

Roman Catholic Church; 575,489 are of the Episcopal Church; 439,876 are Presbyterians, and 61,806 are Methodists. In the decrease of population, the Roman Catholics have lost the most, both in actual numbers and proportionately. The loss of the Roman Catholics is reckoned at 2·1 per cent.; of the Episcopalians, 1 per cent.; of the Presbyterians, 0·8 per cent.; and of the Methodists, 0·3 per cent. Of the total population the percentages are:—

Roman Catholics.....	73·9 per cent.
Episcopalians.....	13·1 "
Presbyterians.....	10·0 "
Methodists.....	1·4 "
Scattering.....	1·6 "

#### POPULATION OF THE OVERSEA DOMINIONS.

The Commonwealth of Australia, the Dominion of New Zealand, and the Union of South Africa took their census in 1911. The figures for Australia were:—

	Males.	Females.	Total.
New South Wales..	857,719	790,491	1,648,210
Victoria.....	654,523	660,477	1,315,000
Queensland.....	329,043	276,000	605,043
South Australia...	207,358	201,200	408,558
Western Australia..	165,373	120,613	285,986
North Australia...	2,748	562	3,310
Tasmania.....	97,336	93,562	190,878

Total population for the Dominion of Australia, 4,455,005. The population of Australia in 1901 was 3,773,801.

The population of the Dominion of New Zealand in 1911 was 531,910 males, 476,658 females; total 1,008,468.

For the Union of South Africa the total population of all races was 5,938,499, as compared with 5,185,824 in 1904. Of these there are 1,278,025 Europeans, compared with 1,116,806; and 4,061,082 natives, as compared with 3,495,104. The other colored inhabitants number 619,392, as compared with 563,914. The feature of the returns for South Africa is the shrinkage in the population of the coast towns with the exception of Durban, and the great growth of Johannesburg, the Reef and Pretoria.

## WAR INCOME TAX RATES IN GREAT BRITAIN, 1918-1919.

Several changes, all with a view to raising more revenue, were made by the Finance Act of 1918 in the rates of income tax in Great Britain. The maximum tax payable on incomes of £2,500 and over, was advanced from five to six shillings in the pound. No increase was made in the rate on incomes up to £500. There were, however, graduated increases in incomes from £500 to £2,500.

### CURRENT RATES OF TAX ON INCOMES ABOVE £500.

INCOME TAX IS PAYABLE ON ALL INCOMES OVER £130.

The accompanying table shows (1) the 1917-18 and 1918-19 rates on earned income of £550 and upwards; and (2) the rates on unearned incomes:

£	1917-1918		1918-1919	
	Earned. s. d.	Unearned. s. d.	Earned. s. d.	Unearned. s. d.

1,500.....	3 0	4 0	3 9	4 6
2,000.....	3 8	4 6	4 6	5 3
2,500.....	4 4	5 0	5 3	6 0

### DEDUCTIONS IN RESPECT OF CHILDREN AND DEPENDENTS.

Allowance of £25 in respect of children is now conceded on incomes not exceeding £800, instead of on incomes of £700 and under as in the 1917-1918 law. In the case of a taxpayer whose total income does not exceed £800 an allowance of £25 is made in respect of his wife, and of a like amount for any dependent relative, incapacitated by old age or infirmity, whom he maintains.

No change was made in the policy regarding double taxation within the Empire. But provision was continued under which relief from double taxation is allowed by Great Britain, subject to retention of the British income tax at a rate not less than 3s. 6d. in the pound.

### TENANT FARMERS' ASSESSMENT TO INCOME TAX.

Up to the end of the financial year, 1917-1918, the income tax payable by farmers was based on rental. Under the new law the basis for the tax—the amount on which the farmer pays income tax—is twice the amount he pays as rent for his holding. Comparatively few farmers in Great Britain own their holdings, which are usually held on lease or yearly tenancies. "From this source," said the Chancellor of the Exchequer (Mr. Bonar Law), when he announced the change in the House of Commons, on April 22nd, 1918, "the amount of increased revenue this year (1918-1919) will be £2,500,000, and in a full year £5,300,000." Mr. Bonar Law also told the House that more than 90 per cent. of farmers in Great Britain keep no accounts.

### SUPER-INCOME TAX.

The maximum rate of the super-income tax stood during 1917-1918 at 3s. 6d. in the pound. For the current year it is 4s. 6d.; and the level of income on which the super-tax becomes payable was reduced from £3,000—the 1917-1918 level—to £2,500. Under the new scale the following combined rates for income tax and super-tax are payable. The income tax is at the rate of 6s. 0d. in the pound, and the super-tax maximum is 4s. 6d.

	Income Tax.	Super- Tax.	Effective Rate.

150,000.....	45,000	32,687 10	10 4

### INCREASED POSTAL RATES.

Other new taxes, or increases in existing taxes, were one farthing additional on each box of matches and an increase in stamp duty on receipted bills and on bank cheques from one penny to twopence.

Postal rates, even with the monopoly enjoyed by the post office, are not ordinarily regarded as taxes. They are payments for transport services. It may be added, however, in concluding this survey of the additional war taxation imposed by the Finance Act of 1918, that postage on inland letters and letters for the Dominions and Crown colonies, and also for the United States, was increased from one penny to three halfpence. The rate for post cards was increased from one halfpenny to one penny. The increased excise duties on beer, wine, spirits and tobacco are noted in the British Customs Duties article in the current issue of the *Canadian Almanac*.

The Presbyterian Church in Canada was formed on June 15th, 1875, in Victoria Hall, Montreal, by the union of the Canada Presbyterian Church; the Presbyterian Church of Canada in connection with the Church of Scotland; the Presbyterian Church of the Maritime Provinces in connection with the Church of Scotland and the Presbyterian Church of the Lower Provinces.

#### THE BASIS OF UNION WAS IN BRIEF.

1. The Scriptures of the Old and New Testaments, being the Word of God, and the only infallible rule of faith and manners.
2. The Westminster Confession of Faith shall form the subordinate standard of the Church; the Larger and Shorter Catechisms shall be adopted for the instruction of the people.
3. The government and worship of the Church shall be in accordance with the recognized principles and practice of the Presbyterian Church as laid down generally in the form of Presbyterian Church government, and in the Directory for the public Worship of God.
4. (1) This Church cherishes Christian affection towards the whole Church of God, and desires to hold fraternal intercourse with it, in its several branches, as opportunity offers.  
 (2) This Church shall, under such terms and regulations as may from time to time be agreed on, receive ministers and probationers from other churches, and especially from churches holding the same doctrine, government and discipline with itself.

There are Eight Synods:—

## Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of at least six Trustees, appointed jointly by the Municipal Councils concerned. In Urban Municipalities Trustees may be appointed by the Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have the right to appoint a trustee. The Principal of the High School or Collegiate Institute must be a graduate of a University in the British Dominions, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and funds must be raised by local assessment. Every High School must have a Principal and at least one assistant teacher. Each Collegiate Institute receives a fixed amount of \$250, and each High School with fewer than four teachers \$300, others schools \$275, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes. Special grants ranging from \$40 to \$160 are also given to "Approved Schools." Pupils attending Continuation and High Schools, and Collegiate Institutes may receive training fitting them for business life or the academic standing required of school teachers, or may be prepared for Matriculation to the Universities. There were 48 Collegiate Institutes, 113 High Schools, and 137 Continuation Schools doing the same grade of teaching in connection with the Public and Separate Schools in Ontario in 1917-1918.

**Public Schools.**—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to form a Board to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by an elected Board of at least six Trustees.

## TECHNICAL AND INDUSTRIAL SCHOOLS.

The Industrial Education Act provides for the organization of a system of Technical and Industrial Schools for Ontario. These schools are (1) *Day Schools*, as follows:—(a) General Industrial Schools and Courses for instruction in such subjects as may form a basal preparation for the trades, including workshop practice; (b) Special Industrial Schools and Courses, for instruction in the theoretical and practical work of particular trades; (c) Technical High Schools and High School Courses; (d) Part-time co-operative Industrial Courses in which apprentices employed in the workshops may receive instruction bearing upon their trades; (e) Schools and Courses for instruction in the fine and applied arts. (2) *Night Schools*, in which workmen and workwomen employed during the day may receive theoretical and practical instruction in their trades or callings. Each school is under the control of an Advisory Industrial Committee appointed by the High School Board of the municipality. This committee consists of an equal number of representatives of the Board and of the manufacturing or other industries of the place. The representatives of

the industries are made up equally of employers and employees. The schools are liberally supported by Government grants, based upon the amount paid for the salaries of the teachers, and upon the accommodations and equipment provided. Schools are conducted under this Act as follows:

*Day Schools* at Brantford, Chatham, Haileybury, Hamilton, Kingston, London, Ottawa, Sault Ste. Marie, Sudbury, Toronto and Windsor.

*Night Schools* at Almonte, Arnprior, Belleville, Brantford, Brockville, Chatham, Cobourg, Collingwood, Coniston, Cornwall, Dundas, Fort William, Galt, Goderich, Guelph, Hamilton, Ingersoll, Kitchener, London, Newmarket, Niagara Falls, Ottawa, Owen Sound, Parry Sound, Pembroke, Perth, Peterborough, Renfrew, Sault Ste. Marie, Stratford, St. Catharines, St. Thomas, Thorold, Toronto, Welland, Whitby, Windsor and Woodstock.

*Principals of Industrial and Technical Schools*—Hamilton Technical and Art School, G. L. Sprague, B.A.; London Industrial and Art School, H. B. Beaf; Ottawa Technical School, D. A. Campbell, B.A.; Toronto Technical and Art School, A. C. McKay, B.A., LL.D.

## EDUCATIONAL INSTITUTIONS.

### THE UNIVERSITY OF TORONTO

WITH WHICH ARE FEDERATED

**Victoria and Trinity Universities, and St. Michael's, Knox, and Wycliffe Colleges.**

The University of Toronto includes the Faculties of Arts, Medicine, Applied Science and Engineering, Household Science, Education, Forestry and Music. The Faculty of Arts, in its turn, includes the four Arts Colleges:—University College, Victoria College, Trinity College and St. Michael's College, in one or other of which all undergraduates in Arts are enrolled. In certain subjects (chiefly the languages) the undergraduate work is conducted by these colleges, each for its own students; in the remaining subjects (chiefly the sciences) all the students receive instruction in common from a general University Arts Staff. For all Arts students, whatever their college, the curriculum and examinations are those of the University of Toronto, from which also they receive their degree of B.A. The University has no Faculty of Theology; in this department of work the federated Universities, Victoria and Trinity, still retain their original independence and degree conferring powers.

The following Colleges are in affiliation with the University of Toronto, their Students obtaining their Degrees at this Institution:—

Royal College of Dental Surgeons	Ontario Agricultural College
Ont. College of Pharmacy	Ontario Veterinary College

# LIFE ASSURANCE IN CANADA.

The business of life assurance in Canada during the year, 1917, was conducted by 45 active companies—26 Canadian, 8 British, 10 Foreign.

## NEW ASSURANCES EFFECTED.

In the year under review, the new policies effected amounted to \$282,120,430, an increase from those taken out in the preceding year of \$51,018,805. The respective amounts effected in each of the three classes of companies were:

Canadian Companies, \$172,703,621, or 61% of the whole  
British Companies .. 5,109,183, " 2% " "  
Foreign ..... 104,307,626, " 37% " "

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by \$63,286,812.

## TOTAL ASSURANCE IN FORCE.

The aggregate of life assurance in force December 31st, 1917, amounted to \$1,585,042,563, an increase over that of the previous year of no less than \$162,862,931. The distribution is shown as follows:

Companies.	Amount in Force.	Increase.
	\$	\$
Canadian.....	996,699,282	101,170,847
British and Colonial.....	58,617,506	534,425*
United States.....	529,725,775	62,226,509
Total.....	\$1,585,042,563	\$162,862,931

\*Decrease.

The progress of the business, from the standpoint of the aggregate volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the three previous decades:

## AGGREGATE LIFE ASSURANCE IN FORCE AT CLOSE OF

Year.	Canadian Companies.	Foreign Companies.	British Companies.	Total.
	\$	\$	\$	\$
1887	101,796,754	61,734,187	28,163,329	191,694,270
1897	208,655,459	100,063,684	35,293,134	344,012,277
1907	450,573,724	188,487,447	46,462,314	685,523,485
1917	996,699,282	529,725,775	58,617,506	1,585,042,563

From \$191,694,270 in 1887 to \$1,585,042,563 in 1917, represents the large increase of over 726% in thirty years.

## DEATH RATE.

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1917 was 11·058, an increase over the highest rate in the preceding four years. The increase is accounted for by the war. The total death claims from all causes amounted in the year 1917 to \$17,963,652. The war claims alone amounted to \$5,629,232, or 31·30% of the total. The following table gives the rate for each of the years 1913-14-15-16-17:

	1917.	1916.	1915.	1914.	1913.
Active Companies (ordinary)	11·323	10·649	8·368	7·527	7·341
Active Companies (industrial)	10·559	10·261	8·743	8·870	9·286
Assessment and Fraternal Societies	16·453	13·694	11·994	10·923	9·644
Non-active and retired companies...	37·574	56·629	41·356	30·774	36·342
All Companies.....	11·058	10·593	8·842	8·583	8·692

## BENEFITS TO POLICYHOLDERS.

During 1917 the amount disbursed on behalf of policyholders by way of death claims, endowments, dividends, aggregated \$39,983,912·89. The details are as follows:

For Death Claims .....	\$18,932,776·47
For Disability Claims .....	11,597·87
For Matured Endowments.....	5,859,839·58
For Annuities .....	1,745,534·82
For Cash Surrender Values.....	7,568,891·57
For Dividends and Profits.....	5,844,046·55
For Guaranteed Interest Payments.....	21,226·03
Total.....	\$39,983,912·89

## ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES.

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies for the year ending December 31st, 1917:

# Protection

IN time of war, Britain's mighty fleet triumphantly fulfilled its part in the defeat of the enemy, because Preparedness was the key-note of the navy.

They knew that some day they would be needed—would be called on to fulfil their purpose as a bulwark and a shield.

When the time came they were ready.

As the navy has proved to be a shield against aggression, so is a Confederation Life Policy a shield against want in old age.

Are you ready and fully prepared?

Because you carry some insurance it does not necessarily follow that you are fully prepared.

Every thoughtful man will in view of new conditions reconsider the insurance question from the new point of view.

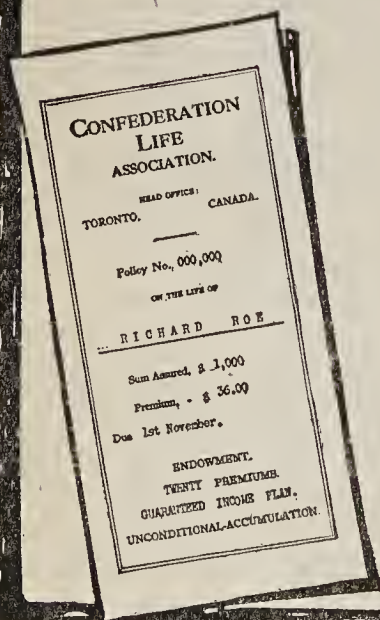

Almost everything has increased in cost except life insurance. More insurance is advisable to offset this increased cost.

The protection furnished by a Confederation Life Association Policy with the new Total and Permanent Disability Clause is Protection full and complete.

A guaranteed Monthly Income for yourself if you live. A guaranteed Monthly Income for your family if you die. No more premiums to pay if you are disabled, but a monthly income paid to you, and all your premiums paid for you as well.

A Confederation Life Representative will gladly show you a specimen policy and explain the advantages of this fully Protective insurance.

## Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 157 (1914), the Benchers consist of 30, elected by the Bar, and *ex-officio* members, consisting of the Minister of Justice, the Solicitor-General of the Dominion, and all members of the Bar of Ontario who have at any time held the office of Minister of Justice or Solicitor-General of the Dominion or of Ontario, or the Attorney-General of Ontario, and every person who has held this office. Every person, treasurer of this Society for seven consecutive years, every person who has been elected for four quinquennial elections, and so long as he does not practice as a Barrister or Solicitor, every retired Judge of the Supreme Court of Canada

or of the Exchequer Court of Canada who was a member of the Bar of Ontario, and any retired Judge of the Supreme Court for Ontario; the *elected* being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation for the call of Barristers, the admission of Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Supreme Court of Ontario; with a valuable and extensive library.

## Museums in Canada.

## ROYAL ONTARIO MUSEUM.

Bloor Street and Avenue Road, Toronto.

ROYAL ONTARIO MUSEUM OF ARCHÆOLOGY—C. T. Curry, O. Medj., M.A., F.R.S.C., *Director*.

The museum possesses large collections that show the primitive skill of the men in the Palæolithic, Neolithic, Copper, and Bronze ages. The early grain civilisations are illustrated in three galleries of Babylonian and Egyptian objects; the classical period occupies two galleries, and ethnology and the American Indian three. Of civilisation later than that of Rome special attention has been given to the collections of arms, glazed earthenware, Chinese ceramics, Japanese work, wood-work and furniture, textiles, embroideries and laces.

The collections have been formed to teach as far as possible the history of mechanical work, and to be a stimulus to the modern worker.

ROYAL ONTARIO MUSEUM OF GEOLOGY—Professor A. P. Coleman, Ph.D., F.R.S., *Director*.

The exhibits are arranged chiefly on an economic basis, sections being devoted to ores of the metals, fuels, ceramics, building stones, abrasives, refractories, etc. Especial attention has been directed to building and ornamental stones, copper and nickel ores, marbles and Canadian coals. The economic geology of famous mining regions is illustrated by suites of specimens among which the series from the nickel region of Sudbury is particularly complete. Glacial geology has received particular attention: striated surfaces, striated stones, and tillites are represented from all the known Ice ages and from all parts of the world.

ROYAL ONTARIO MUSEUM OF MINERALOGY—Professor T. L. Walker, Ph.D., F.G.S., *Director*.

This museum contains an unusually complete series of minerals from all parts of the world as well as a special collection of Canadian minerals for consultation by visitors particularly interested in the minerals and ores of Canada. The museum also contains collections of crystals, rocks, meteorites, radium minerals, and rocks from Antarctica.

A large part of these collections has been presented by persons connected with the mining industry.

ROYAL ONTARIO MUSEUM OF PALEONTOLOGY—Professor W. A. Parks, Ph.D., F.G.S.A., *Director*.

The museum contains extensive series of Invertebrate fossils arranged to illustrate the anatomy and classification of the different zoological branches, and to indicate the important faunas of the geological ages. Vertebrate fossils are represented by striking reptiles and by an excellent collection of fishes. Fossil plants are shown by good series of Carboniferous, Cretaceous, and Interglacial forms. The collections contain also a special Canadian series designed for the use of students of Canadian geology.

Much unique material is included in the exhibits, and many type specimens of particular value, e.g., Matthews types of Cambrian fossils from eastern Canada.

ROYAL ONTARIO MUSEUM OF ZOOLOGY—Professor B. A. Bensley, Ph.D., F.R.S.C., *Director*.

Contains exhibits of representative groups of animals, chiefly Canadian. About 1,000 mounted specimens of birds. Special exhibits of foreign birds, including pheasants, humming birds, and birds of paradise. Collections illustrating natural history of Atlantic and Pacific coasts of Canada.

## ONTARIO PROVINCIAL MUSEUM, TORONTO.

EDUCATION DEPARTMENT, ST. JAMES SQUARE.

Copies of ancient and modern statuary, busts of British and Canadian celebrities, paintings by Ontario artists, insects and reptiles mostly of Ontario; mounted birds and mammals. In the Archæological and Ethnological department there are upwards of 35 thousand specimens illustrative of primitive life in America, but especially in Ontario. The officials of the Museum are at all times ready to identify Archæological and Natural History specimens for the public, and give such further information relating thereto as is required. As the property of the provincial government, it is open to the public, free, daily, from 9 a.m. to 5 p.m. Dr. R. B. Orr, *Supt.*; C. W. Nash, *Biologist*.

## Whether you travel for Business or Pleasure—Go by Boat

There is no country in the world that can offer so many fine water-trips. Take advantage of the wonderful trips that people come from all over North America to enjoy. Plan to spend your summer's vacation in Canada.

### NIAGARA TO THE SEA

You can start your trip at Niagara Falls, at Toronto or Montreal. Make it a two-week trip, or take any part of it. Between Toronto and Montreal you will encounter the ever-changing, ever-glorious scenery of the Thousand Islands—and the exciting experience of "Shooting the Rapids." Later comes Quebec, the city quaint and beautiful. Visit the miracle-working shrine at Ste. Anne de Beaupre. The Boats touch at Murray Bay and Tadoussac.
